B10AK1

DESIGNING AN ENVIRONMENTAL EDUCATION PROGRAM FOR PRESCHOOL CHILDREN

A Thesis By

RANIA AHMED ABD-ELRAHEEM ELSAYED

B.A in Education of Preschool Children

Abnormal Child Branch

Kindergarten College. Alex. Univ. 1997

In Partial Fulfillment of the Requirements for
Master Degree in Environmental Studies

B10AK1

Institute of Graduate Studies and Research

University of Alexandria

2002

SUPERVISORS

Prof. Dr. Medhat A. El-Nemer

Head of the Department of Curricula and Methodology,
Faculty of Education,
Alexandria University.

Dr. Farid R. Nomeir

Lecturer of Environmental Studies,
Department of Environmental Studies,
Institute of Graduate Studies and Research,
Alexandria University.

DEDICATION

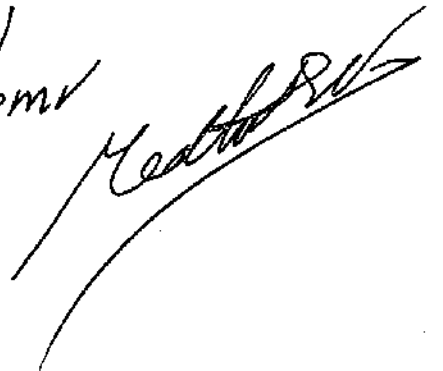

To those without whom, I would not have made it. Thank you.

Committee in Charge

1. Wasuf Bgry

Dr. Medhat A. El-Nemr

2. Hoda Baghdadi. 27/7/2002.

Acknowledgement

In The Name of God the Most Merciful, the Most Compassionate

I would like to inaugurate this research in the Name of God, who has been blessing and supporting me since my first moments in this institute.

I would like to express my deepest appreciation and gratitude to:

Professor Medhat El-Nemer who has been dedicating much of his valuable time to planning, reading, correcting, and enhancing my work, in addition to helping me keep up with the academic researchers' ethics and behaviorism.

Doctor Farid Nomeir for his advice, encouragement, his assistance during the preparation of the thesis, and reviewing of the manuscript.

The faculty of the Post-Graduate studies and Researches Institute, the most wonderful and supporting staff I have ever met.

Mrs. Hana, the principal of KG department - Victory College, the staff, and the wonderful kids of this school who have been of great emotional support.

The committee who have been dedicating their time to study my research ideology and procedure.

My friends and colleagues who have been helping and encouraging me to complete this research.

My family who have been suffering, forgiving, supporting, advising, and encouraging me since my first steps in this research.

May God let the program, presented in this research, prevail and spread throughout the country in order to enhance and develop the applied programs in the field of kindergarten.

Special Acknowledgement

For My Friend

Tarek Elgendy

Contents

	Page
Chapter I: Introduction.....	1
1.1 Research Problem	4
1.2 Research Limitations	4
1.3 Importance of the Research Point	4
1.4 Research Hypothesis	5
1.5 Research Procedure	5
1.6 Research Terminology	7
Chapter II: Review of Literature	8
2.1 The environment	10
2.2 The environmental education	12
2.2.1 The meaning of the environmental education	12
2.2.2 The Importance of environmental education	14
2.2.3 Objectives of environmental education	16
2.2.4 The basis that highlights growing the learning aspect of the environmental education from one educational year (grade) to another and from an educational phase to another	20
2.2.5 How to include environmental education in the public education curricula	22
2.2.6 Environmental education for the preschool children	23
2.2.7 Does environmental education suit children's age and abilities?.....	26
2.2.8 Why many children today are quite separated from their environment? And what are the results and solutions?.....	28
2.2.9 The teacher's role in the environmental education	30
2.2.10 The Environmental education methods	33
2.3 Guidelines for how to plan developmentally appropriate programs for young children	49
2.4 Planning developmentally appropriate activities	56
2.5 Teaching to Facilitate Cognitive Development	59
2.6 Guidelines for program development.....	60
2.7 Quality Indicators	68
Chapter III: Previous Studies	72
3.1 Studies concerned with the preparation of programs or units of the environmental education.....	73
3.2 Studies that discussed the measurement of the environmental awareness	85
3.3 General comment on the previous studies and the associated stand of the current study	105

Chapter IV: Preparing The Program	108
4.1 The program objectives	110
4.1.1 The general objectives	110
4.1.2 The operational objectives	111
4.2 Target age for the program	113
4.3 Program schedule	113
4.4 Program outlines	114
4.5 Program contents	114
4.6 The teacher's guide	114
4.7 The background and the web sites	115
4.8 The methodologies, activities, and educational Media	115
4.9 Program's topics assessment	116
4.9.1 Assessment tools	117
4.9.2 Purpose of assessment	118
4.10 Methodology of the data analysis	119
Chapter V: The Experiment and Results	120
5.1 Experiment methodology	121
5.2 Experiment sample	121
5.3 Experiment variables	121
5.4 Implementation of the program	122
5.5 Teaching the program	122
5.6 Results, analysis and interpretation	145
5.7 Discussion	151
Chapter VI: Conclusion and Recommendations	155
Chapter VII: Summary	159
References	172
Appendix: The children's responses	180
