Acknowledgment

I would like to express my deep gratitude to Professor Dr. Hamed Mahmoud Shatta, Professor Of Pediatrics, Faculty Of Medicine, Ain Shams University for granting me the privilege of working under his supervision and his encouragement, help, and advice throughout the whole work.

I would like also to express my great thankfulness to Professor Dr. Fimal Bishry Abdel-Kamid, Professor Of Psychiatry, Faculty Of Medicine, and Head Of Medical Section in The Institute Of Post-Graduate Childhood Studies, Ain Shams University for her kind help, and her usual support to me since I was a student in the Faculty Of Medicine.

I'm grateful to Professor Dr. Fahmy Ali El-Kerdany, Lecturer Of Clinical Pathology, Faculty Of Medicine, Ain Shams University, who was a real sister for me in every step in this work, for her constant assistance, fruitful suggestions, and continuous supervision.

I'm grateful also to Professor Dr. Medhat Hassan Shihata Lecturer Of Childhood Studies In The Institute Of Post-Graduate Childhood Studies, Ain Shams University, who began this work with me and was in fact a great support.

Grateful acknowledgment and deep appreciation are conveyed to Professor Dr. Mohamed Abdel-Aziz Eid, my father, Professor Of Psychology, Consultant And Head Of The Cultural and Social Planning Center, Institute Of National Planning, for his kind advice and help in the statistical analysis of the results, and supervision of all steps of this work.

I wish to express my sincere appreciation to my mother, Professor Dr. Saadia Mohamed Bahader, Professor Of Psychology, and Dean Of Institute Of Post-Graduate Childhood Studies, Ain Shams University.

Much thanks should go to my small family: my wife and son for saving me silence, time, and help.

I also want to express my thanks to my both sisters who were really of great help to me.

Again much gratefulness goes to all the patients and their parents, as their cooperation was indispensable for the performance of this work.

Eventually, much thanks goes to Professor Dr. Hamed Mahmoud Shalla, Professor Of Pediatrics, Faculty Of Medicine, Ain Shams University, Professor Dr. Saadia Abdel-Fattah Professor Of Pediatrics, Faculty Of Medicine, Ain Shams University, and Professor Dr. Zinab El-Ramly Professor Of Pediatrics, Faculty Of Medicine, El-Azhar University for devoting their precious time to discuss and assess this work.

I also wish to express my great and dear thankfulness to Dr. Ahmed El-Kahky, Assistant Lecturer Of Physical Therapy, Medical Department, Institute Of Post-Graduate Childhood Studies, Ain Shams University, for his neat and accurate finishing of this work.

Before and after all, I should pray and thank God for blessing and protecting this work until it came to light.
