Acknowledgment

All praise and all thanks to Allah, the one and only who has given me the strength, guided me and enabled me to accomplish this work.

I would like to express my deepest gratitude and sincere appreciation to **Dr. Maged Mohamed Zohdy**, Associate professor, Fixed prosthodontics department Faculty of Dentistry, Ain Shams University for his valuable scientific support, constructive comments and great effort throughout the course of this research.

I would like to offer my special thanks to **Dr. Ingy Hany Nouh**, Lecturer of Fixed prosthodontics department, Faculty of Dentistry, Ain Shams University for her patient guidance, enthusiastic encouragement and useful critiques of this research work.

At last, I would like to thanks my friends, professors, colleagues and staff members of the Fixed prosthodontics department, Faculty of Dentistry, Ain-Shams University for their constant help and encouragement.

Dedication

To **My father**, for all the encouragement and motivation to fight and face all the obstacles. You have been the best symbol of a great father. I Hope I always make you proud.

To **My mother**, the light that leads my life, she always leads me through valleys of darkness.

Thanks for support and prayers days and nights are the reasons I am who I
am today
