Evaluation of Cleaning Ability and Antimicrobial Action of New Herbal Ethanolic Mixture Extract as An Irrigant

Thesis Submitted to the Faculty of Dentistry, Ain Shams University

For Partial fulfillment of requirements for The Master Degree in Endodontics

By

Nanies Ezzat Ibrahim Aboualam

B.D.S Faculty of Dentistry

(Ain Shams University 2005)

2020

Supervisors

Dr. Abeer Elgendy

Professor of Endodontics
Faculty of Dentistry, Ain Shams University

Dr. Soha Abd El Rahman Elhady

Professor of Microbiology and Immunity
Faculty of Medicine, Ain Shams University

Dr. Mohamed Mokhtar

Assistant Professor of Endodontics
Faculty of Dentistry, Ain Shams University

2020

Acknowledgement

*First and Foremost, I would like to express my gratitude and Thankfulness to **ALLAH**.*

*I wish to express my deepest gratitude to **Dr. Abeer Abdelhakim Elgendy**, Professor of endodontics, Faculty of Dentistry, Ain Shams University for her guidance, support and ultimate help.*

*I would like to thank **Dr. Soha Abd El Rahman El Hady**, Professor of Microbiology, Faculty of Medicine, Ain Shams University, for her great efforts and her precious time throughout this work.*

*I would like to thank **Dr. Mohamed Mokhtar Nagy**, Assistant Professor of Endodontics, Faculty of Dentistry, Ain Shams University for his support, continuous help and valuable comments throughout this work.*

*I would like to pay my special regards to **Dr. Yousra Elkhodary**, Lecturer of Pharmacognosy, Faculty of Pharmacy, Ain Shams University for her outstanding efforts supporting this work.*

Full appreciation and thanks to all the staff members of the Endodontic Department, my friends and colleagues for their efforts and help whenever needed.

Dedication

To my precious parents, the first to teach me to trust in Allah, believe in hard work and to chase my dreams, your love and affection always surrounded me.

To my One and Only Brother, your prayers from heaven are felt always, you will be proud as I promised.

To my great supporting loving husband, your care, patience and encouragement helped me through.

To my dear lovely children, you are the reason why I completed this humble work, because of you, I am always trying to be better, God bless you.

List of Contents

Title	Page No.
Introduction	1
Review of Literature	3
○ Cleaning ability of endodontic irrigants	3
○ Antimicrobial action of endodontic irrigants	9
Aim of the study	25
Materials and Methods	26
Results	44
Discussion	63
Summary and conclusion	72
Recommendations	77
References	78
Arabic Summary	88

List of Figures

Fig. No.	Title	Page No.
Figure (1)	Photograph showing Decoronated Samples	28
Figure (2)	Photographs showing Leaves of the herbals ground to powder	29
Figure (3)	Photograph showing soaking of the Four Herbals	30
Figure (4)	Photograph showing filtration of each extract	30
Figure (5)	Photograph for Indigenously Prepared Herbal Extract in a Plastic Syringe for Irrigation	31
Figure (6)	E-Cube Endodontic Motor	34
Figure (7)	M-PRO Rotary Files	34
Figure (8)	EDTA Gel	34
Figure (9)	Photograph showing Longitudinal Groove on Both Sides of the Root	35
Figure (10)	Photograph showing Specimen splitted into Halves	35
Figure (11)	Photograph showing Light Stereomicroscope (BX60, Olympus, Japan)	37
Figure (12)	A Plate showing the Steps of Quantitative Evaluation of the Debris within a Coronal Root Canal Third of a Specimen in CHX Group (Original Mag.X2.5)	38
Figure (13)	Photograph of the Experimental test tubes showing Bacterial sampling using sterile paper points	41
Figure (14)	Photograph showing the Incubator	41
Figure (15)	Photograph showing Test tubes of samples at 37°C inside incubator	41
Figure (16)	BHI Agar plate showing Colonies of bacteria	42

Figure (17)	Bar chart representing Area fraction (%) of RC Debris for different groups showing effect of irrigant	45
Figure (18)	Bar Chart representing Area fraction (%) of RC Debris for different groups showing effect of third	47
Figure (19)	Stereomicroscopic image (original mag. X2.5) for root sample irrigated with the New Herbal Mixture	48
Figure (20)	Stereomicroscopic image (original mag. X2.5) for root sample irrigated with NaOCL	49
Figure (21)	Stereomicroscopic image (original mag. X2.5) for root sample irrigated with CHX	50
Figure (22)	Bar chart representing antimicrobial activity for different control and experimental groups	52
Figure (23)	Bar chart representing antimicrobial activity for different experimental groups	54
Figure (24)	Scatter plot showing correlation between cleaning and antimicrobial properties of the new herbal irrigant	56
Figure (25)	Scatter plot showing correlation between cleaning and antimicrobial properties of NaOCL	58
Figure (26)	Scatter plot showing correlation between cleaning and antimicrobial properties of CHX	60
Figure (27)	Scatter plot showing positive correlation between cleaning and antimicrobial properties	62

List of Tables

Table No.	Title	Page No.
<u>Table (1)</u>	The mean, standard deviation (SD) values of Area fraction (%) of RC Debris of different groups.	45
<u>Table (2)</u>	The mean, standard deviation (SD) values of antimicrobial activity of different control and experimental groups.	51
<u>Table (3)</u>	The mean, standard deviation (SD) values of antimicrobial activity of different experimental groups.	53
<u>Table (4)</u>	Correlation between cleaning and antimicrobial properties of the new herbal irrigant.	55
<u>Table (5)</u>	Correlation between cleaning and antimicrobial properties of NaOCL	57
<u>Table (6)</u>	Correlation between cleaning and antimicrobial properties of CHX	59
<u>Table (7)</u>	Correlation between cleaning and antimicrobial properties.	61

List of Abbreviations

Abb.	Full term
%	Percentage
Conc.	concentration
CFU	Colony forming units
ml	Milli-liter
mm	Milli-meter
NaOCL	Sodium hypochlorite
BHI	Brain heart infusion
#	Number
P-value	Probability
SD	Standard deviation
WL	Working length
MAF	Master apical file
