Acknowledgment

First and foremost, all praises and thanks are due to [ALLAH](#) Who Gave me strength and persistence to complete this work.

It is a genuine pleasure to express my deep thanks and gratitude to [Prof. Dr. Medhat Ahmed El-Zainy](#), Professor of Oral Biology and former Vice Dean of Society and Environmental Affairs, Faculty of Dentistry, Ain-Shams University for his valuable guidance, continuous support and precious advice throughout this work.

I owe a deep sense of gratitude to [Dr. Rabab Hassan Ali](#), Lecturer of Oral Biology, Faculty of Dentistry, Ain-Shams University who generously gave me her precious time, valuable help, advice and experience to accomplish this work.

It's my privilege to thank [Prof. Dr. Ahmed Mahmoud Halawa](#), Head of Oral Biology department, Faculty of Dentistry Ain shams University and all the staff for offering me generous time, guidance and updated facilities to complete this work.

Special thanks also to Oral Pathology and Oral Radiology departments, Faculty of Dentistry, Ain shams University for their kind assistance throughout this work.

I would like to sincerely show my appreciation and gratefulness to Assistant Professor Dr. Eman Abo Shady, Head of Oral Biology Department, Faculty of Oral and Dental Medicine, MTI University, and my beloved department colleagues, for being extremely supportive, kind and understanding along my journey.

I'm extremely thankful to every and each person who assisted me to complete this thesis.

Dedication

I would like to dedicate this thesis to my **father** and **mother**, who have showered me with prayers, encouragement and unparalleled love all along my journey.

To my siblings, **Marwa**, **Safa** and **Maram**, whom I would have never achieved any progress without being embraced with their unconditional love, gentleness and support.

To the apples of my eyes, my daughters **Lara** and **Lina**, your love is my big valid reason behind any achievement I would ever attain in my life..
