Psychosocial Stressors among Epileptic Children

Thesis

Submitted for Partial Fulfillment of Master Degree
in Psychiatric Mental Health Nursing

Under Supervision of

Dr. Ghada Mohamed Mourad

Professor of Psychiatric/Mental Health Nursing
Faculty of Nursing, Ain Shams University

Dr. Rania Abdel Hamid Zaki

Assistant Professor of Psychiatric/Mental Health Nursing
Faculty of Nursing, Ain Shams University

Faculty of Nursing
Ain Shams University

2020

وَمِنْهُمْ مَّنْ يَّهْدِي اللَّهُ
وَمِنْهُمْ مَّنْ يَّضَلُّ اللَّهُ
وَمِنْهُمْ مَّنْ يَّهْدِي اللَّهُ
وَمِنْهُمْ مَّنْ يَّضَلُّ اللَّهُ

Acknowledgments

*First and forever, thanks to **ALLAH**, Almighty for giving me the strength and faith to complete my thesis and for everything else.*

*I would like to express my deepest gratitude and appreciation to **Prof. Dr/ Ghada Mohamed Mourad**, Professor of psychiatric and mental health nursing, Faculty of Nursing, Ain Shams University, for her generous support and guidance to help me to put this work in its best form and for being an ideal model of a professor to follow. It was indeed an honor to work under her supervision.*

*It is my pleasure to express my unlimited gratitude and deepest thanks to **Assist. Prof. Dr/ Rania Abdel Hamid Zaki**, Assistant Professor of psychiatric and mental Health Nursing, Faculty of Nursing, Ain Shams University, for her kind assistance, faithful supervision, precious help, valuable advice and guidance she offered me to complete this study. No words of gratitude can equal her help and support.*

Special thanks to all caregivers and their patients who participated in this study wishing for all good health.

*Finally, I would like to thank my family members specially **my parents and my sister**, who have motivated and guided me through the difficult times of my struggle. They will always be the source of inspiration in all my endeavors.*

*✍ **Manar Gamal El Maghraby***

Dedication

Dedicate my effort to:

*The most important persons in my
life; my parents, my sister “Omnia”,
and my professor / Dr. Samawal
for their motivation, caring, love,
and support that allowed me to
accomplish this work*
