Menofia University
Faculty of Science

Microbiological Studies on Some Pathogenic Fungi to Human Skin

Thesis

submitted in partial fulfillment for
the Requirements of the degree of Master of
Science in Microbiology

By

Nabil Mahmoud Abd El Hamid

Under the Supervision of

M. Ale.
Dr

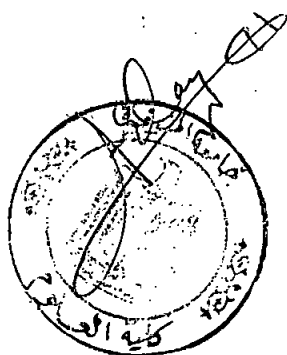

Mohamed A. Hefnawy

Assistant Professor of
Microbiology
Faculty of Science
Menofia University

M. Gh.
Dr

Mohamed M. Gharieb

Assistant Professor of
Microbiology
Faculty of Science
Menofia University

A KNOWLEDGMENT

I am indebted to my supervisor Dr. **Mohamed Ali Afifi**, assistant Professor of Microbiology, Faculty of Science, Menofia University for Suggesting the theme and planning of this study and also for the guidance and help in writing the manuscript and for other facilities that he introduced during his supervision of this work.

I would like to thank deeply Dr. **Mohamed M.Gharieb**, assistant professor of Microbiology, Faculty of Science, Menofia University for the guidance and help he has given during his supervision of this work and also for Suggesting the theme of this work. .

I wish to thank Dr. **Zaki Torki** assistant professor of taxonomy, Botany Dept. Faculty of science, Menofia University for his help in identification of the wild plants which where collected from the north coast of Egypt.

I must offer my deepest appreciation and hearty thanks to all members of my family.

SPECIAL THANKS

To my Dear supervisor Dr. *Mohamed Ali Affi hefnawy*. Assistant Prof. of Microbiology for his wise guidance and great help & efforts which were the lights that directed me during the scope of this work.

I would like to dedicate thesis to
my parents

CONTENTS

TITLE.....	
ACKNOWLEDGMENTS.....	
SPECIAL THANKS.....	
DEDICATION.....	
ABSTRACT.....	

CHAPTER 1. INTRODUCTION

1. Superficial candidiasis.....	2
2. Dermatophytic infection.....	4
3. Effect of environmental factors on the growth of both <i>Candida albicans</i> and <i>Trichophyton mentagrophytes</i>	6
3.1. Effect of temperature.....	6
3.2. Effect of pH value.....	7
3.3. Effect of Relative humidity "R.H%".....	8
4. Efficacy of antifungal drugs.....	9
5. Effect of heavy metals.....	14
6. Antimicrobial activities of plant extracts.....	18
7. Aims of this work.....	22

CHAPTER 2. MATERIALS AND METHODS

1. Organisms.....	24
2. Media.....	24
3. Growth condition.....	26

3.1.	Effect of different liquid media on the growth of <i>C. albicans</i> and <i>T. mentagrophytes</i>	26
3.2.	Effect of incubation temperature.....	27
3.3.	Effect of pH value.....	27
3.4.	Effect of relative humidity (R.H%).....	28
4.	Effect of different concentrations of some antifungal drugs on the growth of <i>C. albicans</i> and <i>T. mentagrophytes</i>	28
5.	Effect of different concentrations of some heavy metals on the growth of <i>C. albicans</i> and <i>T. mentagrophytes</i>	29
6.	Effect of different concentrations of some antifungal drugs in combination with 10 ppm selenium or cobalt on the growth of <i>C. albicans</i> and <i>T. mentagrophytes</i>	30
7.	Effect of selenium, terbinafine or both together on total proteins , lipids, carbohydrates and free amino acids content in <i>C. albicans</i> and <i>T. mentagrophytes</i>	30
7.1.	Carbohydrates determination.....	31
7.2.	Protein determination.....	31
7.3.	Lipid determination.....	33
7.4.	Determination of free amino acids content.....	35
8.	Antifungal activity of some plant extracts.....	37
8.1.	Plant collection.....	37
8.2.	Preparation of plant extract.....	38
8.3.	Effect of traditional folk medicinal and wild plant extracts on the growth of <i>C.albicans</i>	38
