# UNFAVOURABLE OUTCOME OF EXCIMER LASER REFRACTIVE SURGERY

## Essay

Submitted For Partial Fulfillment of Master Degree in  
Ophthalmology

## Presented BY:

**Ahmed Mohammed Ali El-barky**

M.B., B.Ch.

## Supervisors:

**Prof.Dr. Abdalla Farag El-Sawy**

Professor of Ophthalmology

Benha Faculty of Medicine

Zagazig University

**Prof.Dr. Mohammed Attia Soliman**

Professor of Ophthalmology

Benha Faculty of Medicine

Zagazig University

**Dr. Ayman Abdel-Salam Hamed**

Assistant Professor of Ophthalmology

Benha Faculty of Medicine

Zagazig University

**Dr. Mostafa Awad Haikal**

Assistant Professor of Ophthalmology

Benha Faculty of Medicine

Zagazig University

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا

عَلَّمْتَنَا إِنَّكَ أَنْتَ الْعَلِيمُ

الْحَكِيمُ

صدق الله العظيم

"البقرة ٣٢"

## Acknowledgement

My endless and everlasting thanks to God. Although no words can express my great gratitude and respect to **Prof. Dr. Abdalla Farag EL-Sawy**, professor of Ophthalmology, Banha Faculty of medicine, Zagazig university, I would like to thank him for his outstanding encouragement, advice and his sincere support throughout this work.

I also wish to express my similar gratitude and appreciation to **Prof. Dr. Mohammed Attia Soliman**, professor of Ophthalmology, Banha Faculty of medicine, Zagazig university.

I'm also grateful to **Dr. Ayman Abdel-Salam Hamed**, assistant professor of Ophthalmology, Banha Faculty of medicine, Zagazig university and **Dr. Mostafa Awad Haikal**, assistant professor of Ophthalmology, Banha Faculty of medicine, Zagazig university, for their great care and patience, sincere guidance, tremendous efforts and continuous valuable advice throughout this work.

**CONTENTS**

	<b><u>Page:</u></b>
- Introduction.	<b>1</b>
- Aim of the essay.	<b>3</b>
- Excimer laser physics.	<b>4</b>
- Excimer laser system.	<b>22</b>
- Effects of Excimer laser photoablation on the cornea.	<b>35</b>
- System And Surgical Techniques of PRK.	<b>63</b>
- PRK Complications.	<b>71</b>
- LASIK.	<b>104</b>
- LASIK Complications.	<b>124</b>
- Summary.	<b>197</b>
- References.	<b>201</b>

# *List of figures*

	<i><b>Page:</b></i>
<b>Figure 1:</b> The process of photon formation and the stimulated emission of radiation from the active laser medium.	<b>5</b>
<b>Figure 2:</b> Basic configuration of Excimer laser demonstrates the active laser medium	<b>7</b>
<b>Figure 3:</b> Graph demonstrates that the depth of excision of corneal tissue in microns is proportionate to the number of 193-mm Excimer laser pulses.	<b>21</b>
<b>Figure 4:</b> Summit Technology Omnimed Excimer Laser System	<b>24</b>
<b>Figure 5:</b> VISX 20/20 excimer laser system.	<b>24</b>
<b>Figure 6:</b> Meditec Excimer laser system	<b>27</b>
<b>Figure 7:</b> Types of masks to shape the Excimer laser beam.	<b>29</b>
<b>Figure 8:</b> Suction ring slit mask used for radial linear excisions.	<b>30</b>
<b>Figure 9:</b> Axicon lens. Optical setup for the use of an axicon lens creates a circular pattern for the corneal trephination.	<b>34</b>
<b>Figure 10:</b> Surface view of cavitation bubbles within the cornea immediately following Nd:YLF laser intrastromal photodisruption.	<b>41</b>
<b>Figure 11:</b> Scanning electron micrograph of cavitation site immediately following intrastromal PRK	<b>41</b>
