Denervation of the Wrist Joint and Its Long Term Effect

Systematic Review/Meta-Analysis

*Submitted For Partial Fulfilment of Master Degree in
Orthopedic Surgery*

By

Ahmed Reda Attia

M.B.B.Ch, Faculty of Medicine-Ain Shams University

Under Supervision of

Prof. Dr. Mohammed Mostafa El-Mahy

Professor of Orthopedic Surgery

Faculty of Medicine - Ain Shams University

Dr. Amr Moustafa Mohammed

Lecturer of Orthopedic Surgery

Faculty of Medicine - Ain Shams University

*Faculty of Medicine
Ain Shams University*

2020

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

سبحانك لا علم لنا
إلا ما علمتنا إنك أنت
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgment

*First and foremost, I feel always indebted to
ALLAH, the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and profound gratitude to **Prof. Dr. Mohammed Mostafa El-Mahy**, Professor of Orthopedic Surgery, Faculty of Medicine - Ain Shams University for his keen guidance, kind supervision, valuable advice and continuous encouragement, which made possible the completion of this work.*

*I am also delighted to express my deepest gratitude and thanks to **Dr. Amr Moustafa Mohammed**, Lecturer of Orthopedic Surgery, Faculty of Medicine - Ain Shams University, for his kind care, continuous supervision, valuable instructions, constant help and great assistance throughout this work.*

*I would like to express my hearty thanks to all **my family and my friends** for their support till this work was completed.*

Ahmed Reda Attia

List of Contents

Title	Page No.
List of Tables	4
List of Figures	5
List of Abbreviations	9
Introduction	1
Aim of the Work.....	38
Materials and Methods	39
Results and Statistical Analysis	43
Discussion	73
Summary and Conclusion	78
References	80
Arabic Summary	

List of Tables

Table No.	Title	Page No.
Table (1):	List of studies included in the review	44
Table (2):	Meta-analysis of pain reduction by partial denervation	47
Table (3):	Meta-analysis of Pain reduction by total denervation	49
Table (4):	Comparison between partial and total denervation regarding pain reduction.....	51
Table (5):	Meta-analysis of Dash score by partial denervation	53
Table (6):	Meta-analysis of Dash score by total denervation	55
Table (7):	Comparison between partial and total denervation regarding Grip Strength (% of improvement pre-postoperative).....	58
Table (8):	Comparison between partial and total denervation regarding Grip Strength (% of the unaffected side postoperatively).....	59
Table (9):	Comparison between partial and total denervation regarding ROM (% of the unaffected side postoperatively)	61
Table (10):	Studies investigated progression of arthritis.....	63
Table (11):	Comparison between partial and total denervation regarding patient satisfaction.....	65
Table (12):	Comparison between partial and total denervation regarding reintervention	69
Table (13):	Comparison between partial and total denervation regarding ability to return to work.....	71

List of Figures

Fig. No.	Title	Page No.
Figure (1):	Three-dimensional (3D) images and oblique radiographs of B1 and B2 scaphoid nonunions.	3
Figure (2):	Innervation of palmar and dorsal aspects of wrist joint.	4
Figure (3):	The innervation of the wrist, dorsal aspect.	5
Figure (4):	The innervation of the wrist, palmar aspect	6
Figure (5):	Dorsal side of the distal forearm and wrist, showing the articular innervation area of the posterior interosseous nerve (PIN).	7
Figure (6):	Palmar side of the distal forearm and wrist, showing the articular innervation of the lateral antebrachial cutaneous nerve (LACN).	8
Figure (7):	Dorsal side of the distal forearm and wrist, showing the articular innervation of the posterior antebrachial cutaneous nerve (PACN).	9
Figure (8):	Dorsal side of the distal forearm and wrist, showing PIN and AIN.	9
Figure (9):	Palmar side of the distal forearm and wrist, showing the articular innervation of the anterior interosseous nerve (AIN).	10
Figure (10):	Palmar side of the distal forearm and wrist, showing the articular innervation of the median nerve	11
Figure (11):	Wrist joint innervation, dorsal view	15
Figure (12):	Wrist joint innervation, palmer view	16

List of Figures (Cont...)

