ACKNOWLEDGMENT

First of all I thank **God** for help and strength offered to me during this work.

I wish to offer my sincere thanks to **Prof. Dr. Faten Ez El-Din Fikry** Professor of Community Health Nursing, Faculty of Nursing, Alexandria University for her valuable guidance, endless help and the great effort she has devoted in the supervision of this work.

My Profound thanks and appreciation to **Prof. Dr. Amira Gamal Sief El-Din** Professor and Head of Community Medicine Department, Faculty of Medicine, Alexandria University who had offered the continous observation, advice, everlasting helpful guidance throughout the whole work.

I would like to express my deepest thanks to **Prof. Dr. Mahasen Ahmed Abdel Wahed** Professor of Community Health Nursing, Faculty of Nursing, Alexandria University for her constant guidance, constructed criticism and willing to devote her time during the various phases of this work.

I would like to express my deepest gratitude to all the staff in the community health nursing department who encouraged and supported me and to all who offered advise, guidance and assistance to me during the accomplishment of this thesis.

Finally and most specially my loving appreciation to my sincere husband and my lovely sisters for their constant support, patience, love, help and encouragement. I will always be indebted for them.
