**Nurses' Malpractice for Neonates
Undergoing Invasive Procedures at
Neonatal Intensive Care Units**

Thesis

*Submitted for Partial Fulfillment of Master Degree
in Pediatric Nursing*

By

Sara Gamal Mohammed

*(B.Sc. In Nursing 2011)
Beni Suief University*

**Faculty of Nursing
Ain Shams University
2020**

**Nurses' Malpractice for Neonates
Undergoing Invasive Procedures at
Neonatal Intensive Care Units**

Thesis

*Submitted for Partial Fulfillment of Master Degree
in Pediatric Nursing*

Supervised By

Prof.Dr. Sabah Saad El Sharkawi

*Professor of Pediatric Nursing
Faculty of Nursing - Ain Shams University*

Prof. Dr. Asmaa Nasr Eldin Mosbeh

*Professor of Pediatric Nursing
Faculty of Nursing - Ain Shams University*

**Faculty of Nursing
Ain Shams University**

2020

Acknowledgement

*First and foremost, I feel always indebted to **ALLAH** the most kind and most the merciful for all his blessing and for giving me the will and strength for completion of this work.*

*I am deeply grateful to **Prof. Dr. Sabah Saad El-Sharkawy**, Professor of Pediatric Nursing, Faculty of Nursing, Ain Shams University, for her constant support, guidance, constructive criticism and valuable supervision. I would not have been able to complete this work without her guidance.*

*I would like to express my deep thanking and appreciation to **Prof. Dr. Asmaa Nasr Eldin Mosbeh**, professor of Pediatric Nursing, Faculty of Nursing, Ain Shams University, for her unlimited help, effort, support, guidance and for the time she devoted to me in this work. I would not have been able to start and continue this work without her help.*

Words can never express my hearty thanks and respect to all my professors who taught me the meaning of courage, and gave me a lot of knowledge, experience and time.

LIST OF CONTENTS

<i>Title</i>	<i>Page</i>
- List of Tables	I
- List of Figures	V
- List of Abbreviations	VII
- Abstract	IX
▪ Introduction	1
▪ Aim of the Study	5
▪ Review of Literature	
An overview about neonate	6
Neonatal intensive care units (NICU)	16
Invasive procedures	21
- Definition of invasive procedures	21
- Types of invasive procedures at NICU	21
- Peripheral Vascular Access (Intravenous Cannula)	22
- Suctioning	31
- Nasogastric tube and orogastric	36
- Capillary blood sampling	40
- Arterial puncture	43
- Neonatal Venipuncture (I.V)	45
- Central venous Access Device	47
- Umbilical catheterization	51
- Chest Tube	54

Nurses Malpractice	56
- Definition of nurses malpractice	56
- Incidence of nurses malpractice at NICUs	57
- Factors contributing to increasing nurses' malpractice	58
- Role of nurse for minimizing malpractice regarding to invasive procedures at NICU	59
▪ Subjects and Methods	63
▪ Results	72
▪ Discussion	116
▪ Conclusion	131
▪ Recommendations	132
▪ Summary	133
▪ References	141
▪ Appendices	175
▪ Protocol	
▪ Arabic Summary	

LIST OF TABLES

<i>Table No.</i>	<i>Title</i>	<i>Page No</i>
(Review of Litreture)		
<u>1</u>	Apgar score.	14
(Results)		
<u>1</u>	Distribution of the studied nurses' according to their characteristics.	73
<u>2</u>	Distribution of Studied Neonates According to their Characteristics.	76
<u>3</u>	Number and distribution of the studied nurses' knowledge regarding to invasive procedures.	78
<u>4</u>	Number and percentage distribution of the studied nurses' knowledge regarding to intravenous cannula.	79
<u>5</u>	Number and percentage distribution of the studied nurses' knowledge regarding to arterial blood sampling.	80
<u>6</u>	Number and percentage distribution of the studied nurses' knowledge regarding to venous blood sample.	81
<u>7</u>	Number and percentage distribution of the studied nurses' knowledge regarding to nasogastric tube.	82
<u>8</u>	Number and percentage distribution of the studied nurses' knowledge regarding to chest tube.	83

