**Evaluation of the Temporomandibular
Joint by Ultrasound Before and After
Local Treatment in Rheumatoid Arthritis
Patients**

Thesis

*Submitted for Partial Fulfillment of MD Degree in Physical
Medicine, Rheumatology & Rehabilitation*

By

Hanan Mohammed Ibrahim Elshoura

*Master, M.B., B.Ch.,
Faculty of Medicine, Ain Shams University*

Under supervision of

Prof. Mervat Mohamed Abdelhakim

*Professor of Physical Medicine, Rheumatology & Rehabilitation
Faculty of Medicine – Ain Shams University*

Prof. Mohammed Ali Elwy

*Professor of Physical Medicine, Rheumatology & Rehabilitation
Faculty of Medicine – Ain Shams University*

Prof. Nayera Zaghloul Saber

*Professor of Physical Medicine, Rheumatology & Rehabilitation
Faculty of Medicine – Ain Shams University*

Faculty of Medicine - Ain Shams University

2020

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

سببنا انك لا تعلم لنا
إلا ما علمتنا إنك أنت
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgment

*First and foremost, I feel always indebted to **ALLAH**,
the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and
profound gratitude to **Prof. Mervat Mohamed
Abdelhakim**, Professor of Physical Medicine,
Rheumatology & Rehabilitation - Faculty of Medicine-
Ain Shams University for her keen guidance, kind
supervision, valuable advice and continuous
encouragement, which made possible the completion of
this work.*

*I am also delighted to express my deepest
gratitude and thanks to **Prof. Mohammed Ali
Elwy**, Professor of Physical Medicine, Rheumatology &
Rehabilitation, Faculty of Medicine, Ain Shams
University, for his kind care, continuous supervision,
valuable instructions, constant help and great assistance
throughout this work.*

*I am deeply thankful to **Prof. Mayera
Zaghloul Saber**, Professor of Physical Medicine,
Rheumatology & Rehabilitation, Faculty of Medicine,
Ain Shams University, for her great help, active
participation and guidance.*

*I would like to express my hearty thanks to all my
family for their support till this work was completed.*

*Last but not least my sincere thanks and
appreciation to all patients participated in this study.*

Hanan Mohammed Ibrahim Elshoura

List of Contents

Title	Page No.
List of Tables	5
List of Figures	7
List of Abbreviations	12
Introduction	1
Aim of the Work.....	5
Review of Literature	
Rheumatoid Arthritis	6
TMJ Involvement in RA.....	42
Management of TMJ Arthritis in RA.....	79
Patients and Methods	94
Results	107
Discussion	146
Summary	158
Conclusion.....	162
Recommendations	163
References	164
Arabic Summary	

List of Tables

Table No.	Title	Page No.
Table (1)	Comparison between intraarticular injection and perineural injection regarding age and sex	109
Table (2):	Clinical data of rheumatoid	111
Table (3):	Visual analogue scale among the studied groups before local injection.....	112
Table (4):	TMJ clinical data before local injection between the two groups	113
Table (5):	Correlation between rheumatoid disease activity (DAS28, MHAQ) and clinical data of TMJ joint before local injections.....	115
Table (6):	Musculoskeletal ultrasound findings before local TMJ injections among the studied groups.....	119
Table (7):	Correlation between rheumatoid disease duration and TMJ finding by MSUS before local injections	122
Table (8):	Visual analogue scale in the intraarticular group before and after local injection	124
Table (9):	Visual analogue scale in the perineural group before and after local injection	124
Table (10):	Change of VAS among studied groups after local injection.....	124
Table (11):	Visual analogue scale of the patients among the studied groups after the local injections	127
Table (12):	TMJ clinical data changes in the intrarticular group	128
Table (13):	Statistically change in both groups regarding local injection.....	128
Table (14):	TMJ clinical data changes in the perineural group	131

List of Tables (cont...)

Table No.	Title	Page No.
Table (15):	TMJ clinical data after local injection between the two groups	133
Table (16):	MSUS findings in the intraarticular group before and after local injection.	135
Table (17):	MSUS findings in the perineural group before and after local injection	137
Table (18):	Musculoskeletal ultrasound findings after local TMJ injections among the studied groups.....	138
Table (19):	Comparison between MRI and MSUS findings in ten tempromandibular joints.....	141
Table (20):	Calculation of ultrasound sensitivity, specificity and accuracy regarding erosions	142
Table (21):	Calculation of ultrasound sensitivity, specificity and accuracy regarding synovial effusion.....	143
Table (22):	Calculation of ultrasound sensitivity, specificity and accuracy regarding synovial hypertrophy	144
Table (23):	Calculation of ultrasound sensitivity, specificity and accuracy regarding disc displacement.....	145

