**Efficacy of Neutrophil Lymphocyte Stress Factor
in Diagnosis of Sepsis and Prediction of Mortality
in Septic Patients Admitted to the ICU**

Thesis

Submitted for partial fulfillment of Master degree
in General Intensive Care

By

Mahmoud Alaa Eldin Mohamed El-sayed
M.B.B.Ch (Alexandria University, 2012)

Under Supervision of

Prof. Dr. Amr Mohamed El-said Kamel
Professor of Anesthesia, Intensive Care and Pain Management
Faculty of Medicine, Ain Shams University

Dr. Fady Adib Abd El-malek
Lecturer of Anesthesia, Intensive Care and Pain Management
Faculty of Medicine, Ain Shams University

Dr. Mohamed Said Shorbagy
Lecturer of Anesthesia, Intensive Care and Pain Management
Faculty of Medicine, Ain Shams University

**Faculty of Medicine
Ain Shams University
2020**

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالَ مَوْلَا

لَسْبَدَانِكَ لَا عِلْمَ لَنَا
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْعَظِيمُ

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgments

*First and foremost, I feel always indebted to **Allah**, the Most Beneficent and Merciful who gave me the strength to accomplish this work,*

*My deepest gratitude to my supervisor, **Prof. Dr. Amr Mohamed El-Said Kamel**, Professor of Anesthesia, Intensive Care and Pain Management, Faculty of Medicine, Ain Shams University, for his valuable guidance and expert supervision, in addition to his great deal of support and encouragement. I really have the honor to complete this work under his supervision.*

*I would like to express my great and deep appreciation and thanks to **Dr. Fady Adib Abd El-malek**, Lecturer of Anesthesia, Intensive Care and Pain Management, Faculty of Medicine, Ain Shams University, for his meticulous supervision, and his patience in reviewing and correcting this work,*

*I must express my deepest thanks to my **Dr. Mohamed Said Shorbagy**, Lecturer of Anesthesia, Intensive Care and Pain Management, Faculty of Medicine, Ain Shams University, for guiding me throughout this work and for granting me much of his time. I greatly appreciate his efforts.*

*Special thanks to my **Parents**, my **Wife** and all my **Family** members for their continuous encouragement, enduring me and standing by me.*

 *Mahmoud Alaa El-Din*

List of Contents

<i>Subject</i>	<i>Page No.</i>
List of Abbreviations.....	i
List of Tables.....	iii

Arabic Summary	—

List of Abbreviations

<i>Abbr.</i>	<i>Full-term</i>
APACHEII	: Acute Physiology And Chronic Health Evaluation II
APS	: Acute Physiology Score
ARDS	: Acute Respiratory Distress Syndrome
ATIII	: Anti-Thrombin III
CAP	: Community Acquired Pneumonia
CARS	: Compensatory Anti-inflammatory Response Syndrome
CO	: Cardiac Output
CRP	: C Reactive Protein
CVP	: Central Venous Pressure
EGDT	: Early Goal Directed Therapy
ER	: Emergency Room
ESICM	: European Society of Intensive Care Medicine
HAP	: Hospital Acquired Pneumonia
HCT	: HeamatoCrit
ICU	: Intensive Care Unit
IL	: Interleukin
LPS	: Lipopolysaccharides
MAP	: Mean Arterial Pressure
MODS	: Multiple Organ Dysfunction Syndrome
NLR	: Neutrophil Lymphocyte Ratio
NLSF	: Neutrophil Lymphocyte Stress Factor
PCT	: Procalcitonin
PIRO	: Prediction, Insult, Response, Organ dysfunction
qSOFA	: Quick SOFA
SAPSI	: Simplified Acute Physiology Score II

SBP	: Systemic Blood Pressure
SD	: Standard Deviation
SE	: Septic Encephalopathy
SIRS	: Systemic Inflammatory Response Syndrome
SOFA	: Sequential Organ Failure Assessment
SVR	: Systemic Vascular Resistance
TF	: Tissue Factor
TFPI	: Tissue Factor Pathway Inhibitor
TLR	: Toll Like Receptor
TM	: Thrombomodulin
TNF	: Tissue Necrosis Factor

List of Tables

Table No.	Title	Page No.
Table (1):	Most common primary focus of infection.....	6
Table (2):	Causative organisms in sepsis	7
Table (3):	Clinical characteristics.	77
Table (4):	Original comorbidities.....	79
Table (5):	Sites of infection in group I.....	80
Table (6):	Causes of ICU admission in group II.....	80
Table (7):	Microbiological culture results in the septic group.	81
Table (8):	Hemodynamic variables on ICU admission.....	81
Table (9):	Results of laboratory tests on admission.....	84
Table (10):	Sepsis markers on admission.....	86
Table (11):	APACHE II and SOFA scores on admission.....	89
Table (12):	Mortality of patients in the ICU within 5 days.....	91
Table (13):	ICU data, ICU severity scores and results of laboratory tests for patients with sepsis relative to mortality in the ICU within 5 days.....	92
Table (14):	Evolution of NLSF over 5 day period in the septic patients group.....	93
Table (15):	Evolution of CRP over 5 day period in the septic patients group.....	94

Table (16):	Evolution of Procalcitonin over 5 day period in the septic patients group.....	95
Table (17):	Evolution of SOFA score in the septic patients group.	96
Table (18):	Inflammatory markers for patients with sepsis relative to mortality in the ICU within 5 days.	97
Table (19):	Comparison between Group I: Septic patients and Group II: Non-septic patients as regards inflammatory markers cut-off values.....	99
Table (20):	Inflammatory markers cut-off values for patients with sepsis relative to mortality in the ICU within 5 days.	101
Table (21):	Correlation between inflammatory markers NLSF, CRP and procalcitonin with ICU data, ICU severity scores and results of laboratory tests using Pearson Correlation Coefficient in septic patients group.....	104

List of Figures

<i>Figure No.</i>	<i>Title</i>	<i>Page No.</i>
