thanking God who inspired me, took my hand and
provided me with power, patience and energy.*

ACKNOWLEDGMENT

I wish to express my deep gratitude and hearty thankfulness to my dear parents who are always patient during the many hours of daily work devoted to my Thesis, in what seemed like an endless process of revisions and finalizing it, and for their sympathy, valuable advice, continuous encouragement and help.

It gives me honor and privilege to express my deep gratitude to *Prof. Dr. Mohammad M. Ezzat*, Professor of Mathematics, Dean of the Faculty of Science, Tanta University for his supervision and kindhearted help.

I'd like to say that words are not enough and incapable to express exactly my own inner feelings to my supervisor *Prof. Dr. El-Houssainy A. Rady*, professor of Statistics, I.S.S.R., Cairo University, for his kind help and guidance.

My hearty thankfulness is due to *Dr. Amina A. Saleh*, Assistant Professor of Statistics, I.S.S.R., Cairo University. In fact, she suggested the topics, and provided me with all possible help.

I'd to express my deep thanks to *Prof. Dr. Entesar M. El-Kholy*, Head of Mathematics Department, Faculty of Science, Tanta University for her valuable advice and help.

I offer my thanks and gratitude to my all dear professors and colleagues at the Mathematics department, Tanta University and the I.S.S.R., Cairo University.

May God bestow on them His blessings for all favors they render those who are in bad need to their fruitful and desirable help.

N. M. Kilany
