Implication of Immune System in Colorectal Cancer

Thesis

*Submitted for Partial Fulfillment of MD in
Medical Biochemistry and Molecular Biology*

By

Nourhan Hossam Eldine Youssef Elkhattam

*Assistant Lecturer of Medical Biochemistry and Molecular Biology
Faculty of Medicine - Ain Shams University*

Supervised By

Prof.Dr. Hanan Hussein Shehata

*Professor of Medical Biochemistry and Molecular Biology
Faculty of Medicine - Ain Shams University*

Prof.Dr. Sanaa Eissa Mohamed

*Professor of Medical Biochemistry and Molecular Biology
Faculty of Medicine - Ain Shams University*

Dr. Marwa Matboly Sayed

*Assistant Professor of Medical Biochemistry and Molecular Biology
Faculty of Medicine - Ain Shams University*

Dr. Marwa Mahmoud Abd El Hameid

*Lecturer of Medical Biochemistry and Molecular Biology
Faculty of Medicine - Ain Shams University*

Dr. Mohamed Kamel Hassan Farah

*Assistant Professor of Genetics and Molecular Biology
Biotechnology Program- Zewail University*

Faculty of Medicine - Ain Shams University

2021

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالَ

سُبْحَانَكَ لَا عِلْمَ لَنَا
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْعَظِيمُ

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgments

*First and foremost, I feel always indebted to **Allah** the Most Beneficent and Merciful.*

*I wish to express my deepest thanks, gratitude and appreciation to **Prof. Dr. Sanaa Eissa Mohamed**, Professor of Medical Biochemistry and Molecular Biology, Faculty of Medicine, Ain Shams University, for her meticulous supervision, kind guidance, valuable instructions and generous help.*

*Special thanks are due to **Prof. Dr. Hanan Hussein Shehata**, Professor of Medical Biochemistry and Molecular Biology, Faculty of Medicine, Ain Shams University, for her sincere efforts, fruitful encouragement.*

*I am deeply thankful to **Dr. Marwa Matboly Sayed**, Assistant Professor of Medical Biochemistry and Molecular Biology, Faculty of Medicine, Ain Shams University, for her great help, outstanding support, active participation and guidance.*

*Really I can hardly find the words to express my gratitude to **Dr. Marwa Mahmoud Abd El Hameid**, Lecturer of Medical Biochemistry and Molecular Biology, Faculty of Medicine, Ain Shams University, for her supervision, continuous help, and encouragement throughout this work.*

*Thanks to express my deepest thanks, gratitude and appreciation to **Dr. Mohamed Kamel Hassan Farah**, Assistant Professor of Genetics and Molecular Biology, Biotechnology Program, Zewail University for his generous help, valuable instructions and kind guidance.*

I would like to express my hearty thanks to all my family for their support till this work was completed.

This study was funded by STDF project number 22907

Nourhan Hossam Eldine Youssef Elkhattam

List of Contents

Title	Page No.
List of Tables.....	5
List of Figures	9
List of Abbreviations.....	16
Introduction	- 1 -
Aim of the Work	4
Review of Literature	
▪ Colorectal Cancer	5
▪ Toll-like Receptors.....	18
▪ microRNAs.....	30
Patients and Methods.....	41
Results.....	121
Discussion	187
Summary.....	205
Conclusion and Recommendations.....	211
References	212
Arabic Summary	

List of Tables

Table No.	Title	Page No.
Table 1:	Reverse Transcription Reaction components	82
Table 2:	Sequences of forward primers	85
Table 3:	Reaction mix for miScript SYBR Green PCR Kit for detection of <i>miR-122</i> , <i>miR-29b</i> and <i>miR-15b</i> relative expression	86
Table 4:	Cycling conditions for detection of <i>miR-122</i> , <i>miR-29b</i> and <i>miR-15b</i> relative expression	87
Table 5:	Sequences of the miRCURY LNA® miRNA mimics	101
Table 6:	Age in Different Groups of the Study (in years)	122
Table 7:	Mean of age in different groups of the study (in years).....	122
Table 8:	Clinicopathological factors and laboratory parameters in different groups of the study:.....	123
Table 9:	ROC curve analysis for serum concentration of CEA and CA19.9:.....	127
Table 10:	Positivity rate of CEA, CA19.9 for patients included in this study among the different study groups:	128
Table 11:	Grade, TNM stage, Early/Late stage, Metastasis and Relapse in Colorectal cancer group:	129
Table 12:	Positivity rate of Body mass index (BMI) among the different clinico-pathological factors in colorectal cancer group:.....	131
Table 13:	Differential expression of serum <i>TLR1</i> , <i>TLR7</i> and <i>TLR8</i> protein expression among the study groups:.....	133
Table 14:	ROC curve analysis for serum expression level of <i>TLR1</i> protein:.....	138
Table 15:	ROC curve analysis for serum expression level of <i>TLR7</i> protein:.....	139

