Acknowledgments

*All the glory, honour and power be to **ALLAH** Almighty, the most Merciful and Gracious, for equipping me with the spirit of wisdom, knowledge and understanding to carry out this research work, I cannot forget for a moment the indefatigable efforts of my supervisors,*

Prof. Dr. Kamilia Ragab Abo Shabana

Professor of Maternity and Gynecological Nursing, Faculty of Nursing, Ain Shams University for her continuous supervision, and encouragement. Her help and support helped me completion of this work,

Prof. Dr. Sahar Mossa Soliman

Professor of Maternity and Gynecological Nursing, Dean Faculty of Nursing, Ain Shams University for her support, encouragement, guidance and constructive criticism during this study.

Prof. Dr. Mevin Samir Metwally

Professor of Maternity and Gynaecological Nursing, Faculty of Nursing, Ain Shams University for her support, encouragement, guidance, valuable insight, constructive criticism and close supervision during the work of this study.

*Last but not least, I would like to express my inexhaustible gratitude to *My Husband*, *Family* and *the target group of this study*.*

***✍️ Thank you all,
Nagia Shawky Ebid***

Abstract

The present study **aimed to** study the influence of premarital counseling regarding consanguineous marriage on knowledge and attitude among university students. **A quasi experimental design** was used. The study was conducted at (Faculty of Nursing Ain Shams University) 178 students were included in the study through using a **purposive sample technique**. **Three tools** of data collection were used named Arabic structured -interviewed questionnaire sheet, Likert attitude scale and satisfaction sheet. **The study revealed** that a significant improvement was observed among the study group knowledge and attitude pre intervention compared post intervention, three fourth of studied sample had total correct knowledge and positive attitude post intervention. in addition a positive correlation between studied sample's knowledge and attitude post counseling. **The study concluded** that premarital counseling regarding consanguineous marriage had a positive influence on knowledge and attitude among university students. Based on this finding, the researchers **recommended;** integrate premarital counseling concepts regarding consanguineous marriage at undergraduate university education curriculum.

Key word: Premarital counseling, consanguineous marriage
