ANALYSIS OF SOME BENZODIAZEPINES

A Thesis Presented By

Rasha Mohamed Fouad Tolba

For the Fulfillment of
Doctorate of philosophy in Pharmaceutical Sciences
" Analytical chemistry"

B. Pharm. Sci. Cairo University
(1996)

MSC. Anal.Chem. Cairo University
(2001)

Supervised By

Dr. Mostafa M. Ellaithy Dr. M. Abdelkawy Ibrahim

Professor of Analytical Chemistry
Faculty of Pharmacy
Cairo University

Professor of Analytical Chemistry
Faculty of Pharmacy
Cairo University

**Cairo
2006**

بسم الله الرحمن الرحيم
الحمد لله الذي هدانا لهذا
ما كنا لنهتدي لولا أن هدانا الله
والحمد لله رب العالمين

B

1050.

Approval Sheet

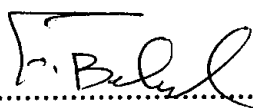

This thesis has been approved on¹¹ /12/ 2006 by the committee in charge:

Prof. Fathalla Belal

Professor of Analytical Chemistry

Faculty of Pharmacy

El-Mansora University

.....

Prof. Abdelaziz El-Byoumi

Professor of Analytical Chemistry

Faculty of Pharmacy

Cairo University

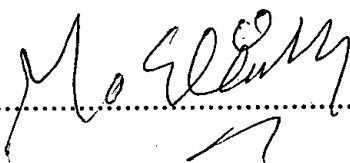

.....

Prof. M. M. Ellaithy

Professor of Analytical Chemistry

Faculty of Pharmacy

Cairo University

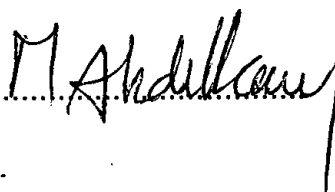

.....

Prof. M. Abdelkawy Ibrahim

Professor of Analytical Chemistry

Faculty of Pharmacy

Cairo University

.....

Acknowledgement

I am deeply grateful to Prof. Dr. M. M. Ellaithy, professor of Analytical Chemistry, Faculty of Pharmacy, Cairo University for his kind supervision, valuable advice, sincere help that he kindly offered during the supervision of this work and for suggesting the subject of this work.

It is my great pleasure to express my deep thanks and gratitude to professor Dr. M. Abdelkawy Mohamad, professor of Analytical Chemistry, Faculty of Pharmacy, Cairo University for his kind supervision, expert guidance, beneficial discussions and stimulating directions throughout the whole work.

My sincere appreciation and thanks to my family for their understanding and support during the whole work.

Finally, thanks to all my colleagues and staff members in the Analytical Chemistry Department for their friendly cooperation.

Rasha M. F. Tolba

Part I

Literature Review

	Page
I.1.0 Introduction	1
I.2.0 Compounds Studied	2
I.2.1.0 Lorazepam	2
I.2.1.1. Methods of analysis of Lorazepam	4
I.2.1.1.i Spectrophotometric methods	4
I.2.1.1.ii Spectrofluorimetric methods	5
I.2.1.1.iii Chromatographic methods	5
I.2.1.1.iv Electrochemical methods	8
I.2.1.1.v Flow injection method	8
I.2.2.0. Delorazepam	8
I.2.2.1 Methods of analysis of delorazepam	10
I.2.2.1.i Electrochemical methods	10
I.2.2.1.ii Spectrophotometric methods	10
I.2.2.1.iii Chromatographic methods	11
I.2.3.0. Tetrazepam	11
I.2.3.1. Methods of analysis of tetrazepam	12
I.2.3.1.i Spectrophotometric and Polarographic methods ...	12
I.2.3.1.ii Spectrodensitometric and spectrofluorimetric methods	13
I.2.3.1.iii. Chromatographic methods	13

Part II

Stability Indicating Methods For

The Determination of Lorazepam

II.1.	Derivative Ratio Spectrophotometric Method	
II.1.1.0.	Experimental	14
II.1.1.1.	Pure sample	14
II.1.1.2.	Market samples	14

II.1.1.3.	Reagents	14
II.1.1.4.	Apparatus	14
II.1.1.5.	Stock solutions	14
II.1.1.6.	Procedures.....	15
II.1.1.6.i.	Spectral characteristics of lorazepam and its degradation product.....	15
II.1.1.6.ii.	Linearity and construction of calibration curve	16
II.1.1.6.iii.	Analysis of laboratory prepared mixtures	16
II.1.1.6.iv.	Application of the proposed method in the analysis of ativan tablets	17
II.1.2.	Results and Discussion	17

II.2.	Spectrodensitometric Method	30
II.2.1.0	Experimental	30
II.2.1.1.	Pure sample	30
II.2.1.2.	Market samples	30
II.2.1.3.	Reagents	30
II.2.1.4.	Apparatus	30
II.2.1.5.	Stock solutions	30
II.2.1.5.i.	For linearity.....	30
II.2.1.5.ii.	For laboratory prepared mixtures	30
II.2.1.6.	Procedures	31
II.2.1.6.i.	Linearity and construction of calibration curve	31
II.2.1.6.ii.	Analysis of laboratory prepared mixtures	32
II.2.1.6.iii.	Application of the proposed method in the analysis of ativan tablets.....	32
II.2.2.	Results and Discussion	33

