“In Vitro Investigation of CAD/CAM Ceramic and Hybrid Composite Materials in Simulated Parafunctional Activity”

Thesis submitted to Faculty of dentistry, Ain Shams University
for partial fulfilment of the requirements for the Doctorate degree
in Fixed Prosthodontics

By

Nancy Essam Bahig Rafla

BDS Faculty of Dentistry, Ain Shams University (2011)

MSc Faculty of Dentistry, Ain Shams University (2017)

FACULTY OF DENTISTRY
AIN SHAMS UNIVERSITY

2021

Supervisors:

Prof. Tarek Salah El-Din Mohamed Morsi

Professor and head of the Fixed Prosthodontic Department
Faculty of Dentistry,
Ain Shams University

Dr. Maged Mohamed Zohdy

Associate professor in the Fixed Prosthodontic Department,
Faculty of Dentistry,
Ain Shams University

Dedication

*This work would have
never been completed
without God's grace
dedicated to my amazing
family*

*My parents, my life's greatest blessing
and number one fans.*

*My husband and sweet children for
their support and encouragement.*

*My beautiful sister who has always
been my guidance.*

*And last and not least my mother in
law to whom I will be forever grateful.*

Acknowledgement

First of all I would like to thank Prof. Tarek Salah , my mentor, professor of fixed prosthodontics and head of department for his continuous support, guidance and encouragement throughout the years.

Dr Maged Zohdy, associate professor for his help and guidance since I started my academic journey.

Dr Rupert Austin, Clinical Senior Lecturer and Consultant in Prosthodontics at King's College London's for his tremendous efforts, ultimate guidance even after I left. I am very thankful for what he taught me in every single step of the way.

Prof. Sanjukta Deb, Peter Pilecki, Alessandro Maffei, Polis Charalambous who showed me great support at King's College London. My friends Dr. Rana Al Kattan and Dr. Sami Almohefer who have been my backbone and helped me in all the ups and downs. Prof. Siegfward Heintze for his massive input and support.

Last and not least, all the gratitude to my friends at the department of fixed prosthodontics, Ain shams university especially Dr. Sarah Adel and Dr Kamal Ebeid for their help with the statistics. Dr Amy moheb and Dr. Mohamed Samy for their support throughout my PhD journey.

TABLE OF CONTENTS:

INTRODUCTION	1
REVIEW OF LITERATURE	4
WEAR SUBSTRATES	4
1. HUMAN ENAMEL.....	4
1.1 <i>Ultrastructure</i>	4
1.2. <i>Tooth wear</i> :.....	6
1.3. <i>Laboratory Methodologies Investigating Erosive Tooth Wear</i>	10
2. RESIN NANO-CERAMIC	19
2.1. <i>Microstructure</i> :	19
2.2. <i>Wear of Resin Nano Ceramics (RNC)</i> :	20
3. LITHIUM DISILICATE:	23
3.1. <i>Microstructure</i> :	23
WEAR STUDY:.....	25
I. CLINICAL IMPORTANCE OF WEAR OF DENTITION AND DENTAL RESTORATIONS:	25
1. WEAR BEHAVIOUR OF NATURAL TEETH:	25
2. WEAR BEHAVIOUR OF COMPOSITE RESINS:.....	26
3. LABORATORY METHODS FOR TESTING DENTAL MATERIALS FOR WEAR:	27
4. METHODS OF WEAR ASSESSMENT:	31
STATEMENT OF THE PROBLEM	42
AIM OF THE STUDY.....	43
MATERIALS AND METHODS	45
1. MATERIALS:	45
2. METHODOLOGY:	46
<i>Sample grouping</i> :	49
<i>Factorial analysis</i> :.....	49
○ TWO BODY TOOTH WEAR STUDY (1):	50
■ FABRICATION OF SUBSTRATES:.....	51
<i>Enamel substrates</i> :	51
<i>Mounting</i> :.....	52
<i>Polishing</i>	53
