MONA MAGHRABY

Assessment of Right Lobe Size/Serum Albumin Ratio as A non-Invasive Marker for Esophageal Varices in HCV Patients

Thesis

*Submitted for Partial Fulfillment of Master Degree in
Gastro-Enterology*

By
Eman Mobarak Kamel
M.B.B.CH

Under supervision of
Prof. Dr. Tarek Maged Elsakaty
*Professor of Gastro-Enterology
Faculty of Medicine – Ain Shams University*

Prof Dr. Ahmed Ali Monis
*Professor of Gastro-Enterology
Faculty of Medicine – Ain Shams University*

Dr. Salah Sharawy Galal
*Lecturer of Gastro-Enterology
Faculty of Medicine – Ain Shams University*

*Faculty of Medicine
Ain Shams University
2021*

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالَ

سَبِّحْ اِنَّكَ لَا تَعْلَمُ لَنَا
اِلَّا مَا عَلَّمْتَنَا اِنَّكَ اَنْتَ
الْعَلِيمُ الْعَظِيمُ

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgment

*First and foremost, I feel always indebted to **ALLAH**,
the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and profound gratitude to **Prof. Dr. Tarek Maged Elsakaty**, Professor of Gastro-Enterology, Faculty of Medicine – Ain Shams University for his keen guidance, kind supervision, valuable advice and continuous encouragement, which made possible the completion of this work.*

*I am also delighted to express my deepest gratitude and thanks to **Prof Dr. Ahmed Ali Monis**, Professor of Gastro-Enterology, Faculty of Medicine – Ain Shams University, for his kind care, continuous supervision, valuable instructions, constant help and great assistance throughout this work.*

*I am deeply thankful to **Dr. Salah Sharawy Galal**, Lecturer of Gastro-Enterology, Faculty of Medicine – Ain Shams University, for his great help, active participation and guidance.*

Eman Mobarak

List of Contents

Title	Page No.
List of Abbreviations.....	i
List of Tables	iv
List of Figures	vi
Introduction	1
Aim of the Work.....	3
Review of Literature	4
Patients and Methods.....	50
Results	54
Discussion	71
Summary and Conclusion.....	83
Recommendations	86
References	87
Arabic Summary	—

List of Abbreviations

Abb.	Full term
ALT.....	Alanine aminotransferase
Apo.....	Apolipoprotein
APRI.....	Aspartate aminotransferase to platelet ratio index
AST.....	Aspartate aminotransferase
AUC.....	Area under curve
BB.....	β -blocker
CBC.....	Complete blood count
CE.....	Capillary electrophoresis
CI.....	Confidence interval
CIA.....	Chemiluminescence immunoassay
CKD.....	Chronic kidney disease
CYP.....	Cytochrome P450
DAA.....	Direct-acting antiviral drug
DHS.....	Demographic Health Survey
Diag.	Diagnostic
EBL.....	Endoscopic band ligation
EGD.....	Esophago-gastro duodenoscopy
ELISA.....	Enzyme Linked Immunoassay
ESRD.....	End-stage renal disease
EVL.....	Endoscopic variceal ligation
EVS.....	Esophageal varices
FIB4.....	Fibrosis 4
GEV.....	Gastroesophageal varices
Hb.....	Hemoglobin
HBsAg.....	Hepatitis B surface antigen
HBV.....	Hepatitis B virus
HCV.....	Hepatitis C virus

List of Abbreviations Cont...

Abb.	Full term
HE.....	Hepatic encephalopathy
HIV	Human immunodeficiency virus
HRS	Hepatorenal syndrome
HVPG	Hepatic vein pressure gradient
INR	International normalization ratio
IST	Injection sclerotherapy
IV	Intravenous
LEV.....	Large esophageal varices
LLS/TLV.....	Left lateral segment-to-total liver volume ratio
LR	Diagnostic odd ratio
LR-	Negative likelihood ratio
LR+	Positive likelihood ratio
LS	Liver stiffness
NASH.....	Nonalcoholic steatohepatitis
NCR	Noncoding region
NK	Natural killer
NPV	Negative Predictive value
NS	Non-structural
NSBBs	Nonselective beta-blockers
PCR.....	Polymerase Chain Reaction
PHT	Portal hypertension
PLT	Platelet
PPIs	Proton pump inhibitors
PPV.....	Positive Predictive value
PT	Prothrombin time
RdRp.....	RNA polymerase
RT	Reverse transcription
SE	Standard error

List of Abbreviations Cont...

