ACKNOWLEDGEMENt

In the name of Allah the beneficent, the Merciful first and above all praise be to Allah the Almighty, the glorious who has bestowed upon us the faculties of thinking, searching and learning.

I would like to express my deepest gratitude to all who in one way or another contributed completion of this thesis

Prof. Dr. Ibrahim El-Katany El-Aassy, Prof. of Nuclear Ores Nuclear Materials Authority, for his supervision, honest guidance, continuous encouragement and trustful help through the experimentation and writing the manuscript.

Prof. Afaf Abd El-Lateef Nada, professor of Nuclear physics at Physics Department, Faculty of Woman for Art, Science and Education, Ain Shams University, for her advises in supervising the manuscript, generous assistance and continuous helpful discussions leading always towards more perfection and achievement of this work.

Dr. Noha Abdalla Mohamed Imam, Lecturer of Nuclear Physics, Physics & Geology Lab, National Institute of Oceanography and Fisheries, for her supervision trustful help in practical applications, encouragement and her valuable advice, support, friendship, continuous interest, encouragement and moral support during this work.

My parents and big brother Mahmoud for encouragement to complete my master. I would also like to thank Lab members of Nuclear Research who provided guidance and support in completing my master.
