MONA MAGHRABY

Faculty of Women for
Arts, Science and Education
Ain Shams University

Preparation and characterization of mesoporous carbons from different sources for adsorption of diclofenac compound from aqueous solutions

A Thesis

Submitted for Partial Fulfillment of the Requirements for The Master Degree of
Science (M. Sc.)
(Physical Chemistry)

Presented by
Ebtsam Said Hamza Amer

Supervisors:
Prof. Dr. / Nadia. A .Youssef

Prof. of Physical Chemistry-
Faculty of women, Ain Shams University.

Prof. Dr. / Seham Aly Shaban

Dr. / Maha Kamel El Ayashy

Prof. of Physical Chemistry
Egyptian Petroleum Research Institute

Lecturer of physical Chemistry- Faculty of
women, Ain Shams University

Faculty of Women for
Arts, Science and Education
Ain Shams University

Preparation and characterization of mesoporous carbons from different sources for adsorption of diclofenac compound from aqueous solutions

A Thesis presented

By

Ebtsam Said Hamza Amer

B.Sc. 2015

In Partial Fulfillment of the Requirements

For

**The Master Degree of Science (M. Sc.)
in Chemistry (Physical Chemistry)**

**Chemistry Department
Faculty of Women Arts, Science and Education
Ain Shams University**

2021

**Faculty of Women for
Arts, Science and Education
Ain Shams University**

Student name : Ebtsam Said Hamza Amer

Scientific Degree : B. Sc.

Department : chemistry

Name of faculty : Faculty of Women

University : Ain Shams University

B. Sc. Graduation year: 2015

M. Sc. Graduation year: 2021

Faculty of Women for
Arts, Science and Education
Ain Shams University

Preparation and characterization of mesoporous carbons from different sources for adsorption of diclofenac compound from aqueous solutions

Supervisors:

Head of Chemistry Department

Prof. Dr. Omaima Ahmed

ACKNOWLEDGEMENT

Acknowledgements

First and most, I thank **God**.

I am very grateful to my supervisor: prof. Dr. **Nadia. A . Youssef**, professor of Physical Chemistry, Faculty of women, Ain Shams University, for suggesting the research problem and her deep insight, for scientific valuable discussions and illuminating comments that made this work possible. I am indeed very proud to be a student belongs to her research school of chemistry.

I wish to thank **Prof. Dr. / Seham Aly Shaban**, Prof. of Physical Chemistry – Egyptian Petroleum Research Institute for her supervision in my entire experimental work.

I wish to thank **Dr. Maha Kamal El Ayashy**, lecturer of Physical Chemistry, Faculty of Women, Ain Shams University for support and continuous help.

My thanks extend also to all the staff members and my collages at Faculty of Women Ain Shams University for their cooperation during this work.

Last but not least, I am very grateful to my family. A special dedication to my mum and sisters who enabled me to finish this work through their love, care and encouragement. I want to thank them very much.
