Does 1-Minute Walk Test Predict Results of 6- Minute Walk test in Patients with Interstitial Lung Diseases?

Thesis

*Submitted for Partial Fulfillment of Master Degree in
Chest Diseases*

By

Engy Mohamed Riyad Soliman
M.B.B.Ch. Ain Shams University

Under Supervision of

Prof. Ashraf Mokhtar Taha Madkour
Professor of Chest Disease
Faculty of Medicine - Ain Shams University

Prof. Ibrahim Aly Mohamed Dwedar
Professor of Chest Disease
Faculty of Medicine - Ain Shams University

Assist. Prof. Maryam Ali AbdElkader
Assistant Professor of Chest Disease
Faculty of Medicine - Ain Shams University

Faculty of Medicine
Ain Shams University
2020

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

لَسْبَدَانِكَ لَا نَعْلَمُ لَنَا
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْعَظِيمُ

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgment

*First and foremost, I feel always indebted to **Allah**, the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and profound gratitude to **Prof. Ashraf Mokhtar Taha Madkour**, Professor of Chest Disease, Faculty of Medicine - Ain Shams University for his keen guidance, kind supervision, valuable advice and continuous encouragement, which made possible the completion of this work.*

*I am also delighted to express my deepest gratitude and thanks to **Prof. Ibrahim Aly Mohamed Dwedar**, Professor of Chest Disease, Faculty of Medicine - Ain Shams University, for his kind care, continuous supervision, valuable instructions, constant help and great assistance throughout this work.*

*I am deeply thankful to **Assist. Prof. Maryam Ali AbdElkader**, Assistant Professor of Chest Disease, Faculty of Medicine - Ain Shams University, for her great help, active participation and guidance.*

*I would like to express my hearty thanks to all **my family** for their support till this work was completed.*

Last but not least my sincere thanks and appreciation to all patients participated in this study.

Engy Mohamed

List of Tables

Table No.	Title	Page No.
Table (1):	Classification of severity of airflow limitation)	12
Table (2):	Specific considerations for 6MWT interpretation	23
Table (3):	Descriptive data	29
Table (4):	Spirometric values of the studied patients	30
Table (5):	Comparison between 1minute walking test indices at the start and at the end of test	31
Table (6):	Distance, Desaturation, Heart rate recovery, Dyspnea and Leg fatigue (using Borg scale) at 1 minute walking test.....	33
Table (7):	Correlation between spirometry results and distance at 1 minute walking test.....	33
Table (8):	Comparison between 6 minute walking test indices at the start and at the end of test	34
Table (9):	Distance, Desaturation, Heart rate recovery, Dyspnea and Leg fatigue (borg scale) at 6 minute walking test.....	36
Table (10):	Correlation between spirometry results and distance at 6 minute walking test.....	37
Table (11):	Correlation between BMI and distance at 1 minute walking test and 6 minute walking test.....	37
Table (12):	Comparison between data collected at start and end of 1 minute walking test and 6 minute walking test.....	38
Table (13):	Correlation between distance at 1 minute and at 6 minutes among the studied patients.....	40

List of Tables (Cont...)

Table No.	Title	Page No.
Table (14):	Correlation between Heart rate recovery at 1 minute and at 6 minutes among the studied patients.....	41
Table (15):	Correlation between dyspnea (borg scale) at 1 minute and at 6 minutes among the studied patients.....	42
Table (16):	Correlation between Leg fatigue (borg scale) at 1 minute and at 6 minutes among the studied patients.....	43
Table (17):	Correlation between SPO2 (start) at 1 minute and at 6 minutes among the studied patients.....	44
Table (18):	Correlation between SPO2 (end) at 1 minute and at 6 minutes among the studied patients.....	45
Table (19):	Correlation between SPO2 decline at 1 minute and at 6 minutes among the studied patients.....	46

List of Abbreviations

Abb.	Full term
1MWT	1-Minute Walking Test
6MWT	6-Minute Walking Test
BAL.....	Bronchoalveolar Lavage
BMI	Body Mass Index
COPD	Chronic Obstructive Pulmonary Disease
CPR	Cardiopulmonary Resuscitation
CT	Computed Tomography
ERV	Expiratory Reserve Volume
FEV1.....	Forced Expiratory Volume in the First Second
FVC	Forced Vital Capacity
HP	Hypersensitivity Pneumonitis
HRCT	High-Resolution Computed Tomography
IC	Inspiratory Capacity
ILDs	Interstitial Lung Diseases
IPF	Idiopathic Pulmonary Fibrosis
MDD	Multidisciplinary Diagnosis
PEF	Peak Expiratory Flow
PFTs	Pulmonary Functional Tests
RA-ILD	Rheumatoid Arthritis-Associated ILD
RV	Reserve Volume
Spo2.....	Peripheral capillary oxygen saturation
TV	Tidal Volume
VC	Vital Capacity

AIM OF THE WORK

To investigate if the 1-minute walking test (1MWT) predicts the results of 6MWT as regards exercise capacity, exercise induced oxygen desaturation in patients with ILDs.