II.3.	Spectrofluorimetric Method	
II.3.1.0	Experimental	40
II.3.1.1.	Pure sample	40

II.3.1.2.	Market samples	40
II.3.1.3.	Reagents	40
II.3.1.4.	Apparatus	40
II.3.1.5.	Stock solutions	40
II.3.1.6.	Procedures	41
II.3.1.6.i.	Spectrofluorimetric characteristics of lorazepam	41
II.3.1.6.ii.	Spectrofluorimetric characteristics of the degradation product	41
II.3.1.6.iii.	Linearity and construction of calibration curve	42
II.3.1.6.iv.	Analysis of laboratory prepared mixtures	42
II.3.1.6.v.	Application of the proposed method in the Analysis of ativan tablets	43
II.3.2.	Results and Discussion	43

II.4.	High Performance Liquid Chromatographic Method	
II.4.1.0.	Experimental	52
II.4.1.1.	Pure sample	52
II.4.1.2.	Market samples	52
II.4.1.3.	Reagents	52
II.4.1.4.	Apparatus	52
II.4.1.5.	Stock solutions	52
II.4.1.6.	Procedures	53
II.4.1.6.i.	Linearity and construction of calibration curve	53
II.4.1.6.ii.	Analysis of laboratory prepared mixtures	54
II.4.1.6.iii.	Application of the proposed method in the analysis of ativan tablets	54
II.4.2.	Results and Discussion	55

II.5.	Bivariate Method	
II.5.1.0	Experimental	62
II.5.1.1.	Pure sample	62
II.5.1.2.	Market samples	62
II.5.1.3.	Reagents	62
II.5.1.4.	Apparatus	62
II.5.1.5.	Stock solutions	62
II.5.1.6.	Procedures	62
II.5.1.6.i.	Linearity and construction of calibration curve	62
II.5.1.6.ii.	Analysis of laboratory prepared mixtures	63
II.5.1.6.iii.	Application of the proposed method in the Analysis of ativan tablets	63
II.5.2.	Results and Discussion	64

Part III

Stability Indicating Methods For The Determination of Delorazepam

III.1.	Derivative Ratio Spectrophotometric Method	
III.1.1.0.	Experimental	70
III.1.1.1.	Pure sample.....	70
III.1.1.2.	Market samples	70
III.1.1.3.	Reagents.....	70
III.1.1.4.	Apparatus	70
III.1.1.5.	Stock solutions	70
III.1.1.6.	Procedures.....	71
III.1.1.6.i.	Spectral characteristics of delorazepam and Its degradation product	71
III.1.1.6.ii.	Linearity and construction of calibration curve	72
III.1.1.6.iii.	Analysis of laboratory prepared mixtures	72

III.1.1.6.iv.	Application of the proposed method in the analysis of E.N. tablets	73
III.1.2.	Results and Discussion	73

III.2. Spectrodensitometric Method

III.2.1.0	Experimental.....	83
III.2.1.1.	Pure sample.....	83
III.2.1.2.	Market samples.....	83
III.2.1.3.	Reagents.....	83
III.2.1.4.	Apparatus.....	83
III.2.1.5.	Stock solutions.....	83
III.2.1.5.i.	For linearity.....	83
III.2.1.5.ii.	For laboratory prepared mixtures.....	83
III.2.1.6.	Procedures.....	84
III.2.1.6.i.	Linearity and construction of calibration curve....	84
III.2.1.6.ii.	Analysis of laboratory prepared mixtures.....	85
III.2.1.6.iii.	Application of the proposed method in the analysis of E.N. tablets.....	85
III.2.2.	Results and Discussion.....	86

III.3. Spectrofluorimetric Method

III.3.1.0	Experimental.....	93
III.3.1.1.	Pure sample.....	93
III.3.1.2.	Market samples.....	93
III.3.1.3.	Reagents.....	93
III.3.1.4.	Apparatus.....	93
III.3.1.5.	Stock solutions.....	93
III.3.1.6.	Procedures.....	94
III.3.1.6.i.	Linearity and construction of calibration curve..	94
III.3.1.6.ii.	Analysis of laboratory prepared mixtures.....	95

III.3.1.6.iii.	Application of the proposed method in the analysis of E.N. tablets.....	95
III.3.2.	Results and Discussion.....	96

III.4. High Performance Liquid Chromatographic Method

III.4.1.0.	Experimental.....	102
III.4.1.1.	Pure sample.....	102
III.4.1.2.	Market samples.....	102
III.4.1.3.	Reagents.....	102
III.4.1.4.	Apparatus.....	102
III.4.1.5.	Stock solutions.....	102
III.4.1.6.	Procedures.....	103
III.4.1.6.i.	Linearity and construction of calibration curve....	103
III.4.1.6.ii.	Analysis of laboratory prepared mixtures.....	104
III.4.1.6.iii.	Application of the proposed method in the analysis of E.N. tablets.....	104
III.4.2.	Results and Discussion.....	105

III.5. Bivariate Method

III.5.1.0	Experimental.....	112
III.5.1.1.	Pure sample.....	112
III.5.1.2.	Market samples.....	112
III.5.1.3.	Reagents.....	112
III.5.1.4.	Apparatus.....	112
III.5.1.5.	Stock solutions.....	112
III.5.1.6.	Procedures.....	113
III.5.1.6.i.	Linearity and construction of calibration curve..	113
III.5.1.6.ii.	Analysis of laboratory prepared mixtures.....	114
