ACKNOWLEDGMENT

First of all thanks "ALLAH" for helping me to accomplish this work and for giving me generously throughout my life.

My appreciation and grateful thanks are due to **professor. Zeinab Lotfy**, who helped me with her precious time, effort, and advice; I will always appreciate her help. My deepest gratitude and sincere thanks are also extended to **professor. Mohamed Owida**, for his close supervision, valuable advice, and continuous guidance toward the achievement of this work. I am deeply grateful for **Dr. Soria Ramadan**, for her everlasting encouragement, sincere support, and continuous guidance toward the fulfillment of this thesis.

Many thanks for the co-operation of all trainees, my colleagues, nursing director of Kaser El-Aini Nursing Development center. Thanks for my mother for standing beside me, without her support and her love. I would not have accomplished this work. Thanks for my father for his helping and encouragement to become the person I want. Thanks for my husband thanks to my sister in law for standing beside me. Thanks for my friend Heba for help me in application of the tools of this search.