<i>Table No.</i>	<i>Title</i>	<i>Page No</i>
<u>9</u>	Number and percentage distribution of the studied nurses' knowledge regarding capillary blood sample.	84
<u>10</u>	Number and percentage distribution of the studied nurses' knowledge regarding to endotracheal tube.	85
<u>11</u>	Number and percentage distribution of the studied nurses' knowledge regarding umbilical catheterization.	86
<u>12</u>	Number and percentage distribution of the studied nurses' knowledge regarding to malpractice.	88
<u>13</u>	Number and percentage distribution of studied nurses regarding to their practice about naso/oropharyngeal suction.	90
<u>14</u>	Number and percentage distribution of studied nurses regarding to their practice about endotracheal tube suction.	92
<u>15</u>	Number and percentage distribution of studied nurses regarding their practice about intravenous cannulation.	94
<u>16</u>	Number and percentage distribution of studied nurses regarding their practice about intramuscular injections.	96
<u>17</u>	Number and percentage distribution of studied nurses regarding to their practice about capillary blood sampling.	98
<u>18</u>	Number and percentage distribution of studied nurses regarding to their practice about nasogastric tube.	99

<i>Table No.</i>	<i>Title</i>	<i>Page No</i>
<u>19</u>	Number and percentage distribution of studied nurses' malpractice regarding to invasive procedure.	102
<u>20</u>	Number and percentage distribution of studied nurses' malpractice regarding to endotracheal tube suction.	103
<u>21</u>	Number and percentage distribution of studied nurses' malpractice regarding to intravenous cannula insertion.	104
<u>22</u>	Number and percentage distribution of studied nurses' malpractice regarding to intramuscular injection and capillary blood sampling.	105
<u>23</u>	Number and percentage distribution of studied nurses' malpractice regarding to nasogastric tube insertion.	106
<u>24</u>	Number and percentage distribution of studied nurses about total common malpractices regarding to invasive procedure.	107
<u>25</u>	Number and percentage distribution of the studied nurses' attitude about malpractice regarding to invasive procedures.	108
<u>26</u>	Relation between characteristics of studied nurses and their total level of knowledge during performing invasive procedures.	111
<u>27</u>	Relation between characteristics of studied nurses and their malpractice regarding to invasive procedures.	112
<u>28</u>	Relation between total knowledge of studied nurses and their total attitude about malpractice regarding to invasive procedure.	113

<i>Table No.</i>	<i>Title</i>	<i>Page No</i>
<u>29</u>	Relation between total attitude of studied nurses' and their malpractice regarding to invasive procedures.	114
<u>30</u>	Relation between knowledge of studied Nurses and their practice regarding to invasive procedures.	115

LIST OF FIGURES

<i>Fig. No.</i>	<i>Title</i>	<i>Page. No.</i>
(Review of Litreture)		
<u>1</u>	Neonatal Molding During Normal Labor.	8
<u>2</u>	Neonatal intensive care unit.	16
<u>3</u>	Neonatal Peripheral Vascular Access (PVA) (Intravenous Cannula).	22
<u>4</u>	Peripheral intravenous access and fluid therapy.	34
<u>5</u>	Oropharangeal suctioning.	32
<u>6</u>	Naso/Orophyrengal suctionnning.	32
<u>7</u>	Nasogastric Tube.	37
<u>8</u>	Capillary blood sampling (CBS).	40
<u>9</u>	Arterial puncture.	43
<u>10</u>	Venipuncture.	46
<u>11</u>	Central venous catheterization.	47
<u>12</u>	Umbilical catheter.	51
(Results)		
<u>1</u>	A Percentage Distribution of Studied Nurses According to their Setting of Work.	74
<u>2</u>	Percentage distribution of studied nurses according to attendance of training courses regarding to invasive procedures.	75
<u>3</u>	Percentage distribution of studied nurses according to their total knowledge regarding to invasive procedures.	87

<i>Fig. No.</i>	<i>Title</i>	<i>Page. No.</i>
<u>4</u>	Percentage distribution of the studied nurses according to their total knowledge regarding to malpractice.	89
<u>5</u>	Percentage distribution of studied nurses according to their total practice regarding to invasive procedures.	101
<u>6</u>	Percentage distribution of studied nurses according to their total attitude about malpractice regarding to invasive procedures	110

LIST OF ABBREVIATIONS

<i>Abb.</i>	<i>Meaning</i>
ABG	Arterial Blood Gases.
BDA	Patent Ductus Arteriosus
BPD	Broncho Pulmonary Dysplasia
CBG	Capillary Blood Gases
