Acknowledgment

I wish to express my deep thanks and gratitude to prof. Dr. Ahmed Radwan Khaled prof. and Head of Rheumatology and Rehabilitation department Faculty of Medicine Cairo university for his kind help, continuous encouragement and generous morals.

Also, I would like to extend my sincere appreciation and extreme thanks to prof. Dr. Amani Abd El Hamid Layel professor of Rheumatology and Rehabilitation, Faculty of Medicine, Cairo university for her constructive encouragement and advice throughout this study.

I am greatly indebted to prof. Dr. Samia Laki Hassan professor of Rheumatology and Rehabilitation Faculty of Medicine, Cairo university, for her willing guidance and continuous help in all the steps of this work.

Also I am indebted to prof. Dr. Shokry Hunter professor and head of department of Tropical medicine, Faculty of Medicine Cairo university for his encouragement and great help.

Also, I am indebted to prof. Dr. Makram Milad Melek Abdel Saayed professor of Pathology, Faculty of Medicine, Cairo university, for his encouragement and great help.

Also I would like to express my great thanks to Dr. Alyman Yossy lecturer of tropical medicine Faculty of Medicine Cairo university for his help in endoscopic procedures of this work.

And I wish to express my deepest thanks to Dr. Soliman Saba Soliman lecturer of pathology Faculty of Medicine Cairo university for his appreciated effort in pathological study of this thesis.

I am greatly indebted to Dr. Azza El Awar lecturer of Rheumatology and Rehabilitation Faculty of Medicine Cairo university for her help in the statistical procedure of my thesis.

Finally, I am obliged to all the members of pathology department, tropical department and Rheumatology departments for their help and support to me to fulfil this work.

CONTENTS

I . Introduction And Aim Of Work

II. Review of literature

1- Stomach	1
- Mucosal defence mechanisms	6
2- Drugs	
- Non Steroidal Anti-inflammatory Drugs	10
- NSAID Induced gastropathy	29
- Corticosteroids	40
- Disease Modifying Antirheumatic Drugs	58
3- Helicobacter pylori	70
III Patients and Methods	85
IV Results	93
V. Discussion	142
VI. Summary and conclusion	163
VII. References	165
VIII Arabic summary.	

List Of Tables

	Page
Table (I)The Commonly used corticosteroids	44
Table (1)Age, sex, Disease and ,drug intake duration	95
Table (2)Gastrointestinal score of patients of all groups	97
Table (3)Stomach endoscopic score of patients of all groups	100
Table (4)Stomach histological score of patients of all groups.....	103
Table (5)Duodenal endoscopic score of patients of all groups	106
Table (6)Duodenal histological score of patients of all groups	109
Table (7)Comparison amonge the all studied groups.....	113
Table (8) .. Comparison between H.pylori +ve patients of all groups..	121
Table (9) Comparison between H.pylori + ve and H.pylori - ve patients within the same group.....	129
Table (10)Correlation between the GIT, endo. and histo. findings of patients of all groups.	136

List Of Figures and Graphs

Fig.(I)	(Arachidonic acid metabolism) mechanism of action of NSAIDs	15
Fig.(II)	The carbon skeleton of the steroid molecule.....	40
Fig. (III).....	Commonly used corticosteroids preparations	41
Fig. (IV)	Structure of folic acid and methotrexate	65
Fig. (1)	GIT score of different groups.....	98
Fig. (2)	Stomach endo. score of different groups	101
Fig. (3)	Stomach histo. score of different groups	104
Fig. (4)	Duodenal endo. score of different groups.....	107
Fig. (5)	Duodenal histo. score of different groups.....	110
Fig. (6)	The mean GIT score of different groups.....	114
Fig. (7).	The mean sto. endo. score of different groups	115
Fig. (8)	The mean sto. histo. score of different groups	116
Fig. (9)	The mean duo. endo. score of different groups.....	117
Fig. (10)	The mean duo. histo. score of different groups	118
Fig. (11) ..	The mean GIT score of H.pylori +ve patients of all groups.	122
Fig. (12)	The mean sto. endo. score of H.pylori +ve patients of all groups	123
Fig. (13)	The mean sto. histo. score of H.pylori +ve patients of all groups	124
Fig. (14)	The mean duo. endo. score of H.pylori +ve patients of all groups	125
Fig..(15).....	The mean Duo. histo. score of H.pylori +ve patients of all groups	126
Fig.(16).....	The mean GIT score of +ve and - ve H. pylori patients within the same group.....	130
Fig(17)	The mean sto. endo. score of + ve and - ve H. pylori patients within the same group.....	131

Fig (18).....The mean sto. histo. score of + ve and- ve H.pylori patients within the same group.....	132
Fig (19)The mean duo. endo. score of + ve and - ve H.pylori patients within the same group.....	133
Fig(20).....The mean duo histo score of + ve and- ve H.pylori patients within the same group.....	134
Graph.(1) ..H.pylori attached to surface of col. cell of pylori mucosa..	137
Graph. (2)H.pylori in lumen of pyloric gland.	138
Graph. (3),(A)..Superficial gastritis with incomplete metaplasia	139
Graph (3), (B),..The same case with higher magnification.	139
Graph (4) ...Superficial gastritis without intestinal metaplasia.	140
Graph (5) ...Chronic superficial gastritis with H.pylori bacilli	141

ABREVIATIONS

AA	Arachidonic Acid
ARAMS	Arthritis Rheumatism and Aging Medical Information System .
CORTICO.	Corticosteroid.
DMARD	Disease Modifying antirheumatic drugs.
DUO	Duodenum.
Endo	Endoscopic.
GIT	Gastrointestinal tract.
H.pylori	Helicobacter pylori.
Histo	Histologic.
LT	Leucotrienes.
MTX	Methotrexate.
NSAID	Non steroidal antiinflammatory drugs.
PG	Prostaglandine.
Pka	PH equivalent (relative strengths of various amines).
RA	Rheumatoid Arthritis.
RF	Rheumatoid Factor.
STO	Stomach.
