“Comparative Evaluation of The Shaping Ability and Post-operative Pain after Preparation using Different Single File Systems”

Thesis submitted to the Faculty of Dentistry,

Ain Shams University

For

Partial Fulfillment of Requirements of the Doctoral degree in Endodontics

By

Mohamed Mohamed Khaled EL-Ashiry

B.D.S, M.Sc

Assistant Lecturer, Endodontic department

Faculty of Dentistry, Ain Shams University

2020

Supervisors

Dr.Salma El-Ashry

Professor of Endodontics, Endodontic department

Faculty of Dentistry, Ain Shams University

Dr. Shehab El-Din Mohamed Saber

Professor of Endodontics, Endodontic department

Faculty of Dentistry, Ain Shams University

Dr. Christopher W. Cutler

DDS, PhD

Professor and Chair Department of Periodontics

Associate Dean for Research

Dental College of Georgia, Augusta University, USA

Acknowledgment

First and foremost, thanks to ALLAH for blessing this work until it has reached its end, as a little part of His generous help throughout my life.

I would like to express my deep appreciation and profound gratitude to ***Prof. Dr. Salma Elashry,*** Professor of Endodontics Faculty of Dentistry, Ain Shams University, indeed this study owes much to her keen interest, beneficial advice, unlimited endless help, constant support and continuous encouragement throughout the conduction of this work.

I also wish to express my warmest and grateful thanks to ***Prof. Dr. Shehab Eldin Saber***, Professor of Endodontics, Faculty of Dentistry, Ain Shams University, for his continuous help, care, guidance, valuable advice, helpful directions and continuous interest through this work.

It is a pleasure and honor to work with ***Prof. Dr. Christopher Cutler,*** Professor and the Head of Periodontics department, Dental College of Georgia, Augusta University, USA, who mentored me during my research work in Augusta University. I learned a lot from him, and he was so generous in providing me his knowledge and expertise in the field of dental research.

Many thanks and deepest appreciation to all my colleagues and members in the Endodontic Department, Faculty of Dentistry, Ain Shams University for their help, support and effort through the course of this work.

Last but not least, I would like to express my appreciation to the ***Ministry of Higher Education in Egypt***, that supported me and funded a joint supervision scholarship to conduct this research in Augusta University, USA. The support and help that I was provided from their side was limitless and can't be underestimated, without these encouragements and assists, these works would not have been accomplished.

Dedication

I would like to dedicate this thesis to:

My Great Father and Mother, to whom I will never find adequate words to express my gratitude, my loving Wife and son for their support, help and tolerance, to my Dear Brother and his adored family for their encouragement and guidance and to the Soul of my Beloved Grandfathers, to whom I owe every accomplishment in my life.

"My Family, the greatest gift that ALLAH awarded me".