List of Tables cont...

Table No.	Title	Page No.
Table 16:	ROC curve analysis for serum expression level of TLR8 protein:.....	140
Table 17:	Positivity rate of investigated serum TLR proteins among the different study groups:	141
Table 18:	Relation between serum TLR1 protein expression and the different clinico-pathological factors in colorectal cancer group:	142
Table 19:	Relation between serum TLR7 protein expression and the different clinico-pathological factors in colorectal cancer group:.....	143
Table 20:	Relation between serum TLR8 protein expression and the different clinico-pathological factors in colorectal cancer group:.....	144
Table 21:	Differential expression of serum <i>miRNA122</i> , <i>miRNA 29b</i> and <i>miRNA 15b</i> expression among the study groups:	145
Table 22:	ROC curve analysis for serum expression level of miRNA-122 RQ fold change:	150
Table 23:	ROC curve analysis for serum expression level of miRNA-29b RQ fold change:	151
Table 24:	ROC curve analysis for serum expression level of miRNA-15b RQ fold change:	152
Table 25:	Positivity rate of the investigated serum miRNAs among the different study groups:.....	153
Table 26:	Relation between serum <i>miRNA-122 fold change expression</i> and the different clinico-pathological factors in colorectal cancer group:	154
Table 27:	Relation between serum <i>miRNA-29b fold change expression</i> and the different clinico-pathological factors in colorectal cancer group:	155
Table 28:	Relation between serum <i>miRNA-15b fold change expression</i> and the different clinico-pathological factors in colorectal cancer group:	156

List of Tables cont...

Table No.	Title	Page No.
Table 29:	Correlation among the lab parameters CEA and CA19.9 and the investigated serum biomarkers; <i>serum TLR1, TLR7, TLR8 protein expression and serum RQ miRNA-122, RQ miRNA-29b, RQ miRNA-15b</i> among the three study groups:	157
Table 30:	Correlation among the lab parameters CEA and CA19.9 and the investigated serum biomarkers; <i>serum TLR1, TLR7, TLR8 protein expression and serum RQ miRNA-122, RQ miRNA-29b, RQ miRNA-15b</i> in colorectal cancer group.....	158
Table 31:	Performance characteristics of investigated serum biomarkers among the three study groups.....	159
Table 32:	Performance characteristics of investigated serum biomarkers in early stage of colorectal cancer	161
Table 33:	Differential expression of tissue <i>miRNA-122, miRNA-29b and miRNA-15b</i> among the study groups.....	163
Table 34:	Correlation between tissue and serum miRNAs:.....	165
Table 35:	Cell Count Analysis among untransfected and transfected groups with miRNA mimics and negative control done in triplets <i>in</i> LS174T and HT29 CRC cell lines	167
Table 36:	Cell Viability Analysis among untransfected and transfected groups with miRNA mimics and negative control done in triplets <i>in</i> LS174T and HT29 CRC cell lines	177

List of Tables *cont...*

Table No.	Title	Page No.
Table 37:	Differential expression of the investigated miRNAs; miRNA-122, miRNA-29b and miRNA-15b by RT-qPCR from extracted total RNA from cell pellet of harvested cells.....	181
Table 38:	The level of IL6 protein expression by ELISA as a downstream signal of TLRs activation by miRNA mimics as direct ligands from the supernatant of cell culture of LS174T and HT29 CRC cell lines	184

List of Figures

Fig. No.	Title	Page No.
Figure 1:	Colorectal Carcinogenic Pathways	14
Figure 2:	Colorectal cancer staging system	17
Figure 3:	Structure of TLRs.....	21
