# **Study the Therapeutic Role of Mesenchymal Stem Cells in a Model of Temporal Lobe Epilepsy**

## *A Thesis*

*Submitted for the degree of Ph.D. of Science in Biochemistry As fulfillment for requirements of the Ph.D. of Science*

*By*

**Rania Said Salah Mohamed zedan**

Assistant researcher- National Research Centre  
(M.Sc. Biochemistry, Faculty of Science,  
Tanta University, 2010)

*Under the Supervision of*

**Prof. Gilane Mohamed Sabry**

Professor of Biochemistry  
Biochemistry Department  
Faculty of Science  
Ain Shams University

**Prof. Hanaa Hamdy Ahmed**

Professor of Hormones  
Head of Hormones Department  
Medical Research Division  
National Research Centre

**Prof. Somia Hassan Abd-Allah**

Professor of Biochemistry  
Medical Biochemistry and  
Molecular Biology Department  
Faculty of Medicine  
Zagazig University

# *The Acknowledgement*

My deepest heartfelt gratefulness to **Prof. Hanaa Hamdy Ahmed**, Professor of Hormones, Head of Hormones Department, Medical Research Division, National Research Centre for suggesting the point of this thesis, building up the hypothesis related to the results. Also, I thank her kind supervision, continuous support, and valuable guidance in all of the theoretical and practical aspects of this work,

I thank **Prof. Gilane Mohamed Sabry**, professor of Biochemistry, Biochemistry Department, Faculty of Science, Ain Shams University for kindly supervising the present work, reading and criticizing the thesis. Her valuable guidance and ultimate support are greatly appreciated.

I express my appreciation to **Prof. Somia Hassan Abd-Allah**, Professor of Biochemistry, Medical Biochemistry and Molecular Biology Department, Faculty of Medicine, Zagazig University for her great help and valuable advices to accomplish this work in the part of stem cells of the current work,

Sincere thanks and gratitude are to **Dr. Rasha El-Sherif Hassan**, Assistant Professor of Biochemistry, Biochemistry Department, Faculty of Science, Ain Shams University for kindly supervising this work, her valuable guidance and ultimate support are greatly appreciated.

I wish to express my deepest feeling of gratitude of **Prof. Wagdy Khalil Bassaly Khalil**, Professor of Molecular Genetic, Cell Biology Department, Genetic Engineering and Biotechnology Division, National Research Centre for his scientific help and providing all facilities throughout this work in regarding the molecular study of the current work,

I wish to thank **Dr. Ahmed A. Abd-Rabou**, Researcher of Biochemistry, Hormones Department, Medical Research Division, National Research Centre for his scientific help and continuous support.
