**MONA MAGHRABY**

*Faculty of Science*  
*Chemistry Department*

**Preparation and characterization of polyester resin  
for solvent based printing inks applications**

**Thesis**

**Submitted by**

**Mohamed Hashem Mohamed Bakr**

*(M.Sc. Chemistry)*

**2014**

**For the Degree of**

***Doctor of philosophy [Ph.D]***

***(In Chemistry)***

***To***

***Chemistry Department***

***Faculty of Science***

***Ain Shams University***

**2020**

***Faculty of Science  
Chemistry Department***

## **Approval Sheet**

**Name of the Candidate:** Mohamed Hashem Mohamed Bakr

This thesis has been approved for submission by supervisors:

**Thesis supervisors**

**Approved**

**Dr. Mohamed Ahmed Mekewi**

Prof. of Polymer Chemistry, Department of Chemistry, Faculty of Science,  
Ain Shams University

**Dr. El-said Helmy Mohamed El-Mosallamy**

Asso. Prof. of Polymer Chemistry, Department of Chemistry, Faculty of  
Science, Ain Shams University

**Dr. Mahmoud Abd El-Rahman Ibrahim**

Research and Development Manager, DEGLA Chemicals Co., Cairo, Egypt

**Head of Chemistry Department**

**Prof. Dr. Ayman Ayoub Abdel-Shafi**

## ***Acknowledgment***

I would like to express my sincere gratitude to my principal supervisor, **Dr. Mohamed Ahmed Mekewi**, for helping structuring the present research project, his guidance, support and patience throughout my PhD studies and the thesis finalization.

I am also grateful to **El-said Helmy Mohamed El-Mosallamy** for his valuable supervision and helpful suggestions.

My sincere thanks also go to **Dr. Mahmoud Abd El-Rahman Ibrahim** for providing me with all the support needed, knowledge, and skills throughout the course of my work which will benefit me for many years to come.

My deep thanks to Dr. Ahmed Abo-Elwafa the owner of Degla Chemicals Company for letting me accomplish this PHD.

My special gratefulness is due to my parents and my fiancée for their encouragement, support, and patience to fulfill my study.

**“I DEDICATE THIS WORK TO THEM”**

Finally, I would like to thank members of the research team *Ahmed Sayed* and *Mohamed Abd ElAziz* for creating an enjoyable working environment.

***Mohamed Hashem Mohamed Bakr***

# ***Contents***

	<b><i>Page no.</i></b>
<b><i>List of tables.....</i></b>	<b><i>i</i></b>
<b><i>List of figures.....</i></b>	<b><i>ii</i></b>
<b><i>List of abbreviations.....</i></b>	<b><i>v</i></b>

## **CHAPTER 1**

### ***INTRODUCTION***

1.1	Printing inks	1
1.2	Types of printing inks	1
1.3	Composition of printing inks	2
1.4	Types of resins used in printing inks	4
1.4.1	Natural resins	4
1.4.2	Synthetic resins	5
1.5	Hyperbranched polymers	13
1.5.1	Historical background of hyperbranched polymers	14
1.5.2	Special features of hyperbranched polymers	16
1.5.3	Synthesis methodologies of hyperbranched polymers	19
1.6	Polyesters	32
1.6.1	History of polyesters	32
1.6.2	Methods of polyesters synthesis	34

1.6.3 Types of polyesters	43
1.6.4 Applications of hyperbranched polyesters in coatings	46

## **CHAPTER 2**

### ***EXPERIMENTAL***

2.1 Chemicals	55
2.2 Synthesis of polyester resins	57
2.2.1 Lab assemblies used for preparation of polyester resins	57
2.2.2 Procedure for preparation of polyester resins	58
2.3 Characterization of the prepared polyester resins	62
2.3.1 FTIR analysis	62
2.3.2 Molecular weight analysis	62
2.3.3 Acid value (AV)	62
2.3.4 Hydroxyl value (OHV)	63
2.3.5 Viscosity	64
2.3.6 Solubility	64
2.4 Characterization of the printed ink films	64
2.4.1 Ink formulation	64
2.4.2 Dry film thickness	65
2.4.3 Curl test	66
2.4.4 Adhesion test	66

2.4.5 Heat sealing test	67
2.4.6 Gloss measurement test	68
2.4.7 Color measurements	68

## **CHAPTER 3**

### ***RESULTS AND DISCUSSION***

3.1	Fourier Transformed Infrared (FTIR) analysis	67
3.1.1	FTIR analysis of acids	67
3.1.2	FTIR analysis of polyalcohol	79
3.1.3	FTIR analysis of the prepared polyester resins	87
3.2	Molecular Weight analysis	101
3.3	Physicochemical properties studies	106
3.3.1	Acid value and hydroxyl value	106
3.3.2	Viscosity and solubility	109
3.4	Characterization of the printed films	111
3.4.1	Dry film thickness	111
3.4.2	Curl test	111
3.4.3	Adhesion test	111
3.4.4	Heat Sealing test	112
3.4.5	Gloss measurement test	114
3.4.6	Color measurements	114
	Conclusion	117
	<b><i>References.....</i></b>	120
