**Phytochemical and Biological Studies
of *Vicia sativa*,
Chenopodium album
and *Chenopodium murale***

A Thesis Submitted
by
Lamyaa Fawzy Ibrahim

For
Ph. D. Degree
In Pharmaceutical Sciences
(Pharmacognosy)
Faculty of Pharmacy – Cairo University
Under the supervision of

Prof. Dr. Marawan Shabana
Professor of Pharmacognosy
Faculty of Pharmacy
Cairo University

Prof. Dr. Sabry El-Negoumy
Professor of Phytochemistry
National Research Center

2003

ACKNOWLEDGEMENT

I wish to express my deepest gratitude and thanks to Prof. Dr. Marawan Shabana, Pharmacognosy Department, Faculty of Pharmacy, Cairo University, for giving me the privilege of being under his supervision in this thesis his constant encouragement and constructive guidance were of paramount importance for the invitation and progress of this work.

I would like to express my sincere thanks to Prof. Dr. Sabry I. El-Negoumy, Phytochemistry and Plant Systematics Department, NRC, for his remarkable effort, considerable help and continuous supervision and guidance which were the major factors behind the completion of this thesis.

I am deeply indebted Associate Research Prof. Salwa Kawashty Phytochemistry and Plant Systematics Department, NRC, for the great help and facilities she offered me which were the cornerstone for this work and also for her continuous cooperation and supervision all to the end of this thesis as well as her effort in the collection and identification of the plant materials.

I would like to extend my sincere gratitude to Prof. Dr. Wafaa El-Eraky, Pharmacology Department, NRC, for carrying out the pharmacological screening in this study.

My respect, appreciation and thanks to Prof. Dr. Nabil Khamis Chemistry of Tanning Material and Protein Department for running most of the spectra through out this thesis.

I am truly thankful to the team of the Phytochemistry and Plant Systematics Department, NRC, for their team work spirit.

Finally, I am most obliged to my parents, my dearest husband for their full support, Sincere love and continuous encouragement.

Contents

	Page
-Introduction.....	1 - 3
-Literature review.....	4 - 19
-Materials, Methods and Apparatus	
1- Plant Materials.....	20
2- Extraction.....	20
3- Chromatography.....	21 - 26
4- Identification techniques of flavonoids.....	26 - 29
5- Physical analysis.....	29 - 38
6- Apparatus.....	38
-Taxonomy of <i>Vicia</i> and <i>Chenopodium</i> species.....	39- 43
 Part I : Chemical studies	
-Methods of general tests for phytoconstituents.....	44 - 52
-Identification of compound (1).....	53 - 63
-Identification of compound (2).....	64 - 71
-Identification of compound (3).....	72 - 77
-Identification of compound (4).....	78 - 83
-Identification of compound (5).....	84 - 90
-Identification of compound (6).....	91 - 96
-Identification of compound (7).....	97 - 102
-Identification of compound (8).....	103 - 106
-Identification of compound (9).....	107 - 110
-Identification of compound (10).....	111 - 114
-Identification of compound (11).....	115 - 118
-Identification of compound (12).....	119 - 124
-Identification of compound (13).....	125 - 128

-Identification of compound (14).....	129 - 132
-Identification of compound (15).....	133 - 136
-Identification of compound (16).....	137 - 140
-Identification of compound (17).....	141 - 147
-Identification of compound (18).....	148 - 151
-Identification of compound (19).....	152 - 155

Part II : Pharmacological studies

1- Determination of median Lethal dose (LD ₅₀).....	161 - 167
2- Determination of the anti-inflammatory effect	
a- Rat paw oedema test.....	167
b- Cotton pellet test.....	168 - 170
3- Determination of analgesic effect.....	170 - 173
4- Determination of ulcerogenic effect.....	173 - 174
5- Determination of Diuretic effect.....	174 - 178
6- Anti-Oxidant activity.....	179 - 184
7- Toxicity against <i>Biomphalaria alexandrina</i> Snails, cercariae, and miracidia of <i>Schistosoma mansoni</i>	185 - 187
8- Measurement of potential cytotoxicity.....	188 - 192
-Summary.....	193 - 197
-References	198 - 208
-Arabic summary
