ACKNOWLEDGMENT

As a start, I bow my head in a true gratitude to Almighty God for His Guidance, Blessings and Helps.

My passion, love, gratitude...to my parents, and my brothers who always give me sincerely and endlessly in return for nothing and, very specially, to my mother who was and has still been a constant source of inspiration and support.

My tongue could not be able to express exactly my own inner feelings and deepest gratitude towards my spiritual father and supervisor **Prof. Dr. M. EL-Ghoul** for suggesting the subject matter of this thesis, sincere supervisions and valuable discussions. I wish to express my deep thanks and gratitude to **Prof. Dr. Abd EL-Monem M. Kozae**, for his everlasting encouragement and valuable help. I'm very thankful and heartily grateful to **Dr. Huda Kamal El-Sayed** for her great interest, openhandedness and faithful help.

I would like to express my great thanks to all staff at the Department of Mathematics, Faculty of Science, Tanta University especially, **Prof. Dr. E. M. El-Kholy**, the head of Mathematics Department for her encouragement and endless help.

May Allah reward them good for all what they have done to me..
