Determination of endometrial estrogen and progesterone receptors in women with unexplained recurrent miscarriages

A case control study

Thesis

Submitted for the partial fulfillment of the Master's Degree in

Obstetrics and Gynecology

By

Ahmed Sabry Abdel-Hafeez Ahmed

Resident Registrar of Obstetrics and Gynecology at Alyoum Alwahed Hospital

M.B.B.ch. Ain Shams University- 2014

Supervised by

Prof. Ihab Fouad Serag El-Din Allam

*Professor of Obstetrics and Gynecology
Faculty of Medicine – Ain Shams University*

Prof. Sherif Ahmed Ashoush

*Professor of Obstetrics and Gynecology
Faculty of Medicine – Ain Shams University*

Prof. Ihab Adel Gomaa

*Assistant Professor of Obstetrics and Gynecology
Faculty of Medicine – Ain Shams University*

**Faculty of Medicine
Ain Shams University
2020**

Acknowledgement

*Firstly, we administer the prayerful thanks to our Merciful **Allah** who gives us everything we have.*

*I find it difficult to express in words my feeling and gratitude towards **Prof. Ihab Fouad Serag El-Din Allam**, Professor of Obstetrics and Gynecology, faculty of medicine, Ain Shams University, for his supervision to the work, valuable help and cooperation in solving some problems, constructive criticism and at last for revising the manuscript.*

*I have pleasure to insure my sincere gratitude and thanks to **Prof. Sherif Ahmed Ashoush**, Professor of Obstetrics and Gynecology, faculty of medicine, Ain Shams University, for his close supervision, support and valuable cooperation, advice and scientific knowledge during the period of study.*

*I wish to express my sincere thanks to **Prof. Ihab Adel Gomaa**, Assistant Professor of Obstetrics and Gynecology, faculty of medicine, Ain Shams University, for his supervision and for help and cooperation in practical work. I really appreciate their patience and support.*

*My great pleasure to acknowledge the kind help offered to me by **Prof. Hanan Ahmed Tag El-Din**, Chief researcher of Biochemistry, Head of Hormonal Unit, Chemistry Department, Animal Health Research Institute, Dokki, Giza for her continuous constructive help, sincere advices and support during the practical part of this work.*

*I am heartily thankful to **D. Maha Sabry Abd-Elhafeez**, Researcher of Pharmacology, Pharmacology and Pyrogen Unit, Chemistry Department, Animal Health Research Institute, Dokki, Giza who has supported me throughout this work with her patience and knowledge*

*I wish to express my sincere thanks to the **patients** for their cooperation and patience during the practical part of this work.*

*Finally, grateful appreciation to **my parents, my wife, my friends** and **every one** contributed and helped me to complete this work.*

List of contents

	Page
List of tables	I
List of figures	Ii
List of abbreviations	iii
Protocol	iv
Introduction	1
Aim of the work	4
Review of literature:	
<i>Chapter I: Recurrent miscarriage</i>	5
<i>Chapter II: Serum progesterone level and endometrial estradiol & progesterone receptors</i>	29
<i>Chapter III: Methods for determination of hormones and its endometrial receptors</i>	46
Patients and method	49
Results	58
Discussion	67
Summary	73
Conclusion	75
Recommendations	76
References	77

List of tables

Table no.	Title	Page
1	Etiologies of RPL, recommended tests for diagnosis and treatment options.	24
2	Demographic data of two groups	59
3	Serum and endometrial E2 and P4 levels in control and recurrent miscarriage	60
4	Levels of endometrial ER and PR in control and repeated miscarriage	63
5	Correlation between no. of previous miscarriages and concentration of progesterone and estrogen hormones in serum and endometrial tissue and their endometrial receptors	65
6	Serum and endometrial E2 & P ₄ levels; endometrial ER & PR in control and recurrent miscarriage.	66

List of figures

Fig.no.	Title	Page
1	Classification system of Müllerian duct anomalies	9
2	Scheme for the classification of female genital tract anomalies according to the new ESHRE/ESGE classification system	10
3	Progesterone role in blastocyst implantation	3
4	Biosynthesis of progesterone and estrogens by the human placenta	30
5	Hormones secreted during pregnancy	33
6	Progesterone receptors mediate genomic and non-genomic actions in human endometrium	35
7	Novak curette	53
8	HPLC apparatus	55
9	Flow chart of studied groups	58
10	Serum progesterone levels of control and recurrent miscarriage	61
11	Serum estradiol levels of control and recurrent miscarriage	61
12	Endometrial progesterone levels of control and recurrent miscarriage	62
13	Endometrial estrogen levels of control and recurrent miscarriage	62
14	Endometrial cytoplasmic PR and ER levels of control and recurrent miscarriage	64
15	Endometrial nuclear PR and ER levels of control and recurrent miscarriage	64
16	Correlation between no. of previous miscarriages and concentration of progesterone and estrogen hormones in serum and endometrial tissue and their endometrial receptors	66

List of abbreviation

Abbreviation	Expression
ACL	Anticardiolipin Antibodies
AFS	American Fertility Society
APL	Antiphospholipid
APS	Antiphospholipid syndrome
ASRM	American Society for Reproductive Medicine
ATIII	Antithrombin III
BMI	Body mass index
cDNA	Complementary DNA
CE	Chronic endometritis
Dig- dUTP	Digoxigenin-11- deoxyuridine triphosphate
E1	Estrol
E2	Estradiol
EIA	Enzyme immunoassay
ELISA	Enzyme-Linked Immunosorbent Assay
ER	Estrogen receptor
ESGE	European Society for Gynecological Endoscopy
ESHRE	European Society for Human Reproduction and Embryology
Fmol	Femto mole
FP	Follicular phase
FSH	Follicle stimulating hormone
FVL	Factor V Leiden

List of abbreviation

Abbreviation	Expression
GC-MS/MS	Gas Chromatography-Tandem Mass Spectrometry
G-CSF	Granulocyte colony-stimulating factor
HPLC	High performance liquid chromatography
HSG	Hysterosalpingography
IVF	In vitro fertilization
IVIg	Intravenous immunoglobulin
LBR	Live birth rate
LH	Luteinizing hormone
LMWH	Low-molecular-weight heparin
LPD	Luteal phase defect
MTHFR	Methyl tetra-hydrofolate reductase
NK	Natural killer
OXTR	Oxytocin receptor
P ₄	Progesterone
PCOS	Polycystic ovarian syndrome
PCR	Polymerase chain reaction
PL	Pregnancy loss
PM	Pregnancy morbidity
POC	Product of conception
PR	Progesterone receptor
PSD	Protein S deficiency
PT G20210A	Prothrombin gene 20210A
qRT-PCR	Quantitative real time polymerase chain reaction
