ACKNOWLEDGEMENT

The author wishes to express her sincere appreciation and gratitude to Prof. Dr. Mahmoud Aly Reda Youssef, head of Structural Engineering Department, and Professor of Strength of Materials, Faculty of Engineering, Cairo University for his valuable supervision, indispensable guidance, and continuous encouragement during this research.

The author also, acknowledges gratefully the kind supervision and powerful support of Dr. Osama Abd El- Ghafour Hodhod, Assistant Professor, Structural Engineering Department, Faculty of Engineering, Cairo University for his guidance, Valuable discussion during all stages of this thesis.

The author, as well, wishes to express her deepest thanks to Dr. Abou Bakr Ramadan, Assistant Professor, of National Center of Nuclear Safety and Radiation Control (NCNSRC), A.E.A. for his kind supervision and guidance in this thesis.

In addition, the author is also grateful to Dr. Sayed Abdou El-Mongy, (NCNSRC) for his generous help.
