In the name of **ALLAH**, the most graceful, the ever nerciful. Praise be to **ALLAH**, and prayers and peace be upon the Imam of the pious our prophet **MOHAMMAD** and upon his kins, companions, followers and callers for his message till the day of judgement.

I stand in great debt to **Professor Youssef Mohammad Badran**, Professor of Radiology and Head of the Radiology Department, Faculty of Medicine, Assiut University. Whose great patience, suggestions, continuous support and encouragement have contributed greatly to this work. For him no works of thanks or gratitude are sufficient.

I am much obliged to **Dr. Bahgat Abd El-Hammed** Assistant Professor of vascular surgery for his great help, advise and valuable suggestions.

I would like to express my deepest gratitude and to record my atmost appreciation to **Dr. Abd El-Salam Abd El-Aziz** for his expert guidance, continuous help and encouragment.

I am deeply gratefull to all my senior staff and colleagues in the department of Radiology, Assiut University.
