Preschool Wheeze: A Retrospective and Nested Case Control Analysis in a Cohort of Egyptian Children

Thesis

*Submitted for Partial Fulfillment of Medical Degree in
Pediatrics*

By

Roba Maher Ahmad Al-Gawesh

M.B, B.CH (2012), M.Sc (2017), Pediatrics

Assistant Lecturer Faculty of Medicine – Ain Shams University

Under supervision of

Prof. Dr. Zeinab Awad El-Sayed

Professor of Pediatrics

Faculty of Medicine, Ain Shams University

Dr. Rasha Hassan El-Owaidy

Associate Professor of Pediatrics

Faculty of Medicine, Ain Shams University

Dr. Ghada Abdel Haleem Elsaid Shousha

Lecturer of Pediatrics

Faculty of Medicine, Ain Shams University

Dr. Ghada Ossama Mohamed Wassif

Associate Professor of Public Health

Faculty of Medicine, Ain Shams University

Faculty of Medicine
Ain Shams University

2022

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

سببنا انك لا تعلم لنا
إلا ما علمتنا إنك أنت
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgment

*First and foremost, I feel always indebted to **Allah**, the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and profound gratitude to **Prof. Dr. Zeinab Awad El-Sayed**, Professor of Pediatrics - Faculty of Medicine- Ain Shams University for her keen guidance, kind supervision, valuable advice, instructions and continuous encouragement, which made possible the completion of this work.*

*I am also delighted to express my deepest gratitude and thanks to **Dr. Rasha Hassan El-Owaidy**, Associate Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for her guidance, active participation and constant help throughout this work.*

*I am deeply thankful to **Dr. Ghada Abdel Haleem Elsaid Shousha**, Lecturer of Pediatrics, Faculty of Medicine, Ain Shams University, for her great help, cooperation and guidance.*

*I wish to introduce my deep respect and thanks to **Dr. Ghada Ossama Mohamed Wassif**, Associate Professor of Public Health, Faculty of Medicine, Ain Shams University, for her kindness, supervision and cooperation in this work.*

I would like to express my hearty thanks to all my family for their support till this work was completed.

Last but not least my sincere thanks and appreciation to all patients who participated in this study.

Roba Maher Ahmad Al-Gawesh

List of Contents

Title	Page No.
List of Tables	i
List of Figures	iii
List of Abbreviations.....	v
Introduction	1
Review of Literature	4
Preschool Wheeze	4
Definition of Preschool wheeze (PSW)	4
Prevalence of PSW.....	4
Pathogenesis and phenotypes	5
Risk factors of asthma development	17
Prediction of asthma and asthma predictive scores.....	26
Differential Diagnosis	31
Diagnosis of PSW	32
Management of PSW	36
Patients and Methods.....	44
Results	52
Discussion	83
Recommendations.....	105
Summary	106
References.....	110
Survey	143
Arabic Summary.....	١

List of Tables

Table No.	Title	Page No.
Table (1):	Asthma predictive index (API) vs Modified Asthma predictive index (mAPI)	28
Table (2):	Clinician asthma prediction score	31
Table (3):	Medication used for wheezing in children $\leq$ 6yrs according to GINA, 2020.....	42
Table (4):	Suppressant effects of drugs on SPT	49
Table (5):	Parameters of FEV1 in asthma.....	51
Table (6):	Sociodemographic characteristics of recruited children (n= 1209)	53
Table (7):	Antenatal and Infantile exposures of all the participants.....	56
Table (8):	Classification of preschool wheeze among participants	57
Table (9):	Characteristics of preschool wheezers (n=298).	59
Table (10):	Asthma characteristics among the asthmatic group (n=125).....	61
Table (11):	Description of SPT results.....	62
Table (12):	Degree of asthma control after 6 months-follow up of asthmatic patients	64
Table (13):	Comparison between preschool wheezers and non-wheezers as regards sociodemographic data.	65
Table (14):	Comparison between preschool wheezers and non-wheezers as regards antenatal and early life risk factors of wheeze.....	66
Table (15):	Parental asthma and allergy among parents of wheezers and non-wheezers groups	67
Table (16):	Sociodemographic parameters among asthmatic and non- asthmatic groups.....	68
Table (17):	Comparison between asthmatics and non-asthmatics in terms of perinatal exposures	69
Table (18):	Environmental exposures among asthmatics and non-asthmatic groups.....	70

List of Tables (Cont...)

Table No.	Title	Page No.
Table (19):	Comparison between asthmatics and non-asthmatics in terms of parental allergies	71
Table (20):	Predictors of asthma in the studied population with preschool wheeze	72
Table (21):	SPT results and the relation to asthma among PSW	73
Table (22):	Comparison between atopic and non-atopic patients (n=138) in terms of their sociodemographic data.....	74
Table (23):	Comparison between atopic and non-atopic patients as regards perinatal exposures	75
Table (24):	Comparison between atopic and non-atopic patients as regards environmental exposures	75
Table (25):	Comparison between atopic and non-atopic patients as regards presence of parental allergy	76
Table (26):	Comparison between atopic and non-atopic patients in terms of their history of wheeze and associated allergies.....	77
Table (27):	Multivariable backward logistic regression analysis for risk factors and predictors of pre-school wheezing.....	79

List of Figures

Fig. No.	Title	Page No.
Figure (1):	The Avon Longitudinal Study of Parents and Children (ALSPAC) classification of wheezes phenotypes	10
Figure (2):	Atopy phenotypes in relation to the distribution of Latent classes (LCs) in MAS and PASTURE studies	13
Figure (3):	Path diagram comparing severe atopy with the other atopy phenotypes, including its features, lung function, and asthma in both populations.....	14
Figure (4):	Factors associated with wheeze inception and persistence	26
Figure (5):	Pediatric asthma risk score.....	30
Figure (6):	Personalized management of asthma in children 5 years and younger	37
Figure (7):	Algorithm for the evaluation and management of severe lower respiratory tract illness with wheezing.....	41
Figure (8):	Management of acute wheezing or asthma in children 5 years and younger	43
Figure (9):	Restrictive versus obstructive patterns in PFT	50
Figure (10):	Distribution of allergy among parents of participants.....	54
Figure (11):	Risk factors related to antenatal, infantile and environmental exposures.....	55
Figure (12):	Classification of preschool wheeze.....	57
Figure (13):	Frequency of different suspected triggers of preschool wheeze	58
Figure (14):	Allergic manifestations among children with PSW (n= 298).....	60
Figure (15):	Distribution of sensitization to different allergens according to SPT results	63

List of Figures (Cont...)

Fig. No.	Title	Page No.
Figure (16):	Forest plot illustrating adjusted odds ratio with 95% confidence interval for various risk factors for pre-school wheezing.....	80
Figure (17):	Forest plot illustrating adjusted odds ratio with 95% confidence interval for various risk factors for development of bronchial asthma among preschool wheezers.	82
