وافق مجلس المعلمين على منح الدرجة بتاريخ ١٩٤٤/١٢/١٥  
ويعمل المعلم

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿قَالَ رَبِّ اشْرَحْ لِي صَدْرِي وَيَسِّرْ لِي أَمْرِي وَأَجْلِلْ

عُقْرَةَ مِنِّ لِسَانِي يَفْقَهُوا قَوْلِي﴾

صدق الله العظيم

سورة طه آية ٢٥-٢٨

**DETECTION OF SOME CARCINOGENIC AROMATIC AMINES  
IN WATER ENVIRONMENT IN WEST INDUSTRIAL REGION  
OF ALEXANDRIA AND THEIR EFFECT ON RATS**

*Thesis*

Submitted to Medical Research Institute,  
Alexandria University  
For Partial Fulfilment of Ph.D. in  
*Applied Medical Chemistry*

*By*

**Amany Mohamed Ahmed El-Sikaily**  
*M.Sc. Applied Medical Chemistry 1990*

**Medical Research Institute  
Alexandria University**

**1996**

## **SUPERVISORS**

**Prof. Dr. Aziza Abd El-Azim Saad**

*Prof. of Biochemistry  
Applied Medical Chemistry  
Medical Research Institute  
Alexandria University.*

**Prof. Dr. Shehata Mahmoud El-Sewedy**

*Dean Medical Research Institute  
Alexandria University.*

**Prof. Dr. Rafic Sidky Guirguis**

*Head of Pathology Department  
Medical Research Institute  
Alexandria University.*

**Prof. Dr. Ahmed Mohamed Mohamed Ibrahim**

*Prof. of Marine Environment Division  
National Institute of Oceanography and Fishers  
Ministry of Scientific Research  
Alexandria.*

*To My  
Parent,  
Husband  
and Daughter*

## ACKNOWLEDGMENT

*First, all thanks to Allah, as we are owed to him for his great care.*

*My deepest gratitude is to Prof. Dr. Aziza Abdel-Azim Saad, Prof. of biochemistry, Applied Medical Chemistry Department, Medical Research Institute, Alexandria University, for her kind mother feelings, unlimited help, supervision, planning and encouragement throughout this study. To her I am truly indebted and thankful for the efforts she payed for improvement of this work and for her help instruction, continuous support and keen interest.*

*I kindly express my utmost appreciation and deepest gratitude to my Prof. Dr. Shehata Mahmoud El-Sewedy. Dean of Medical Research Institute. Alexandria University, for proposing the subject of this study and for his encouragement and deep concern.*

*I would like to express my deepest gratitude and thanks to Prof. Dr. Rafic Sidky Guirgius. Head of Pathology Department, Medical Research Institute, Alexandria University, for his encouragement, continuous help and valuable advice.*

*My deepest thanks to Prof. Dr. Ahmed Mohamed Ibrahim, Prof. of Marine Environment Division, National Institute of Oceanography & Fishers, Ministry of Scientific Research, for his supervision on the oceanographic study, encouragement and unlimited help throughout the whole work.*

*I would like to express my deepest appreciation and gratitude to Dr. Madiha Helmy Assistant Prof. of biochemistry, and Dr. Nagwa M. Assem lecturer of biochemistry. Biochemistry department. Medical Research Institute Alexandria University, for their kindness and useful advice, also for their help in collection of samples.*

*My thanks to Dr. Sohair Rizk, Assistant Prof. of Immunology Department, Medical Research Institute, Alexandria University, for her help in the immunological studies.*

*I gratefully Acknowledge Dr. Hoda Abu-Seif Helmy, assistant Prof. of Pathology. Medical Research Institute, Alexandria University , for revising the histopathological findings and helping me examining photographic microscopic slides.*

*My special thanks are extended to Dr. Awatef El-Sharkawy, Assistant Prof. of biochemistry, Applied Medical Chemistry, Medical Research Institute for her supervision in the determination of glutathione content in whole blood and glutathione S- transferase in the sera.*

*Finally, I am much indebted to all stuff members of Applied Medical Chemistry, and all stuff member of Marine Environment Division for their kind cooperation during the whole work.*

# CONTENTS

## CHAPTER I. INTRODUCTION

Pollution and water-----	1
I. Pollution of surface water-----	2
I.a. Lake Mariut-----	2
1- Tilapia-----	4
2- Catfish (Claris)-----	5
I.b. El-Mex bay-----	
1- Sargus- sargus -----	5
2- Siganus- rivulantis -----	6
II- Chemical pollutants-----	6
a. Aromatic amines -----	7
1- Benzidine -----	8
2- $\beta$ -naphthylamine. -----	9
b- Metabolism of xenobiotics -----	10
1- The fate of aromatic amine -----	11
a. Oxygenation of aromatic amines -----	12
b. Formation of reactive metabolites -----	13
c. Factors affecting the cancer- inducing capacity of aromatic amines -----	13
d. Place of formation of electrophilic intermediate -----	15
c- Responses to xenobiotics -----	15
III- Biochemistry of Glucuronidation and Sulfation --	17
a. Glucuronidation -----	18
b. Sulfate conjugation -----	19
c. Glutathione -----	20
d. Glutathione S- transferase -----	20

<b>IV- The Immune Response</b>	22
a. Activation of helper T lymphocytes	24
<b>V- Cytokines</b>	27
a- Structure and functions of cytokines	29
1- Interleukin- 1 (IL-1)	29
2- Interleukin- 2 (IL-2)	30
b- Mononuclear cell	30
1. Phagocytosis	31
2. Secretion of factors	32
<b>VI- Cell Injury</b>	33
<b>VII- The Liver</b>	35
<b>IIIX- The Kidney</b>	35
<b>IX- The lower Urinary Bladder</b>	38
<b>CHAPTER II. AIM of THE WORK</b>	39
<b>CHAPTER III. MATERIAL and METHODS</b>	41
A. Material	41
1. Chemicals..	41
2. Sampling.	41
a. Water	41
b. Fish	41
c. Experimental Animals	44
B. Methods	46
1- Extraction of Aromatic Amines	46
a. Estimation of aromatic amines in the water	46
b. Estimation of several industrial amines in fish	47
2- Biochemical Studies	56
a. Enzymatic assay of serum $\beta$ - glucuronidase activity	56
