Effect of Variation of Layers Thicknesses on Shade Production in Two Layering Techniques.

Thesis submitted to the Faculty of Dentistry, Ain Shams
University in partial fulfillment of the requirements of
PhD degree in Operative Dentistry.

By

Nermeen Mohamed Reda Diab

B.D.S., Ain Shams University (2009)

M.S.C., Ain Shams University (2015)

Ain Shams University

2022

Supervisors

Dr. Khaled Aly Nour

Assistant professor, Department of Operative Dentistry
Faculty of Dentistry, Ain Shams University

Dr. Mohammed Nasser Mohammed Anwar

Lecturer, Department of Operative Dentistry
Faculty of Dentistry, Ain Shams University

Ain Shams University

2022

I'd like to express my gratitude to my supervisors,

-*Dr.khaled Aly Nour*, Assistant professor of operative dentistry, Ain Shams university.

-*Dr.Mohamed Nasser*, Lecturer of operative dentistry, Ain Shams university.

I'd like also to thank these 4 colleagues of mine, for their endless help and support during the course of this thesis,

-*Rana Abdel Reheem*, lecturer of operative dentistry, Ain shams university.

-*Maha Salah*, assistant lecturer of operative dentistry, Ain Shams university.

-*Amr Eldeeb*, assistant lecturer of operative dentistry, Ain Shams university & my research partner.

-*Dina Gamal*, teaching assistant of operative dentistry, Ain Shams university.

I'd like to dedicate this thesis to:

-*My mom*, my number one supporter, my backbone, I wouldn't have done it without you!

-*Dr. Salma Elashry* "God bless her soul" ... my second mom, who'd have been thrilled watching me defend my thesis this day.

-*Mr. Ahmed Shams* ... my chemistry teacher 20 years ago, you are my forever idol and the reason I love teaching, I hope one day I reach your level of perfection as a teacher.

-*Hany Ali Galal*, my late beloved uncle "God bless his soul" I knew how to enjoy life because of you.