Fig. No.	Title	Page No.
Figure (13):	Technique of wrist denervation with the 5 incisions indicated with palmar and dorsal views	16
Figure (14):	Landmarks for the skin incision used for partial denervation of the wrist.	17
Figure (15):	Denervation from the volar approach	18
Figure (16):	Symbolic representation of Hilton's Law by a tree with its roots (source), trunk and arborization (branching) pattern	19
Figure (17):	Spinal and supraspinal pathways of pain.....	23
Figure (18):	Blocking the PIN.....	27
Figure (19):	Blocking the superficial branch of the radial nerve	28
Figure (20):	Blocking the AIN	29
Figure (21):	Blocking cutaneous branches of the ulnar nerve	29
Figure (22):	Technique of preoperative testing.....	30
Figure (23):	Photographs of a cadaver specimen showing markings for the planned incision for the dorsal approach	31
Figure (24):	Isolation of the posterior interosseous nerve on the floor of the fourth dorsal compartment through dorsal midline approach (proximal to the right, distal left);	32
Figure (25):	Photograph of a cadaver specimen showing the appearance of the anterior interosseous nerve	33

List of Figures (Cont...)

Fig. No.	Title	Page No.
Figure (26):	Ulnar dissection identifies the branch to the triangular fibrocartilage complex area from the dorsal sensory branch of the ulnar nerve. ...	34
Figure (27):	Volar incision outlined on skin.	35
Figure (28):	The palmar cutaneous branch of the median nerve can be found in the interval between the FCR and the palmaris longus	36
Figure (29):	PRISMA flow diagram for study selection	45
Figure (30):	Forest plot for pain reduction after partial denervation	48
Figure (31):	Funnel plot for pain reduction after partial denervation	48
Figure (32):	Forest plot for pain reduction after total denervation.	50
Figure (33):	Funnel plot of pain reduction in total denervation group. Evidence of publication bias.	50
Figure (34):	Comparison between partial and total denervation regarding Pain Reduction. Which indicates highly significant different.	52
Figure (35):	Forest plot for Dash score in partial denervation.	54
Figure (36):	Funnel plot for Dash score in partial denervation	54
Figure (37):	Forest plot for Dash score in total denervation.	56
Figure (38):	Funnel plot for Dash score in total denervation.	56

List of Figures (Cont...)

Fig. No.	Title	Page No.
Figure (39):	Comparison between partial and total denervation regarding Grip Strength (% of improvement pre-postoperative).	58
Figure (40):	Comparison between partial and total denervation regarding Grip Strength (% of the unaffected side postoperatively).....	59
Figure (41):	Comparison between partial and total denervation regarding ROM (% of the unaffected side postoperatively).....	62
Figure (42):	Comparison between partial and total denervation regarding progression of arthritis. Which indicates highly significant different.	63
Figure (43):	Comparison between partial and total denervation regarding patient satisfaction. Which indicates nonsignificant different.	66
Figure (44):	Comparison between partial and total denervation regarding reintervention. Which indicates highly significant different.	69
Figure (45):	Comparison between partial and total denervation regarding ability to return to work. Which indicates nonsignificant different.	72

List of Abbreviations

Abb.	Full term
AB	<i>Articular Branches</i>
ABDBUN	<i>Articular Branches of the Deep Branch of the Ulnar Nerve</i>
ABMACN	<i>Articular Branch of the Medial Antebrachial Cutaneous Nerve</i>
ABUN	<i>Articular Branch of the Ulnar Nerve</i>
AFDBUN	<i>Articular Fibers of the Deep Branch of the Ulnar</i>
AIA	<i>Anterior Interosseous Artery</i>
AIN	<i>Anterior Interosseous Nerve</i>
CBSRN	<i>Connecting Branches of the Superficial Radial Nerve</i>
CFAB	<i>Connecting Fiber of the Articular Branch of the Common Palmar Digital Nerve</i>
CFABFIS	<i>Connecting Fibers of the Articular Branch of the First Interosseous Space</i>
CFDBUN	<i>Connecting Fiber of the Dorsal Branch of the Ulnar Nerve</i>
CFLACN	<i>Connecting Fibers of the Lateral Antebrachial Cutaneous Nerve</i>
CFMACN	<i>Connecting Fiber of the Medial Antebrachial Cutaneous Nerve</i>
CFPACN	<i>Connecting Fibers of the Posterior Antebrachial Cutaneous Nerve</i>
CFPIN	<i>Connecting Fiber of the Posterior Interosseous Nerve</i>
CFSRN	<i>Connecting Fibers of the Superficial Radial Nerve</i>
CFUN	<i>Connecting Fibers of the Ulnar Nerve</i>
CI	<i>Confidence Interval</i>
