**Effect of Breast feeding Educational Program on
Primipara Mother's Performance and their
Infants Growth and Development**

Thesis

*Submitted for the Partial Fulfillment of the
Requirements for Doctorate Degree in
Pediatric Nursing*

By

Magda Mohammed Ahmed El-deraa

(MSc. of Pediatric Nursing, 2014)

Faculty of Nursing- Ain Shams University

**Faculty of Nursing
Ain Shams University
2019**

**Effect of Breast feeding Educational Program on
Primipara Mother's Performance and their
Infants Growth and Development**

Thesis

*Submitted for the Partial Fulfillment of the
Requirements for Doctorate Degree in
Pediatric Nursing*

Under Supervision of

Prof. Dr. Iman Ibrahim Abd Al-Moniem

*Professor of Pediatric Nursing and Vice Dean of Community
Service & Environment Development Affairs
Faculty of Nursing- Ain Shams University*

Prof.Dr. Asmaa Nasr Eldin Mosbeh

*Professor of Pediatric Nursing
Faculty of Nursing - Ain Shams University*

Assisst. Prof. Dr. Madiha Amin Morsy Abou Khalaa

*Assistant Professor of Pediatric Nursing
Faculty of Nursing - Ain shams University*

**Faculty of Nursing
Ain Shams University
2019**

*First and foremost, I feel always indebted to **ALLAH**, the most merciful.*

*My deep thanks and appreciation are presented to **Prof. Dr. Iman Ibrahim Abd Al-Moniem**, Professor of Pediatric Nursing and Vice Dean of Community Service & Environment Development Affairs Faculty of Nursing- Ain Shams University for her encouragement since the very start of this work, and for her meticulous supervision and the time she devoted to me throughout the work.*

*I am deeply grateful to **Prof. Dr. Asmaa Nasr Eldin Mosbeh** Professor of Pediatric Nursing, Faculty of Nursing, Ain Shams University, for her constructive guidance, wide expertise, continuous and unlimited help, and for her support. I appreciate her active enthusiasm in providing me with a lot of knowledge.*

*I would like to express my deepest thanks and appreciation to **Dr. Madiha Amin Morsi**, Assist. Professor of Pediatric Nursing, Faculty of Nursing, Ain Shams University, for her useful comment, intensive support, comprehensive advice and the time she devoted to complete this work.*

My thanks are extended to all mothers who agreed to participate in this study for their help and cooperation.

Dedication

My Father

My Mother

My Husband and my children

**For their love, Support, Sacrifice, and
Encouragement that allowed me
to do this work**

List of Table

	Title	Page
Table related to Review		
(1)	Duration of storage Breast Milk	42
Table related to Results		
(1)	Number and percentage distribution of the studied mothers according to their characteristics	64
(2)	Number and percentage distribution of the studied infants according to their characteristics	70
(3)	Distribution of mothers according to their source of information at pre/post program	73
(4)	Distribution of the studied mothers regarding their knowledge about benefits of breast feeding at pre / post program	75
(5)	Distributions of the studied mothers regarding their knowledge about breast feeding at pre / post program	76
(6)	Distribution of the studied mothers knowledge regarding colostrum at pre / post program	77
(7)	Distribution of studied mothers regarding their observed practice for breast feeding technique at pre / post program	78
(8)	Distribution of study mothers by the knowledge gained about management of breast problem at pre & post program.	79

	<i>Title</i>	<i>Page</i>
(9)	Distribution of the studied mothers according to their knowledge regarding milk expression at pre / post program	80
(10)	Distribution of the studied mothers according to their knowledge about ways for storage of breast milk at pre/ post program	81
(11)	Distribution of the studied mothers knowledge regarding time of exclusive BF at pre/ post program	82
(12)	Distribution of the studied mother's knowledge regarding factors affecting breastfeeding at pre/ post program	83
(13)	Distribution of the studied mother's knowledge regarding barriers of breast feeding at pre/ post program	84
(14)	Distribution of the studied mothers according to their knowledge about time of weaning at pre/ post program	85
(15)	Distribution of the studied mothers according to their total knowledge about breast feeding at pre/ post program	86
(16)	Distribution of mother's practice for breast feeding at pre/ post program	88
(17)	Distribution of mother's practice regarding breast care at pre/ post program	89

	<i>Title</i>	<i>Page</i>
(18)	Distribution of mother's practice regarding breast milk expressing at pre/ post program	90
(19)	Distribution of infants according to their growth	91
(20)	Distribution of infants according to their development at pre/ post program	92
(21)	Distribution of the studied mothers regarding total practice score at pre/ post program	93
(22)	Relation between total knowledge and mothers characteristics at post program	95
(23)	Relation between total practice and mothers characteristic's	96
(24)	Relation between total mothers knowledge & total mothers practice	97
(25)	Correlation between total score of knowledge and total score of practice at post program	98

List of Figures

Figure	Title	Page
Figures related to Review		
(1)	The internal structure of the breast	14
(2)	Anatomy of Mammary Glands	15
(3)	Physiology of Lactation	16
(4)	Mature Milk	19
(5)	Cradle Hold position	27
(6)	Cross- Cradle Hold	27
(7)	Football Hold position	28
(8)	Side- lying position	28
(9)	Proper Breastfeeding Position and Latch-on	29
(10)	Get ready to breastfeed	29
(11)	Support the breast	31
(12)	Get infant to open mouth	31
(13)	Listen for sucking sounds	32
(14)	Break the seal to stop feeding	33
(15)	Expressing breast milk by hand	38
(16)	Manual Pump & Electric Pump	40
Figures related to Results		
(1)	Percentage distribution of the studied mothers according to their age (years).	65

Figure	Title	Page
(2)	Percentage distribution of the studied mothers according to their religion.	66
(3)	Percentage distribution of the studied mothers according to their marital status.	67
(4)	Percentage distribution of the studied mothers according to their educational level.	68
(5)	Percentage distribution of the studied mothers according to their profession.	69
(6)	Percentage distribution of infants according to their age.	71
(7)	Percentage distribution of infants according to their sex.	72
(8)	Percentage distribution of the studied mothers regarding source of information about BF.	74
(9)	Percentage distribution of the studied mothers according to their total mother's knowledge about breast feeding at pre/ post program	87
(10)	Percentage distribution of the studied mothers regarding total practice score at pre/ post program.	94
