بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

يَا أَيُّهَا الَّذِينَ آمَنُوا كُلُوا مِن ثَمَرِ مَا رَزَقْتُمْ إِذَا شُكِرْتُمُ لِلَّهِ إِن كُنتُمْ تَعْبُدُونَهُ

صَدَقَ اللَّهُ الْعَظِيمَ

سورة البقرة الآية ١٧٢

Acknowledgement

*First and foremost, I am grateful to **Allah**, the most kind and merciful, for helping me to achieve this work. I would like to express my thanks to all those who contributed by giving me their experience, time, effort, and encouragement to accomplish this work;*

*I would like to extend my sincere thanks and gratitude to **Prof. Seham Guirguis Ragheb**, Professor of Community Health Nursing at the Faculty of Nursing, Ain Shams University. for scientific help, continuous encouragement, and constructive criticism throughout the whole work,*

*I would like to express my deepest gratitude to **Dr. Mervat Mohamed Hassan**, Lecturer of Community Health Nursing, Faculty of Nursing, Ain Shams University, for valuable assistance and kind supervision in conveying her experience to complete this work,*

I would like to express my deep gratitude and appreciation to all mothers and the manager of the General Medical Center in Tanta, Egypt for their help during the collection of data.

I want to give special thanks to my beautiful family, foremost to my dear father (rest his soul). My mother, my husband, my sisters, and my children, thank you for your support; without you, I would never have completed this work,

Seham Mohammed Zakry
