A Study of the Association between Iron Deficiency Anaemia and Dental Caries during Early Childhood

Thesis

*Submitted for Partial Fulfillment
of Master Degree in **Pediatrics***

By

Salahuldeen Hamid AbdelFattah
M.B.B.Ch (2012)

Under Supervision of

Prof. Dr. Wafaa Ezzat Ibrahim

*Professor of Pediatrics
Faculty of Medicine, Ain Shams University*

Dr. Reham Khaled Abou-El-Fadl

*Associate Professor of Pediatric Dentistry and Dental Public Health
Faculty of Dentistry, Ain Shams University*

Dr. Rasha Adel Fathy Thabet

*Lecturer of Pediatrics
Faculty of Medicine, Ain Shams University*

Faculty of Medicine, Ain Shams University

2020

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالَ

سُبْحَانَكَ لَا عِلْمَ لَنَا
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْعَظِيمُ

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgments

*First and foremost, I feel always indebted to **Allah** the Most Beneficent and Merciful.*

*I wish to express my deepest thanks, gratitude and appreciation to **Prof. Dr. Wafaa Ezzat Ibrahim**, Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for her meticulous supervision, kind guidance, valuable instructions and generous help.*

*Special thanks are due to **Dr. Rasha Adel Fathy Thabet**, Lecturer of Pediatrics, Faculty of Medicine, Ain Shams University, for her sincere efforts, fruitful encouragement.*

*I am deeply thankful to **Dr. Reham Khaled Abou-El-Fadl**, Associate Professor of Pediatric Dentistry and Dental Public Health, Faculty of Dentistry, Ain Shams University, for her great help, outstanding support, active participation and guidance.*

*Thanks to **Dr. Mohamed Helmi**, Assistant Lecturer of Pediatric Dentistry and Dental Public Health, for his efforts till this work was completed.*

I would like to express my hearty thanks to my wife and my parents for their support till this work was completed.

Salahuldeen Hamid Abdel Fattah

List of Contents

Title	Page No.
List of Tables.....	5
List of Figures	7
List of Abbreviations.....	13
Abstract	14
Introduction	- 1 -
Aim of the Work	17
Review of Literature	
▪ Iron Deficiency Anaemia (IDA).....	18
▪ Early Childhood Caries (ECC)	30
▪ IDA and ECC	45
Patients and Methods.....	47
Results	59
Discussion	111
Summary	125
Conclusion	127
Recommendations	128
References	129
Appendices	163
Arabic Summary	

List of Tables

Table No.	Title	Page No.
Table 1:	Study variables	50
Table 2:	Gingival Index of Löe and Silness scoring criteria	57
Table 3:	Severity of gingival inflammation.....	57
Table 4:	Mean and standard deviation (SD) values and frequencies (n) and percentages (%) of demographic data in both study groups	60
Table 5:	Frequencies (n) and percentages (%) of distribution of nutritional data in both groups	67
Table 6:	Frequencies (n) and percentages (%) of frequency of sweets offering in both groups	69
Table 7:	Frequencies (n) and percentages (%) of frequency of teeth brushing in both groups	71
Table 8:	Frequencies (n) and percentages (%) of History of symptoms of anaemia and dental problems in both groups	73
Table 9:	Mean and standard deviation (SD) values of anthropometric measures and frequencies (n) and percentages (%) of anthropometric measures status in both groups	75
Table 10:	Mean and standard deviation (SD) values of heart rate (BPM) and frequencies (n) and percentages (%) of presence of tachycardia and pallor in both groups.....	77
Table 11:	Frequencies (n) and percentages (%) of presence of audible haemic murmur and organomegaly in both groups	79

List of Tables cont...

Table No.	Title	Page No.
Table 12:	Mean and standard deviation (SD) values of (CBC) in both groups	80
Table 13:	Mean and standard deviation (SD) values of Iron level investigations in the cases group	82
Table 14:	Frequencies (n) and percentages (%) of severity of anaemia in the cases group	83
Table 15:	Mean and Standard deviation (SD) values of dmft index in both groups	84
Table 16:	Mean and Standard deviation (SD) values of gingival index in both groups	85
Table 17:	Correlation between dmft index and other study variables.....	86
Table 18:	Correlation between gingival index and different study variables.....	96
Table 19:	Mean and standard deviation (SD) values of haemoglobin levels in children with good and bad diet.....	104
Table 20:	Frequencies (n) and percentages (%) of the presence of anaemia in children with good and bad quality of diet	105
Table 21:	Correlation between dmft and gingival index	106
Table 22:	Regression model predicting (DMF') index in both groups.....	108

