ACKNOWLEDGEMENTS

First and foremost, I thank Allah, the glorious and compassionate, for everything; for the generous help during this research and throughout my life.

I am deeply indebted to many people who have influenced and inspired me throughout the different stages of this research. I would like to express my deepest gratitude to my supervisors; **Professor Ghada Farouk** and **Professor Marwa Khalifa** for their intensive help, excellent advice, caring, patience and continuous encouragement throughout the whole research. I would never have been able to finish my dissertation without their guidance.

I am also thankful to my father **General Ashraf Refaat**, my mother **Mrs. Reham Abdallah** and my brother **Eng. Hussein Ashraf**. I can't thank them enough for their support, care and encouragement. I would also like to thank those who made this thesis possible, and everybody who helped, guided and supported me through this research. I am also thankful to all architects, engineers, writers and researchers whom I have benefited from through their work, books, articles, researches and internet websites.
