Ain Shams University

Faculty of Engineering

Engineering Physics and Mathematics Department

Power Network Reconfiguration using Decision-making Optimization for Hosting Capacity Enhancement

By

Ibrahim Mohamed Diaaeldin Ibrahim Elsayed

B.Sc. Electrical Power and Machines, Ain Shams University, 2014
M.Sc. Engineering Mathematics, Ain Shams University, 2017

A Thesis Submitted in Partial Fulfillment of the Requirement for the Degree of

Doctor of philosophy in Applied Engineering Mathematics

Supervised by

Prof. Dr. / Almoataz Youssef Abdelaziz Mohamed

Electrical Power and Machines Department
Faculty of Engineering, Ain Shams University

Assoc. Prof. / Ahmed Mohamed Ibrahim Hassan El-Rafei

Engineering Physics and Mathematics Department
Faculty of Engineering, Ain Shams University

Assoc. Prof. / Shady Hossam Eldeen Abdel Aleem

Mathematical, Physical and Engineering Sciences Department
15th of May Higher Institute of Engineering

Cairo 2021

Ain Shams University
Faculty of Engineering
Engineering Physics and Mathematics Department

Power Network Reconfiguration using Decision-making Optimization for Hosting Capacity Enhancement

A Thesis submitted in the Partial Fulfillment for the Requirement
of the Degree of Doctor of Philosophy in Applied Engineering Mathematics

By

Ibrahim Mohamed Diaaeldin Ibrahim Elsayed

M.Sc. in Engineering Mathematics, Ain Shams University, 2017

B.Sc. in Electrical Engineering, Ain Shams University, 2014

Researcher Data

Name: Ibrahim Mohamed Diaaeldin Ibrahim Elsayed

Researcher name in publications: Ibrahim Mohamed Diaaeldin; Ibrahim Diaaeldin

Cell: +2-01016684188; +2-01284404474

E-mail: ibrahimmohamed@eng.asu.edu.eg; ibrahimmohamed@ieee.org

ORCID iD: 0000-0002-8720-4780

Scopus ID: 57211983049

Web of Science ResearcherID: AAH-2722-2020

Date of birth: March 1, 1993

Place of birth: Giza

Academic Degree: M.Sc. in Engineering Mathematics.

Field of Specialization: Applied Engineering Mathematics

University issued the degree: Faculty of Engineering, Ain Shams University.

Year of issued degree: 2017

Current job: Teaching Assistant in the Engineering Physics and Mathematics Department, Faculty of Engineering, Ain Shams University, Abbassia 11517, Cairo, Egypt.

STATEMENT

This thesis is submitted as partial fulfillment of Ph.D. degree in Engineering Mathematics, Faculty of Engineering, Ain Shams University, Abbassia 11517, Cairo, Egypt.

The author carried out the work included in this thesis, and no part of it has been submitted for a degree or qualification at any other scientific entity.

Ibrahim Mohamed Diaaeldin

ACKNOWLEDGEMENT

Thanks, and indebtedness is due to **ALLAH,** who made this work possible.

First, I would like to express gratitude to Prof. Almoataz Abdelaziz, for his continuous encouragement and aid towards fulfilling this work. He always encourages me to do my best in my research works. He deserves more than one can express. Second, I would like to express gratitude to Dr. Shady Abdel Aleem for his continuous encouragement, discussion, and hand-in-hand support towards fulfilling this work. He deserves more than what words can express; he taught me more than six months: how to write a manuscript, how to review it, and how to choose the appropriate journals. Besides, fruitful and continuous discussions were conducted via face-to-face meetings and mobile calls. He is my best academic mentor; he taught me: how to be precise in my scholarly works, how to fetch my objectives from other published research works, and how to present my work professionally. Third, the words cannot express my feelings towards Dr. Ahmed El-Rafei; he has been helping before and after applying to my Ph.D. and provided me many insights towards finding better ways to enrich my research career. Fourth, I would like to express gratitude to Prof. Ahmed F. Zobaa, Brunel University in London, for his kind support and help from the beginning of this work. I was honored to work with Prof. Zobaa; he is one of the pioneers in the renewable energies' integration field and power quality. Fifth, I would like to express gratitude to Dr. Ziad M. Ali, Aswan university, for his kind support and help. Sixth, I would like to express gratitude to Prof. Francisco Jurado, University of Jaen, Spain, for his kind support and help. Finally, I would like to express gratitude to Prof. Dr. Wael Fikry, Prof. Abd-Allah Elmarhomy, Dr. Faiza Selim, Dr. Sherif Mohsen Ismael, Eng. Mahy Ahmed, Eng. Othman Ahmed, Eng. Ahmed Elsherbeny, and my parents, words cannot express my gratitude for their continuous support and help.