List of Figures

Fig. No.	Title	Page No.
Figure 1:	Haemoglobin synthesis.....	21
Figure 2:	Iron homeostasis.....	23
Figure 3:	Pallor in IDA.....	24
Figure 4:	Consequences of IDA.....	25
Figure 5:	Risk factors for ECC.....	33
Figure 6:	Clinical presentation and stages of ECC.....	39
Figure 7:	Prevention of ECC.....	43
Figure 8:	Flow diagram detailing participants flow through the study.....	49
Figure 9:	Assessment of Gingival index.....	56
Figure 10:	Bar chart showing average age in months in both groups.....	61
Figure 11:	Bar chart showing percentage of gender distribution in both groups.....	61
Figure 12:	Bar chart showing percentage of distribution of birth order in both groups.....	62
Figure 13:	Bar chart showing percentage of socioeconomic class distribution in both groups.....	62
Figure 14:	Bar chart showing percentage of mother's education in both groups.....	63
Figure 15:	Bar chart showing average mother's education score.....	63
Figure 16:	Bar chart showing percentage of Per- Capita income in both groups.....	64
Figure 17:	Bar chart showing average Per-Capita income score.....	64
Figure 18:	Bar chart showing percentage of family size in both groups.....	65
Figure 19:	Bar chart showing average family size.....	65

List of Figures cont...

Fig. No.	Title	Page No.
Figure 20:	Bar chart showing percentage of distribution of feeding methods in both groups.....	67
Figure 21:	Bar chart showing percentage for diet quality in both groups	68
Figure 22:	Bar chart showing percentage for weaning state in both groups.....	68
Figure 23:	Bar chart showing percentage of frequency of sweets offering in both groups	70
Figure 24:	Bar chart showing percentage of frequency of teeth brushing in both groups.....	72
Figure 25:	Bar chart showing percentage of History of symptoms of anaemia and dental problems in both groups	74
Figure 26:	Bar chart showing average anthropometric measures in both groups.	76
Figure 27:	Bar chart showing average heart rate (BPM) in both groups	77
Figure 28:	Bar chart showing percentage of presence of tachycardia and pallor in both groups.....	78
Figure 29:	Bar chart showing percentage of presence of audible haemic murmur in both groups.	79
Figure 30:	Bar chart showing average of (CBC) in both groups	81
Figure 31:	Bar chart showing average of Iron level investigations in cases group	82
Figure 32:	Pie chart showing percentage of anaemia severity in cases group.	83
Figure 33:	Bar chart showing average dmft index in both groups	84
Figure 34:	Bar chart showing average gingival index in both groups	85

List of Figures cont...

Fig. No.	Title	Page No.
Figure 35:	Scatter plot showing correlation between dmft index and the presence of anaemia in both groups	87
Figure 36:	Scatter plot showing correlation between dmft index and the socio-economic class in both groups	87
Figure 37:	Scatter plot showing correlation between dmft index and feeding method in both groups.....	88
Figure 38:	Scatter plot showing correlation between dmft index and frequency of sweets offering in both groups	88
Figure 39:	Scatter plot showing correlation between dmft index and frequency of teeth brushing in both groups	89
Figure 40:	Scatter plot showing correlation between dmft index and symptoms of anaemia in both groups	89
Figure 41:	Scatter plot showing correlation between dmft index and level of haemoglobin in both groups	90
Figure 42:	Scatter plot showing correlation between dmft index and level of MCV in both groups.....	90
Figure 43:	Scatter plot showing correlation between dmft index and level of RDW in both groups.....	91
Figure 44:	Scatter plot showing correlation between dmft index and level of MCH in both groups.....	91

List of Figures cont...

Fig. No.	Title	Page No.
Figure 45:	Scatter plot showing correlation between dmft index and mother's education scores in both groups	92
Figure 46:	Scatter plot showing correlation between dmft index and Per-Capita income scores in both groups	92
Figure 47:	Scatter plot showing correlation between dmft index and weaning state in both groups.....	93
Figure 48:	Scatter plot showing correlation between dmft index and quality of diet in both groups.....	93
Figure 49:	Scatter plot showing correlation between dmft index and wasting in both groups	94
Figure 50:	Scatter plot showing correlation between dmft index and stunting in both groups	94
Figure 51:	Scatter plot showing correlation between dmft index and overweight status in both groups.....	95
Figure 52:	Scatter plot showing correlation between gingival index and the presence of anaemia in both groups	97
Figure 53:	Scatter plot showing correlation between gingival index and socio-economic class in both groups	97
Figure 54:	Scatter plot showing correlation between gingival index and feeding method in both groups.....	98
Figure 55:	Scatter plot showing correlation between gingival index and frequency of sweets offering in both groups	98
