# **Assessment of Clinical Decision Support Systems in the Diagnosis of Oral Radiographic Lesions**

Thesis submitted to Oral Medicine, Periodontology, Oral Diagnosis  
and Radiology Department in partial fulfillment of the requirements  
for the Doctorate degree in Oral Radiology and Diagnosis

Presented by

**Mohamed Abd El-Fattah Ahmed Galal**

Assistant Researcher, National Research Center

B.D.S. 2000

M.D.S. 2013

Under supervision of

**Dr. Mary Medhat Farid**

Professor of Oral Radiology and Diagnostic Sciences, Faculty of  
Dentistry, Ain Shams University

**Dr. Amany Hussein Nemat**

Professor of Oral Pathology, Department of Surgery and Oral  
Medicine, National Research Center

**Dr. Mostafa Saad El-Din Ashmawy**

Associate Professor of Oral Radiology and Diagnostic Sciences,  
Faculty of Dentistry, Ain Shams University

**Dr. Ayman Abdel Wahab Amin**

Professor of Head & Neck Onco-surgery  
National Cancer Institute, Cairo University

Faculty of Dentistry  
Ain Shams University

2021

﴿وَمَا أُوتِيتُمْ مِّنَ الْعِلْمِ إِلَّا قَلِيلًا﴾

# *Acknowledgement*

# *Acknowledgment*

Before all and above all...thanks to **GOD** for everything

I would like to express my deepest gratitude and appreciation to **Dr. Mary Medhat Farid**, Professor of Oral Radiology, Faculty of Dentistry, Ain Shams University, for her valuable guidance, instructive supervision and sincere encouragement as well as brilliant ideas.

I am also greatly thankful to **Dr. Amany Hussein Nemat**, Professor of Oral Pathology, National Research Centre for her support and directing me throughout the study, and even before. Her sincere and witty remarks I still remember.

My deep thanks to **Dr. Mostafa Saad El-Din Ashmawy**, Associate Professor of Oral Radiology and Diagnostic Sciences, Faculty of Dentistry, Ain Shams University, for his sincere and kind help through the entire study period and for his valuable advice, together with his valuable experience and suggestions in the subject of our thesis.

I would pretend my deep thanks and appreciation to **Dr. Ayman Abdel Wahab Amin**, Professor of Head and Neck onco-surgery, National Cancer Institute, Cairo University, for his valuable help.

I would appreciate the support of my head and colleague, **Dr. Basma Mostafa Zaki**, Professor of Oral medicine and Periodontology, National Research Centre, who tried her best to reach the last station of my thesis, and offered a lot of encouragement and guidance.

Last but not least, I would like to thank all the staff members of the Oral Radiology Department, Faculty of Dentistry, Ain Shams University for their excellent support and cooperation, beginning from its head; **Prof. Dr. Mona Abou El-Fotouh**, as well as **Dr. Walaa Hamed**, **Dr. Sahar Samir**, **Dr. Naglaa Fathallah** and **Dr. Shaimaa Abu El Sadat**. They were really an affectionate fellowship, that I wish to continue lifelong.

Finally, I shall appreciate research colleagues who were really supportive by their notes, bits of information and wise suggestions, in using programs and data. On top of them was **Dr. Khaled Helmi El Wakeel**, Associate professor of Medical Anthropology, National Research Centre, who gave me from his time so friendly a lot. Also, in Statistics, **Dr. Khaled Keera**, who analyzed my difficult nominal data, as well as, **Pharmacist Rana Mohey El-Deen**, who thought and taught. **Dentist Benyamin Viktor** for his sincere help in data entry.

# *Dedication*

# *Dedication*

*To my father's soul, my mother  
and my whole family,  
near and far,  
who bear a lot from me.*
