Ain Shams University
Faculty of Science
Chemistry Department

Novel Application of Some Luminescent Materials for Anti-counterfeiting Purposes

A Thesis
Submitted to Chemistry Department – Faculty of Science –
Ain Shams University
for Ph.D. Degree of Science in Chemistry

By

Said Ismail Mohamed Rohaym

B.Sc. in Chemistry, Faculty of Science, Ain Shams University (1997)
M.Sc. in Chemistry, Faculty of Science, Helwan University (2012)
A Forensic Document Examiner, Forgery and Counterfeiting department, Forensic Medicine, Ministry of Justice.

Under Supervision of

Prof. Dr. Ashraf A. Mohamed

Professor of analytical chemistry, Faculty of Science,
Ain Shams University

Prof. Dr. Samya El-Sherbiny

Professor of Applied Chemistry, Faculty of Science,
Helwan University

Prof. Dr. Wafaa B. Beshir

Radiation Protection and Dosimetry Department, National Center for Radiation Research and Technology, Atomic Energy Authority (AEA)

Prof. Dr. Yasser S. Soliman

Radiation Protection and Dosimetry Department, National Center for Radiation Research and Technology, Atomic Energy Authority (AEA)

2020

Chemistry Department

Approval sheet

Novel Application of Some Luminescent Materials for Anti-counterfeiting Purposes

By

Said Ismail Mohamed Rohaym
B.Sc. in Chemistry, Faculty of Science, Ain Shams University (1997)
M.Sc. in Chemistry, Faculty of Science, Helwan University (2012)
A Forensic Document Examiner, Forgery and Counterfeiting department, Forensic Medicine, Ministry of Justice.

This thesis of for Ph.D. Degree of Science approved by

Prof. Dr. Ashraf A. Mohamed .....
Faculty of Science, Ain Shams University

Prof. Dr. Samya El-Sherbiny .....
Faculty of Science, Helwan University

Prof. Dr. Wafaa B. Beshir .....
National Center for Radiation Research and Technology, Atomic Energy Authority (AEA)

Prof. Dr. Yasser S. Soliman .....
National Center for Radiation Research and Technology, Atomic Energy Authority (AEA),

Head of Chemistry Department
Prof. Dr. Ayman Ayoub Abdel-Shafi

Ain Shams University
Faculty of Science
Chemistry Department

Student Name: Said Ismail Mohamed Rohaym

Scientific Degree:
Ph.D. Degree of Science in Chemistry

Faculty Name:
Faculty of Science – Ain Shams University

Graduation Year: 1997

Granting Year: 2020

Ain Shams University
Faculty of Science
Chemistry Department

Acknowledgments

First and foremost, thanks be to the almighty (**ALLAH**) for his limitless help and guidance and peace be upon his prophet.

I am greatly indebted to my supervisors: **Prof. Dr. Ashraf A. Mohamed** (Professor of analytical chemistry, Faculty of Science, Ain Shams University), **Prof. Samya Ibrahim El-Sherbiny** (Professor of Applied Chemistry, Faculty of Science; Helwan University), **Prof. Wafaa B. Beshir** (Radiation Protection and Dosimetry Department, National Center for Radiation Research and Technology, Atomic Energy Authority (AEA),) and **Dr. Yasser S. Soliman** (Radiation Protection and Dosimetry Department, National Center for Radiation Research and Technology, Atomic Energy Authority (AEA)) for their kind supervision, valuable and fruitful suggestions and advices, useful discussions and the time they have dedicated to me.

Particular thanks to Staff of Rakta Company for the kind help and cooperation.

Many thanks for my family especially **My Mother, My Father and My Wife** for their help and patience over the years.

Table of Contents

Table of Contents

Aim of the Work **1**
Summary **2**
1. Introduction and Literature Survey **6**
1.1. Raw Materials of Paper **6**
1.1.1. The Fibrous Raw Materials 6
1.1.2. The Non-Fibrous Raw Materials 7
1.2. Papermaking **8**
1.2.1. Pulping Stage 9
1.2.2. Forming Stage 10
1.2.3. Drying Stage 11
1.2.4. Coating and Paper Finishing Stage 11
1.3. Security Paper **11**
1.3.1. Security Fibers 12
1.3.2. Security Threads 13
1.3.3. The watermark 14
1.3.4. Optically Variable Ink (OVI) 15
1.3.5. Micro and Nano-Printing 15
1.3.6. Security Ink 16
1.4. Luminescence Phenomena **17**
1.5. Luminescent Materials **19**
1.5.1. Applications of Luminescent Materials 20
1.5.2. Luminescence Materials Tags as Anti-Counterfeiting Tool 20
1.5.3. Luminescence Materials Doped with Rare Earth Ions 22
1.5.4. Luminescence Cellulose Fibers 23
1.5.5. Luminescence Ink Doped with Rare Earth Ions 25

