Faculty of Science-chemistry Department

Development of Ultra-Trace Analysis for Specific Actinides and Lanthanides in Some Ores and Sea Water samples Using Inductively Coupled Plasma Mass Spectrometry (ICP-MS) Technique

Presented by

Mahmoud Sayed Ahmed Hassan Shahin

B.Sc.(Chemistry) 2000

M.Sc.(Chemistry) 2018

For the requirement of Ph.D. Degree of Science in Chemistry

Prof. Dr. Ebtissam Ahmed Saad

Prof. Dr. Sayed Ali El-Mongy

Dr. Ahmed Elshazly Mansour

Dr. Amir Ezzat Abo Elhasan

Professor of inorganic and Radiochemistry,
Faculty of Science, Ain Shams University.

Ex.-Chairman of Egypt Nuclear Regulatory
Authority (ENRRA).

Assistant Professor of nuclear physics,
Armed Forces.

Inorganic and Radiochemistry Lecturer-Ain
Shams university.

Department of Chemistry

Faculty of Science, Ain Shams University

2021

Acknowledgment

Above all and first of all, all gratitude is due to almighty **ALLAH**, by his grace and care, the completion of this work was possible, and I hope this work will be helpful.

The author is greatly indebted to **prof. Dr. Ebtisam Ahmed Saad**, Prof. of Inorganic Chemistry, Chemistry Department, Ain shams University, for her science supervision, continuous guidance, valuable advice, and reviewing.

The author is greatly gratitude to **prof. Dr. Sayed Ali El-Mongy**, (NRRA), for his supervision, continuous guidance, reviewing, the revision scientific help, and valuable advice.

***Words are not enough to thank my Spiritual father (Dr. Ahmed Elshazly Mansour) for all things.**

Thanks are given to Dr. **Amir Ezzat Abo Elhasan**, for his kind cooperation.

The author's science thanks are due to all my colleagues in **the main laboratories of chemical warfare** especially to my dear friend **colonel Ossama Hassan Radwan** for their kind cooperation.

Mahmoud Sayed Ahmed Hassan Shahin

List of Figures	<i>I</i>
List of Tables	<i>IV</i>
List of Abbreviations.....	<i>VI</i>
Abstract.....	<i>VIII</i>

Chapter 1: INTRODUCTION

1.1. Introduction.....	1
1.2. Aim and plan of the work.....	3
1.3. Literature Review.....	4
1.3.1. Rare earth elements.....	4
1.3.1.1 Production of REE.....	4
1.3.1.2 Light, Medium and Heavy REEs.....	5
1.3.1.3 Rare Earths (distribution, physical and chemical properties.....	9
1.3.1.4 Minerals That Contain REES.....	11
1.3.1.5. Rare Earths Applications.....	13
1.3.1.5.1 Applications of Rare Earth Elements in Clean Ener- gy.....	13
1.3.1.5.2 Industrial applications.....	14
1.3.1.5.3 Medical applications.....	15
1.3.1.5.4 Technological applications.....	16
1.3.1.5.5 Nuclear applications.....	18
1.3.1.5.6 Applications of REE According to Functional Uses.....	18
1.4. Uranium and Thorium.....	19
1.4.1. Properties of Uranium.....	20
1.4.2. Properties of Thorium.....	22
1.5. Black sand.....	22

1.6. Sea water.....	26
1.7. Phosphate ores.....	27
1.8. Isotopic Ratio Studies of Ores and Environmental samples.....	28

Chapter 2.Experimental

2.1. Study area.....	30
2.1.1. Black sand and sea water.....	30
2.1.2. Phosphate ores.....	31
2.2. Sampling.....	33
2.2.1 Black sand.....	33
2.2.2 Sea water.....	33
2.2.3 Phosphate Ores.....	33
2.3. Materials.....	33
2.3.1 Chemicals.....	33
2.3.2 Applied Equipment.....	34
2.3.2.1 Characterization and specification of analytical instruments...	35
I Open vessels acid digestion.....	35
II Microwave.....	35
III Inductive Coupled Plasma Mass Spectrometer.....	36
2.4. Methods	38
2.4.1 Samples Preparation.....	38
2.4.1.1 Black sand samples.....	38
2.4.1.2 Sea water samples preparation.....	41
2.4.1.3 Phosphate samples preparation.....	41
2.5. Standard calibration curves for ICP-MS.....	42
2.6. Analytical Quality Control.....	44
2.6.1 Analytical Performance.....	45

2.6.2	Uncertainty calculations.....	46
--------------	-------------------------------	----

Chapter3.Results and Discussion

3.1. Black sand samples analysis.....	48
3.1.1 Results of uranium and thorium concentrations black sand samples.....	48
3.1.2 Results of rare earth elements and related elements concentrations in black sand samples.....	51
3.1.3 Isotopic ratio ($^{235}\text{U}/^{238}\text{U}$), ($^{234}\text{U}/^{238}\text{U}$) and($^{238}\text{U}/^{\text{total}}\text{U}$) calculations for black sand samples.....	59
3.2. Results of seawater samples analysis.....	62
3.2.1 Results of uranium and thorium concentrations sea water samples.....	62
3.2.2 Rare earth element concentrations of sea water samples.....	64
3.2.3 Isotopic ratio ($^{235}\text{U}/^{238}\text{U}$), ($^{234}\text{U}/^{238}\text{U}$) and($^{238}\text{U}/^{\text{total}}\text{U}$) calculations for sea water samples.....	69
3.3. Results of Phosphate Samples analysis.....	72
3.3.1 Uranium and thorium in phosphate samples	72
3.3.2 Rare earth elements in phosphate samples.....	74
3.3.3 Isotopic ratio ($^{235}\text{U}/^{238}\text{U}$), ($^{234}\text{U}/^{238}\text{U}$) and($^{238}\text{U}/^{\text{total}}\text{U}$) calculations for Phosphate samples.....	78
Summary.....	82
Conclusion.....	84
Recommendations	86
References.....	87
Published paper.....	99
Arabic summary.....
