Acknowledgement

The author is greatly indebted to *Dr. Nagwa Ibrahim Yahia Hassanin*, Prof. of Nutrition, Department of Biochemistry and Nutrition, Girl's College, Ain Shams University, not only for suggesting the point of research but also for her valuable advice, providing facilities needed, ultimate support, constant professional guidance and continuous great encouragement with much patience and enthusiasm throughout the progress of this investigation.

My thanks is due to Prof. *Dr. Salwa Ibrahim El-Haddad*, prof. of Pathology, Pathology Department, Faculty of Medicine, Ain Shams University, for her help during histopathological examination.

Contents

• Introduction	1
• Aim of the work.	6
• Review of Literature	7
I Fungal sources and production of fumonisins	7
II Natural occurrence	10
III Biological effects	14
• Material and Methods.	34
Preparation of culture	34
Fumonisin production	35
Blood and Tissue Samples	38
Analytical procedures	39
• Results	42
Food consumption, body weight gain and feed efficiency	42
Effect of feeding dietary regimen on serum biochemical parameters in rats	
Histopathological examinations	65
