## **CHEMICAL CONSTITUENTS AND BIOLOGICAL ACTIVITY OF *DYPSIS* SPECIES (FAMILY ARECACEAE)**

Thesis submitted by  
*Mai Mohamed Ahmed Elghonemy*

Assistant Researcher, Chemistry of Natural Compounds  
Department  
National Research Center  
For the Degree of  
Doctor of Philosophy [Ph.D]  
(In Chemistry)

### **Under Supervision**

<b>Prof. Dr. Mohamed Youssef Elkady</b>	<b>Prof. Dr. Mahmoud Ibrahim</b>
<i>Prof. of Organic Chemistry</i>	<b>Nassar</b>
<i>Faculty of Science</i>	<i>Prof. of Natural products</i>
<i>Ain Shams University</i>	<i>chemistry</i>
	<i>National Research Center</i>

**Prof. Dr. Tahia Kubacy Mohamed**  
*Prof. of Natural products chemistry*  
*National Research Center*

Chemistry Department  
Faculty of Science  
Ain Shams University  
2020

Ain Shams University  
Faculty of Science  
Chemistry Department

**Chemical constituents and biological activity of  
*Dypsis* species (family Arecaceae)**

**A Thesis Submitted by**

**Mai Mohamed Ahmed El-Ghonemy**

**For the Degree of Ph.D. in Chemistry**

Prof. Dr. Mohamed Youssef Elkady

*M. ElKady*

Prof. Dr. Mahmoud Ibrahim Nassar

*Mahmoud Ibrahim*

Prof. Dr. Tahia Kubacy Mohamed

*Tahia Kubacy*

**Head of Chemistry department**

**Pof Dr. Ayman Ayoub Abdel-Shafi**

## Acknowledgement

**At first I would like to thank Allah, by grace of whom and success of this work is achieved.**

I would like to express my grateful appreciation to **Prof. Dr. Mohamed Youssef EL-Kady**, Professor of organic chemistry, Faculty of science, Ain Shams University, for his continuous help and valuable scientific guidance during the development of the work.

I wish to express my thanks and deep appreciation to **Prof. Dr. Mahmoud Ibrahim Nassar**, Professor of Natural Products Chemistry, Chemistry of Natural Compounds Department, NRC, for his kind supervision, indispensable advice.

I would like to express my warmest thanks and sincere gratitude to **Prof. Dr. Tahia Kubacy Mohamed**, Professor of Natural Products Chemistry, Chemistry of Natural Compounds Department, NRC, for her supervision, and unlimited continual encouragement.

I would like to express my grateful thanks to **Dr. Walaa Abdel-Hameid EL- Kashak** Assoc. Professor of Natural Products Chemistry, Chemistry of Natural Compounds Department, NRC, for her direct help in all time of research, constructive comments, providing the laboratory facilities and her efforts with me in writing this work.

I wish to express my thanks and deep appreciation to **Prof. Dr. Ezz El-dinAhmed Elkhrisy**, Professor of Natural Products Chemistry, Chemistry of Natural Compounds Department, NRC, for his kind advice, throughout this work.

I wish to express my deepest thanks to **Dr. Mohamed Elraiey** Assoc. Professor of Natural Products Chemistry, Phytochemistry and plant systematics Department, NRC, for his kind cooperation.

I would like to express my deepest thanks to **Prof. Dr. Jihan Seid Hussein** Professor of Medical Biochemistry, Medical Biochemistry Department, NRC, for hosting biochemical studies.

I would like to thank Prof. Dr. **Abdel-Razik Farrag** and Prof. Dr. **Enayat Omara** for their valuable help in performing the histopathological assays.

I'm deeply thankful to **all my friends at NRC** for their help & encouragement that enabled me to finish this work.

Finally, I would like to express my deepest thanks and profound gratitude to **all members of my family** for their kindness and encouragement during the course of this study.

*Mai Mohamed El Ghonemy*

Subject	Page
English summary	I
<b>1. Introduction</b>	<b>1</b>
<b>2. Review of literature</b>	<b>6-25</b>
2.1. Phytochemical constituents reported from family Arecaceae	6
2.2. Biological studies on family Arecaceae	25
<b>3. Experimental</b>	<b>26-41</b>
3.1. Material	26
3.2. Apparatus	27
3.3. Methods	29
3.4. Taxonomical characterization of <i>Dypsis lutescens</i> and <i>Dypsis decaryi</i>	32
3.5. Phytochemical studies on <i>Dypsis lutescens</i> and <i>Dypsis decaryi</i>	36
3.6. Biological activity study	38
<b>4. Results and Discussion</b>	<b>42-120</b>
4.1. General phytochemical screening	42
4.2. Isolation of phenolic compounds from <i>Dypsis lutescens</i>	43
4.3. HPLC profile of phenolic compounds of <i>Dypsis lutescens</i> and <i>Dypsis decaryi</i> leaves	92
<b>5. Biological Activity</b>	<b>121-128</b>
5.1. Hepatoprotective activity	121
5.2. Biochemical Examination	122
5.3. Histopathological Examination	126
<b>References</b>	<b>129</b>