1.6. The Calcium Titanate $CaTiO_3$ 26
1.7. The Zinc Silicate (Zn_2SiO_4) 28
1.8. Gamma Irradiation of Paper.....29
1.9. Security Printing of the Covert Quick Response, QR Codes.....30
2. Experimental Methods.....31
2.1. Materials.....31
2.2. Instrumentation 31
2.3. Synthesis of ($CaTiO_3$-Pr(III), CTPr) Red-Violet Phosphor.....32
2.4. Synthesis of ($CaTiO_3$-Sm(III), CTSm) Red Phosphor... 33
2.5. Synthesis of (Zn_2SiO_4:Y(III), ZSY) Green Phosphor.... 33
2.6. Preparation of Secured Paper Sheets 34
2.6.1. Preparing of Wood Pulp 34
2.6.2. Sheet Making.....34
2.7. Preparation of Ultraviolet Ink and Film.....38
2.8. Gamma Irradiation of the Prepared Paper Sheets..... 38
2.9. The Lifetime and Decay of Cellulose Free Radicals for Irradiated Paper sheets. 39
2.10. Characterization of the Synthesized CTPr, CTSm and ZSY Phosphors.....39
2.11. Characterization of the Secured Paper Sheets....40
2.11.1. Mechanical Properties of Paper Sheets 40
2.11.1.1. Burst Index 40
2.11.1.2. Tensile Index 40
2.11.1.3. Tear Index.....41

2.11.2. Optical Properties of Paper Sheets 41
2.11.2.1. Brightness 41
2.11.2.2. Opacity 42
2.12. Characterization of the PVA Films 42
3. Results and Discussion 43
3.1. Synthesis and Application of Calcium Titanate:Praseodymium Red-Violet Phosphor for Anti-Counterfeiting of Paper Documents.....43
3.1.1. XRD Analysis 43
3.1.2. SEM Analysis 44
3.1.3. Photoluminescence Analysis 45
3.1.4. Images of $CaTiO_3$, CTPr Powders and Loaded Papers Sheets Under UV Light.....46
3.1.5. The Effect of $CaTiO_3$:Pr(III), CTPr on Paper Sheets Properties. 48
3.1.5.1. Mechanical Properties 48
3.1.5.2. Optical Properties 51
3.2. Novel Dual Anti-Counterfeiting Technique for Paper Documents Using ($CaTiO_3$:Sm, CTSm) phosphor and Gamma Irradiation. 54
3.2.1. XRD Analysis 54
3.2.2. SEM Analysis 55
3.2.3. Photoluminescence Analysis 56
3.2.4. The Images of Loaded Paper Sheets Under UV Light 57
3.2.5. Images of PVA Films and Ink Under UV Light58
3.2.6. Effect of $CaTiO_3$:Sm, CTSm on Paper Sheets Properties. 61
3.2.6.1. Mechanical Properties 61

3.2.6.2. Optical Properties 62
3.2.7. Effect of Gamma–Irradiation on Paper Sheets Properties loaded with 12% $CaCO_3$ or 12% CTSm 68
3.2.7.1. Mechanical Properties 68
3.2.7.2. Optical Properties 70
3.2.7.3. The Effect of Gamma Irradiation on Surface Morphology of Paper sheets loaded with 12% CTSm.....74
3.2.7.4. XRD Spectral Patterns of Non-Irradiated and Gamma Irradiated Paper Sheets Loaded with 12% $CaCO_3$.....75
3.2.7.5. The ESR Spectra of the Irradiated and Non-Irradiated Paper Sheets Loaded with 12% CTSm 77
3.2.7.6. The Lifetime and Decay of Cellulose Free Radicals for Irradiated Paper Sheet Sheets Loaded with 12% CTSm. 77
3.2.7.7. The ESR Intensity of Irradiated Paper Sheets Loaded with 12% CTSm After Different Times. 79
3.3. Preparation and Application of Yttrium-Doped Zinc Silicate Green Phosphor for Anti-Counterfeiting Purposes. 82
3.3.1. XRD analysis 82
3.3.2. SEM Analysis 83
3.3.3. Photoluminescence Analysis 84
3.3.4. Images of Paper Sheets, PVA Films and Ink Under UV Light at 365 Nm. 84

3.3.5. Effect of Zn_2SiO_4:Y(III), ZSY on Mechanical and Optical Properties of Paper Sheets. 86
3.3.6. Effect of ZSY on the Mechanical Properties of PVA Films. 91
3.3.7. Effect of ZSY on Luminescence of Paper Printed using the prepared PVA Ink. 94
3.3.8. Using Zn_2SiO_4-Y(III) Green Phosphor for Security Printing Applications.....95
3.3.9. Stability Test of the Security Ink on Paper.....101
4. Conclusions 103
4.1. Part One: Synthesis and Application of Calcium Titanate:Praseodymium Red-Violet Phosphor for Anti-Counterfeiting of Paper Documents. 103
4.2. Part two: Novel Dual Anti-Counterfeiting Technique for Paper Documents Using ($CaTiO_3$:Sm, CTSm) phosphor and Gamma Irradiation. 104
4.3. Part Three: Preparation and Application of Yttrium-Doped Zinc Silicate Green Phosphor for Anti-Counterfeiting Purposes. 105
