Neutronic Characteristics Analysis of Fuel Assembly of WWER Using MCNPX Code

A Thesis Submitted to Faculty of Science-Ain Shams University
in partial fulfillment for The Degree of Master of Science (M.Sc.)
in Physics

By

Ehab Mohamed Abo-El Yazid Ahmed

B.Sc. in Physics, Faculty of Science, Ain Shams University,
2013

Supervisors

Prof. Dr. Soad Abd El-Monem El-Fiki

Professor of Radiation Physics

Physics Department, Faculty of Science, Ain Shams University

Late Prof. Dr. Samir Yousha El-Kamisay

Professor of Nuclear Physics

Physics Department, Faculty of Science, Ain Shams University

Prof. Dr. Mostafa Aziz Abdelwahab

Professor of Nuclear Engineering

Nuclear and Radiological Regulatory Authority

Physics Department

Faculty of Science

Ain Shams University

(2022)

Neutronic Characteristics Analysis of Fuel Assembly of WWER Using MCNPX Code

By
Ehab Mohamed Abo-El Yazid Ahmed

Supervisors

Prof. Dr. Soad Abd El-Monem El-Fiki

Professor of Radiation Physics

Physics Department, Faculty of Science, Ain Shams University

Late Prof. Dr. Samir Yousha El-Kamisy (رحمه الله)

Professor of Nuclear Physics

Physics Department, Faculty of Science, Ain Shams University

Prof. Dr. Mostafa Aziz Abdelwahab

Professor of Nuclear Engineering

Nuclear and Radiological Regulatory Authority

Examining committee

1. Prof. Dr. Afaf Abdullatif Hassan

Professor of Nuclear Physics, Girls Faculty, Ain Shams University.

2. Prof. Dr. Heba Tallah Ali Hassan Saudi

Professor of Nuclear Physics, Azhar University (Girls' branch).

3. Prof. Dr. Soad Abdelmonaim Elfiki

Professor of Radiation Physics, Ain Shams University.

Acknowledgement

At First, all gratitude is due to ALLAH the most merciful, who guided and gave me strength to complete this work, and I would like to thank ALLAH to all my life and his gifts.

Second, I would like to express my sincere thanks and gratitude to the board of supervisors.

*I wish to express my deep thanks to **Prof. Dr. Soad Abd El-Monem El-Fiki**, professor of Nuclear Physics at Physics Department, Faculty of Science, Ain Shams University, for her supervision, wise guidance, patience, continuous encouragement and overall help through the present work.*

*I would like to thank with gratitude **Prof. Dr. Moustafa Aziz Abdel Wahab**, Professor of Nuclear Engineering at Nuclear Radiological Regulatory authority, for his suggestion this point of research and his supervision, valuable help, encouragement and guidance throughout this work.*

*I would like to thank with gratitude **Prof. Dr. Samir Yousha El-Khamisy**, God rest him in peace Professor of Nuclear Physics at Physics Department, Faculty of Science, Ain Shams University, for his supervision and continuous encouragement but along his personal life*

List of Figures.....	iv
List of Tables.....	.vi
List of Abbreviations.....	vii
List of Equations.....	viii
Abstract	ix

Chapter 1 Introduction

1.1 Background.....	1
1.2 Nuclear Reactor Generation.....	4
1.3 VVER Evolution.....	8
1.4 VVER Reactor Neutronic Design.....	11
1.5 Literature Survey.....	13
1.6 Aim of Work.....	20

Chapter 2 Theoretical Basis

2.1 Introduction.....	21
2.2 Neutron Transport Calculations.....	21
2.3 Methods of Neutron Transport Equation Solution.....	23
2.4 Monte-Carlo Basis.....	25
2.4.1 Probability Distribution Function.....	25
2.4.2 Neutron Tracking	27
2.4.3 Neutron Chain Reaction Simulation.....	30
2.4.3.1 External Source Method.....	30
2.4.3.2 Criticality Source Method.....	30
2.5 Neutronic and Safety Parameters.....	31
2.5.1 Effective Multiplication Factor K_{eff}	31
2.5.2 Reactivity Coefficients.....	33
2.5.3 Effective Delayed Neutrons Fraction.....	36
2.5.4 Control Rod Worth.....	37

Chapter 3 Assembly Modeling

3.1 Introduction.....	38
3.2 VVER-1200 Reactor Versions.....	38
3.3 VVER-1200 Core and assembly Description.....	39
3.4 Fuel Element Design.....	42
3.5 Computational Tools.....	44
3.5.1 MCNPX.....	44
3.5.2 Nuclear Data Library.....	45
3.6 VVER-1200 Assembly Modeling.....	46

Chapter 4 Results and Discussion

4.1 Introduction.....	49
4.2 Criticality Control.....	49
4.3 Actinides Inventory.....	53
4.4 Non-Actinides Inventory.....	68
4.5 Safety Parameters.....	79
Conclusions.....	83
References.....	86
Arabic Summary.....	98
