Biomineralization of selenium from red sea (Mangrove community) through remote sensing

A Thesis

Submitted in Partial Fulfillment of the Requirements for the
Degree of

M.Sc. Microbiology

By

Soad Hassan El-Saied Shatla

B.Sc. (Microbiology and Chemistry, 2015)

Supervised By

Prof. Mehreshan Taha El Mokadem

Professor of Microbiology, Botany department at Women Faculty For
Arts, Science and Education

Assoc. Prof. Sameh Bakr El Sayed El-Kafrawy

Associate Professor of Marine Sciences National Authority for Remote
Sensing and Space Sciences (NARSS)

Dr. Hala Abd Elmonem Ahmed

Lecturer of Microbiology, Botany department at Women Faculty For
Arts, Science and Education

2021

Ain Shams University
Faculty of Women
For Arts, Science & Education
Botany Department

Approval Sheet

**Title: Biomineralization of selenium from red sea
(Mangrove community) through remote sensing**

Name: Soad Hassan El Saied Shatla

B.Sc. (Microbiology and Chemistry, 2015)

Date: / /

Advisory committee

Prof.Mehreshan Taha EL-Mokadem

Professor of Microbiology, Botany Department, Women Faculty
For Arts, Science and Education

Prof. Hoda Hamed Mohamed EL-Hendawy

Professor of Microbiology, Science Faculty, Helwan University

Prof. Nagwa Mahmoud Sedky Othman

Professor of Biotechnology and Microbiology, Science Faculty
for Women, Al-Azhar University

Assoc. Prof. Sameh Bakr El Sayed El-Kafrawy

Associate Professor of Marine Sciences National Authority for
Remote Sensing and Space Sciences (NARSS)

Ain Shams University
Faculty of Women
For Arts, Science & Education
Botany Department

Announcement

**This thesis has not been previously,
submitted for any degree at this or at any
other university.**

Signature

Soad Hassan El-Saied Shatla

Dedication

*I dedicate this work to **soul of my deceased father**, my dear and beloved **affectionate mother**, friend, father and brother **Mohamed** and **sisters**. To everyone who encouraged and supported me. All my love and appreciation for my gift from Allah my beloved family.*

Acknowledgments

*Firstly, my best praise and endless thanks to **ALLAH**, who provided me with his grace in my all life.*

*I would like to express my grateful and hearty thanks to my dear, example and principal supervisor, **Prof. Mehreshan Taha El Mokadem**, Professor of Microbiology, Department of Botany, Faculty of woman for Arts, Science and Education, Ain Shams University, for suggesting the research point, valuable advice, keen guidance, comments, encouragement which made the completion of this thesis possible , support, useful suggestions, and patiently answering many questions and constructive criticism through the whole stages of this thesis, personally I learnt from her experiences and her highly professional attitude, patient and organization .*

*It is a great pleasure for me to express my grateful thanks to my supervisor **Assoc. Prof. Dr. Sameh B. El-Kafrawy**, Head of Marine Sciences department, National Authority for Remote Sensing and Space Sciences (NARSS) for his excellent advice, enthusiastic guidance, patiently answering many questions and encouragement towards the successful completion of this study.*

*It is a great pleasure for me to express my grateful thanks to my supervisor **Dr. Hala Abd El Monem Ahmed**, a lecturer of Microbiology, Department of Botany, Faculty of Women for Arts, Science and Education , Ain Shams University, for her advice , and patiently answering many questions, encouragement, through the whole stages of this thesis.*

Also, i would like to thank all of those that helped me directly or indirectly to complete my thesis.

*I would like to thank **my friend Manar Ahmed Mohamed Basheer**, Researcher at National Authority for Remote Sensing and Space Sciences (NARSS), for her encouragement, advice and help to complete my thesis.*

*I wish to express my deepest sense of gratitude and sincerest appreciation to **all** marine science lab team especially, **Mr/ Ali Abdel Hameed, Mr / Ameer Ashraf and Mrs/ Shimaa Refat** for their kindly help and supporting during the field trip and collection of samples and their significant guidance and valuable advice during my work for successful completion of my work.*

*I wish to express my deepest appreciation to **Prof. Ahmed Khalafallah**, Professor of Plant Ecology, Department of Botany, Faculty of Woman for Arts, Science and Education, Ain Shams University for his kind help and encouragement during the thesis.*

*It is my pleasant duty to express gratitude to **all botany department** for its encouragement, through the study.*