Abb.	Full term
TIPS.....	Transjugular intrahepatic portosystemic shunt
TNF	Tumor necrosis factor
VBL.....	Variceal banding
VH.....	Variceal hemorrhage

List of Tables

Table No.	Title	Page No.
Table (1):	Three different classes of DAAs against HCV	23
Table (2):	IFN-free combination treatment regimens available as valuable options for each HCV genotype.....	24
Table (3):	Demographic characteristics of the studied cases.	54
Table (4):	Laboratory and radiological findings among the studied cases	55
Table (5):	Esophageal varices among the studied cases	56
Table (6):	Comparison according to esophageal varices regarding age (years).....	57
Table (7):	Comparison according to esophageal varices regarding sex.....	58
Table (8):	Comparison according to esophageal varices regarding platelets ($\times 10^3/\text{mL}$).....	59
Table (9):	Comparison according to esophageal varices regarding INR.	60
Table (10):	Comparison according to esophageal varices regarding serum albumin (gm/dL).	61
Table (11):	Comparison according to esophageal varices regarding child grade.	62
Table (12):	Comparison according to esophageal varices regarding liver size (cm).	63
Table (13):	Comparison according to esophageal varices regarding liver size / serum albumin ratio.....	64
Table (14):	Diagnostic performance of liver size / serum albumin ratio in differentiating esophageal varices grades.....	65

List of Tables Cont...

Table No.	Title	Page No.
Table (15):	Diagnostic charactersitcis of liver size / serum albumin ratio cutoff points in differentiating esophageal varices grades.	68
Table (16):	Agreement between endoscopy and liver size / serum albumin ratio regarding esophageal varices grades.	70

List of Figures

Fig. No.	Title	Page No.
Figure (1):	Schematic representation of the actual viraemic hepatitis C virus (HCV) prevalence and the extrapolated total HCV infections per country	4
Figure (2):	Percent of men and women with hepatitis C antibody by age in Egypt in (A) 2008 and (B) 2015	5
Figure (3):	Geographical distributions of endemic pattern diversity of phylogenetic clades of hepatitis C virus	6
Figure (4):	HCV genotype distribution	6
Figure (5):	Prevalence of anti-HCV across 21 Egyptian governorates in 2016/2017	7
Figure (6):	Regulation of hepatitis C virus pathogenesis by host immunity and metabolic factors	9
Figure (7):	Amino acid sequence divergence scan of members of the <i>Hepacivirus</i> genus, with genome diagram drawn to scale underneath plot	10
Figure (8):	Natural history model for Hepatitis C virus infection and its sequelae	12
Figure (9):	Genome-wide search of RNA structure	13
Figure (10):	Experimental overview	14
Figure (11):	HCV lipoviroparticles and the virus life cycle	15
Figure (12):	HCV virus and replicon organization and membrane organization of the viral proteins	16

List of Figures Cont...

Fig. No.	Title	Page No.
Figure (13):	Diagnostic algorithm for HCV infection	19
Figure (14):	Milestones in HCV research and management.....	21
Figure (15):	Diagnostic algorithm for liver cirrhosis	30
Figure (16):	Algorithm for nutritional therapy in patients with liver cirrhosis	31
Figure (17):	Nutrition management for cirrhotic patients.....	33
Figure (18):	Diagnostic non-invasive methods for the detection of esophageal varices in patients with liver cirrhosis	39
Figure (19):	Calculation of variceal wall tension according to Laplace's Law	39
Figure (20):	Algorithm for the management of acute gastrointestinal bleeding in patients with cirrhosis.....	46
Figure (21):	Algorithm for the management of acute gastrointestinal bleeding in patients with cirrhosis.....	47
Figure (22):	Mechanism of portal hypertension and the development of gastrointestinal varices.....	48
Figure (23):	Screening endoscopy for esophageal varices per practice society guidelines	49
Figure (24):	Sex distribution among the studied cases.	54
Figure (25):	Child grades among the studied cases.....	55
Figure (26):	Esophageal varices among the studied cases.	56

List of Figures Cont...

Fig. No.	Title	Page No.
Figure (27):	Comparison according to esophageal varices regarding age.....	57
Figure (28):	Comparison according to esophageal varices regarding sex.	58
Figure (29):	Comparison according to esophageal varices regarding platelets.	59
Figure (30):	Comparison according to esophageal varices regarding INR.....	60
Figure (31):	Comparison according to esophageal varices regarding serum albumin.	61
Figure (32):	Comparison according to esophageal varices regarding child grade.....	62
Figure (33):	Comparison according to esophageal varices regarding liver size.....	63
Figure (34):	Comparison according to esophageal varices regarding liver size / serum albumin ratio.	64
Figure (35):	ROC curve for liver size / serum albumin ratio in differentiating esophageal varices grade-I from grade-0	66
Figure (36):	ROC curve for liver size / serum albumin ratio in differentiating esophageal varices grade II- from grade-I	66
Figure (37):	ROC curve for liver size / serum albumin ratio in differentiating esophageal varices grade-III from grade-II	67
