Evaluation of the Efficacy of Nanofat Injection in Treatment of Androgenic Alopecia

Thesis

*Submitted for Partial Fulfillment of Master's Degree in
Dermatology, Venereology & Andrology*

By

Yara Amr Ahmed Nazmy

M.B, B.CH, Faculty of Medicine, Ain Shams University

Under supervision of

Prof. Dr. Hanan Mohamed El Kahky

*Professor of Dermatology, Venereology and Andrology
Faculty of Medicine, Ain Shams University*

Prof. Dr. Wael Mohamed Seoudy

*Assistant Professor of Dermatology, Venereology and Andrology
Faculty of Medicine, Misr University for Science and Technology*

Dr. Rania Mahmoud Elhusseiny

*Lecturer of Dermatology, Venereology and Andrology
Faculty of Medicine, Ain Shams University*

**Faculty of Medicine
Ain Shams University**

2021

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

وَقُلْ رَبِّ
زِدْنِي عِلْمًا

سورة طه

(الاية ١١٤)

صَدَقَ اللَّهُ الْعَظِيمُ

Acknowledgment

*First and foremost, I feel always indebted to **ALLAH**,
the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and
profound gratitude to **Prof. Dr. Hanan
Mohamed El Kahky**, Professor of Dermatology,
Venereology and Andrology - Faculty of Medicine- Ain
Shams University for helping me choose this important
and new subject and the continuous support.*

*I am also delighted to express my deepest
gratitude and thanks to **Prof. Dr. Wael Mohamed
Seoudy**, Assistant Professor of Dermatology,
Venereology and Andrology, Faculty of Medicine, Misr
University for Science and Technology for his kind care,
great help and providing me with valuable advice.*

*I am deeply thankful to **Dr. Rania
Mahmoud Elhusseiny**, Lecturer of Dermatology,
Venereology and Andrology, Faculty of Medicine, Ain
Shams University for her continuous supervision,
patience, constant help and great assistance throughout
this work.*

*I would like to express my deepest gratitude for
my parents for without them I would not be who I am
today .*

*Last but not least, I would like to thank my
family for supporting me throughout this journey and for
always believing in me.*

Yara Amr Ahmed Nazmy

List of Contents

Title	Page No.
List of Tables	i
List of Figures	ii
List of Abbreviations.....	iv
Introduction	1
Aim of the Work.....	3
Review of Literature	
Chapter 1: Androgenic Alopecia.....	4
Epidemiology	4
Etiology and Pathogenesis	5
Role of androgen	7
Role of estrogen	9
Clinical Features	10
Classification	10
Clinical Diagnosis.....	12
Differential diagnosis	15
Therapeutic options	16
Chapter 2: Nanofat.....	24
Introduction	24
Types of fat.....	25
Components of Nanofat.....	25
Applications of Fat Grafting in Dermatology	27
Patients and Methods.....	31
Results	43
Discussion	64
Conclusion	69
Recommendations	70
Summary	71
References	73
Arabic Summary	

List of Tables

Table No.	Title	Page No.
Table (1):	Summary of evidence level, efficacy, safety aspects and practicability for the most common therapeutic interventions	17
Table (2):	Non-surgical treatments for AGA.....	23
Table (3):	Demographic data and clinical characteristics of the studied patients	44
Table (4):	The correlation between age of patients or duration of AGA with the severity of AGA	45
Table (5):	Description of terminal hair density before nanofat injection, 3 months after injection and 6 months after nanofat injection	47
Table (6):	Description of Average Caliber of hair pre, 3 months after and 6 months after treatment.....	49
Table (7):	Description of average hair volume pre, 3 months after and 6 months after treatment.....	50
Table (8):	Evaluation of treatment response through patients' satisfaction and physician assessment	52
Table (9):	The correlation between treatment response (terminal hair density, average caliber, average volume with age and duration of disease).....	54
Table (10):	correlation between treatment response and severity of AGA	55
Table (11):	Correlation between patients' demographic data and clinical characteristics with treatment response (assessed by physicians)	53
Table (12):	correlation between physician's assessment and dermoscopic assessment of treatment response	56
Table (13):	Nanofat adverse effects reported by the patients.....	57
Table (14):	Correlation between patients' satisfaction and demographic data	57
Table (15):	Correlation between patients' satisfaction and clinical characteristics	58
Table (16):	Correlation between patients' satisfaction and treatment response	59

List of Figures

Fig. No.	Title	Page No.
Figure (1):	Different factors involved in the pathogenesis of androgenetic alopecia.	6
Figure (2):	Role of Androgen in Androgenic Alopecia	7
Figure (3):	Conversion of androgen to estrogen.....	9
Figure (4):	Norwood-Hamilton Classification	11
Figure (5):	Ludwig classification.....	12
Figure (6):	Sinclair Classification	12
Figure (7):	Trichoscopic findings in AGA.	14
Figure (8):	Male patient with androgenic alopecia before and after nanofat injection	27
Figure (9):	A 38-year-old patient with a hypertrophic scar before nanofat injection and b) after nanofat injection.....	27
Figure (10):	A burn patient before and after nanofat treatment. The burn scar was injected with harvested fat.....	28
Figure (11):	Nanofat injection for periorbital area A before and after nanofat injection in the periorbital area	29
Figure (12):	Hand rejuvenation A before and after picture of nanofat injection for hand rejuvenation	30
Figure (13):	Defining the point to be photographed using a headband and a tapeline.....	37
Figure (14):	The filtering device used in the study consists of 2 openings on both sides for syringes and comes with 3 grades of filters to use for macro, micro or nanofat.....	39
Figure (15):	Syringes and cannulas used during nanofat preparation.....	39

List of Figures *(Cont...)*

Fig. No.	Title	Page No.
Figure (16):	Terminal hair density pre, 3 months after and 6 months after treatment.....	47
Figure (17):	IQR of average caliber of hair pre, 3 months post and 6 months after treatment.....	49
Figure (18):	Treatment response of the studied patients.....	52
Figure (19):	Correlation between patients' age and treatment satisfaction.....	58
Figure (20):	Correlation between duration of disease and patients'satisfaction.....	58
Figure (21):	A 44-year-old male patient with androgenic alopecia of 3 years duration, Norwood grade V before and after treatment.....	60
Figure (22):	A 41-year-old male patient with androgenic alopecia of 20 years duration, Norwood grade IV.....	61
Figure (23):	A 44-year-old female patient with androgenic alopecia of 10 year duration, Ludwig grade 3.....	62
Figure (24):	A 50-year-old female patient with androgenic alopecia of 10 year duration, Ludwig grade 2.....	63
