# **Effect of Different Treatment Protocols For Kennedy Class II Cases On The Supporting Structures ( Strain Gauge Analysis )**

*Thesis*

*submitted to prosthodontics department,  
in partial fulfillment of the requirements for master degree in  
prosthodontics*

*Presented by*

**Mohaned Mokhtar Berbash**

*B.D.S (2008)*

*Faculty of Dentistry  
Tripoli University*

*Faculty of Dentistry  
Ain-Shams University  
2017*

## **Supervisors**

**Dr. RAMI MAHER GHALI** ☹☹

*Professor of Prosthodontics*

*Faculty of Dentistry - Ain Shams University*

**Dr. MOHAMED SHADY NABHAN** ☹☹

*Lecturer of Prosthodontics*

*Faculty of Dentistry - Ain Shams University*

تأثير اختلاف طرق العلاج لحالات كيندي  
تقسيم ٢ الفك على الانسجة الداعمة له  
(تحليل اجهاد )

رسالة مقدمة إلى كلية طب الأسنان-جامعة عين شمس كجزء متمم  
للحصول على درجة الماجستير فى الإستعاضة الصناعية

مقدمة من

**الطبيب/ مهند مختار برباش**

بكالوريوس طب و جراحة الفم والأسنان

كلية طب الاسنان- جامعة طرابلس

٢٠٠٨

كلية طب الأسنان

جامعة عين شمس

٢٠١٧

## المشرفون

**أ.د. رامي ماهر غالي**

أستاذ الاستعاضة الصناعية  
كلية طب الأسنان - جامعة عين شمس

**د. محمد شادي نبهان**

مدرس بقسم الاستعاضة الصناعية  
كلية طب الأسنان - جامعة عين شمس

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

" قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا  
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ "

صدق الله العظيم

(البقرة - الآية ٣٢)

أعوذ بالله من الشيطان الرجيم

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ  
وَلَسَوْفَ يَعْطِيكَ رَبُّكَ فَتَرْضَى

صدق الله العظيم  
سورة الضحى - الآية (٥)

# *Acknowledgment*

*In the beginning, I want to thank **Allah** for helping me and answering my prayers, without God I would not have accomplished my work.*

*I want to thank **Prof. Dr. Rami Maher Ghali** Professor of Prosthodontics, Faculty of Dentistry, Ain Shams University who helped me a lot by his ideas and supporting. He guided me to the right path from the beginning to the end of my paper. I appreciate the effort you exerted and the time you spent with me. Thank You.*

*I would like to thank **Dr. Mohamed Shady Nabhan** Assoc. Professor of Prosthodontics, Faculty of Dentistry, Ain Shams University, for the information and advice he provided for me. Your assistance has been valuable to me during the process of writing my research till finishing it. I am grateful for what you have done for me.*

*My dear father, I am deeply grateful for providing me with the greatest support ever. I want to thank you for fulfilling my dreams and making them come true.*

*My great mother and my lovely daughter, thank you for your effort. I appreciate your scarify of your time to help me study and finish my work.*

*My dearest family thanks for providing me with help, love and support in my life journey. I really owe you a lot. I thank God for having such a great family.*

## **List of contents**

# List of tables

Table No.	Description	Page
Table 1	Descriptive statistics and comparison the micro strains developed within the three groups under unilateral load	77
Table 2	Descriptive statistics and comparison the micro strains developed between the three groups under unilateral load	79

## List of Figures

(1)	The acrylic casts Kennedy class II	55
(2)	roots of teeth wrapped with tin foil	56
(3)	Impression material injected into the sockets	57
(4)	Abutment preparation.	58
(5)	Plastic pattern of double OT CAP attached to wax patterns of crowns	58
(6)	Plastic part of single OT CAP attached to wax pattern	59
(7)	Casting ring.	60
(8)	Splinted crown attached to male part of single OT CAP	60
(9)	A schematic diagram for the OT CAP attachment kit	62
(10)	Splinted crown attached to male part of double OT CAP	64
(11)	Investment cast.	64
(12)	Wax pattern for partial denture frame work with female parts of OT CAP model 1.	65

Commented [mn1]: Model 3

Commented [mn2]: Model 3

(13)	Unilateral Removable partial denture retained by OT CAP attachment	66
(14)	Removable partial denture frame work supported by single OT CAP attachment on model 2	67
(15)	conventional Removable partial denture on model 3	68
(16)	Preparation of the cast for mucosa layer	69
(17)	rubber base key for the distal extension ridges	70
(18)	Repositioning of the rubber base key	70
(19)	Surface of the models covered by resilient silicon material	71
(20)	Strain guage	71
(21)	Installation of the strain gauges	72
(22)	Installation of the strain gauges The strain gauge	73
(23)	Four channel strainmeter	74
(24)	Universal testing machine	75
(25)	Bar chart representing the micro strains developed in each channel under unilateral load direction within the three groups	78
(26)	Bar chart representing the micro strains developed in each channel under unilateral load direction between the three groups	80