List of Figures

Fig. No.	Title	Page No.
Figure (1):	Gene-environment interactions	12
Figure (2):	A-normal joint, B- rheumatoid arthritis.....	17
Figure (3):	Mechanisms of bone tissue destruction in arthritis	20
Figure (4):	Boggy swelling in proximal interphalangeal and metacarpophalangeal joints (more prominent on patient's right hand) in a patient with new-onset rheumatoid arthritis.....	27
Figure (5):	The 2010 American College of Rheumatology/European League Against Rheumatism Classification Criteria for RA.....	34
Figure (6):	The osteology of the temporomandibular joint	43
Figure (7):	The joint capsule and accessory ligaments of the temporomandibular joint	44
Figure (8):	Musculoskeletal structures of TMJ (lateral and medial views).	47
Figure (9):	Severe anterior open bite in a patient with rheumatoid arthritis.....	56
Figure (10):	Panoramic radiographic imaging of TMJ demonstrated very well the osseous structures of TMJ and dentomaxillary region	58
Figure (11):	MRI scan of normal TMJ	63
Figure (12):	Sagittal sectional views of TMJ on mouth-closed T1-weighted and mouth opened T2-weighted MRI show anterior disc displacement without reduction.....	65

List of Figures (cont...)

Fig. No.	Title	Page No.
Figure (13):	Sagittal sectional view of mouth-closed T2-weighted MRI shows anterior disc displacement with hyperintense joint effusion in superior synovial cavity	65
Figure (14):	Shows disk is anteriorly displaced and globular in configuration.....	66
Figure (15):	Shows joint effusion with enhancing synovitis, absence of normal appearing disk, and posterior pannus	67
Figure (16):	Ultrasonographic view of TMJ shows condyle, articular eminense and articular disc	71
Figure (17):	Sonograms of a normal MJ	72
Figure (18):	A-closed mouth (disc in position (2)), b-open mouth (disc displacement anteriorly).....	73
Figure (19):	TMJ musculoskeletal ultrasound in rheumatoid patient showing synovitis (joint effusion): longitudinal scan (A), transverse scan (B) and condylar erosion: longitudinal scans (C). MnCd:mandibular condyle	73
Figure (20):	Year-old girl with juvenile inflammatory arthritis	74
Figure (21):	TMJ arthritis in JIA (Arthritis foundation, 2012 JA conference)	74
Figure (22):	A) Grade I positive power Doppler signal in TMJ arthritis. B) Grade II positive power Doppler signal in TMJ arthritis	76

List of Figures (cont...)

Fig. No.	Title	Page No.
Figure (23):	An example of the US grading system.....	77
Figure (24):	Anatomical location of the TMJ joint space for the injection of local anesthetic or steroid (red circle)	90
Figure (25):	Ultrasound guided injection	91
Figure (26):	Procedure of ultrasound	100
Figure (27):	TMG joint LS	100
Figure (28):	Disc of TMG.....	101
Figure (29):	Grade II power Doppler signal.....	102
Figure (30):	Grade I erosion	103
Figure (31):	Study flow chart (CONSORT).....	108
Figure (32):	Comparison between intraarticular injection and perineural injection regarding sex.	110
Figure (33):	Comparison between intraarticular injection and perineural injection regarding age.	110
Figure (34):	Comparison between intraarticular injection and perineural injection regarding TMJ sounds (clicking, crepitation) score.....	114
Figure (35):	Correlation between DAS28 and Tenderness score before local injection in the studied group.	116
Figure (36):	Correlation between DAS28 and TMJ sounds (clicking, crepitation) score before local injection in the studied group.	116
Figure (37):	Correlation between DAS28 and fonasca's score before local injection in the studied group.	117

List of Figures (cont...)

Fig. No.	Title	Page No.
Figure (38):	Correlation between MJAQ and Tenderness score before local injection in the studied group.	117
Figure (39):	Correlation between MHAQ and TMJ sounds (clicking, crepitation) score before local injection in the studied group.	118
Figure (40):	Comparison between the two groups regarding joint space before local injection.	120
Figure (41):	Comparison between the two groups regarding SH before local injection.	121
Figure (42):	Comparison between the two groups regarding erosions before local injection.	121
Figure (43):	Correlation between disease duration and SH before local injection in the studied group.	123
Figure (44):	Correlation between disease duration and SE before local injection in the studied group.	123
Figure (45):	Comparison between VAS score before and after local injection in the intraarticular group at rest.	125
Figure (46):	Comparison between VAS score before and after local injection in the intraarticular group at maximum mouth opening.	125
Figure (47):	Comparison between VAS score before and after local injection in the perineural group at rest.	126
