سورة البقرة آية (٣٢)

ACKNOWLEDGEMENT

First and foremost, thanks are due to ALLAH.

It is a great honor for me to express my deepest gratitude and sincere appreciation to *Prof. Dr. Bothina L. Mahmoud*, Professor and Head of Histology Department, Faculty of Medicine, Menofiya University, for expert guidance, continuous supervision, valuable advice and generous encouragement and support offered to me throughout this work. Without her great effort, time given and scientific experience, this work would not come out.

I would like to express my greatest appreciation and thanks to *Prof. Dr. Samy H. Atteya*, Professor of Histology, Faculty of Medicine, Menofiya University, for valuable support throughout this work.

I would like to express my special sincere thanks and deep gratitude to *Dr. Magda A. Mansour*, Lecturer of Histology, Faculty of Medicine, Menofiya University, for great help and cooperation.

I am deeply grateful to my colleagues in the Histology department, Faculty of Medicine, Menofiya University, for their cooperation and encouragement.

Thanks are extended to every one who helped me in this work.

To my small family

INDEX

***Introduction**

***Aim of the work**

***Review of literature**

Anatomical aspect of suprarenal gland

Histological aspect of suprarenal gland

Physiology of suprarenal gland

Postnatal development of suprarenal cortex

Antihypertensive drugs

Converting enzyme inhibitors

Pharmacological aspect of Captopril

Previous work on the effect of captopril on suprarenal cortex
